DURHAM CHRONICLE

W. IRWIN, Editor and Proprietor.

Durham, Sept. 28, 1905.

Edge Hill.

Albert McGirr is engaged with
Thos. Ritchie for a couple of months.
Mr. Owen Hefferman, the well
known cattle buyer, of Marden, vis-
ited his daughter, Mrs. Thos. Mor-
rison, on Saturday last.

Miss Aggie Moffat, of Greenock, is
visiting her many relatives in this
neighborhood.

Mrs. Jos. McNally was unwell for
some time but is now much improved.
A fine baby girl, number five, came
to stay with Mr. and Mrs. Archie
Ector on Tuesday, 19th inst. Mother
and daughter are doing well. There
will certainly be no scarcity of girls
in this vicinity in a few years.

Mr. Raymond Bell, after a year in
the employ of Mr. W. R. Edge, left
on Friday morning last for Cleveland,
Ohio, to look for employment there.

Mr. D. Edge has torn down his old
barn and in its place erected a com-
fortable pig pen. Mr. Walter Middle-
ton had the contract and made a first
class job of it.

Mr. and Mrs. Geo. Firth of Jessop-
ville, visited friends here last week.
Mrs. Firth will remain for some time
but Mr. Firth returned home on Fri-
day, his two nieces, Misses Lily
Ritchie and Aggie Moffat accompa-
nying him for a short visit.

A Remedy Without a Peer.

I find Chamberlain's Stomach and
Liver Tablets more beneficial than
any other remedy I ever used for
stomach troubles," says J. P. Klote,
of Edna, Mo. For any disorder of
the stomach, biliousness or constipa-
tion, these Tablets are without a
peer. For sale at Parker's Drug
Store.

Mr. John Carey came up from
Stratford last week to attend his
father-in-law's funeral and on Friday
took in the races. Some time
while here he lost a roll containing
\$135. He does not know what be-
came of it, but remembers being
jeered when purchasing an ad-
mission ticket to the races and thinks
that was the time he was touched.
—Bruce Herald.

Cause of Insomnia.

Indigestion nearly always dis-
turbs the sleep more or less and is
often the cause of insomnia. Many
cases have been permanently cured by
Chamberlain's Stomach and Liver
Tablets. For sale at Parker's Drug
Store.

Mr. B. Collins of San Francisco, a
brother to Mrs. David Robertson of
Walkerton, has patented a linotype
mouthpiece. The Scientific American
says: "In the patent the object of
the inventor is the provision for the
metal pot or crucible of a linotype
machine, by means of which mouth-
piece to allow a better flow of metal
into the mold and also to allow for
the thorough venting of the mouth-
piece, thus preventing defective
slugs.—Bruce Herald.

When Seven Men Die.

You know at least one of them had
Consumption. At first it was only
catarrh—but it was neglected. When
"Catarrhozone" cures so quickly
it's foolish to suffer—it's a shame
to keep sniffeling and hawking.
Catarrhozone goes direct to the cause
of the disease,—that's why it's so
dead certain to cure. It stops the
cough, prevents that disgusting dis-
gusting discharge, clears phlegm out
of the throat in five minutes. Very
pleasant and safe too; get Catarrho-
zone from your druggist to day.

A fracas took place at the Cement
Works, Shallow Lake, on Monday
afternoon last which came near end-
ing fatally for one of the participants.
It appears that one of the Italians
and a local man got into a fight,
which soon brought the friends of
both men to the scene of conflict; and
in a very short time the fight was
general. When the smoke was clear-
ed away, it was found that Jas.
Adamson, jr. had been stabbed a
number of times in the throat and
back, by one of the Dagos. A search
was immediately made for the guilty
native of Sunny Italy and after con-
siderable chase he was eventually
secured and immediately placed un-
der arrest. There being no lockup in
Shallow Lake, the prisoner was taken
to Owen Sound, where he will be
held pending the recovery of the
wounded man. The condition of Mr.
Adamson is much improved and
should blood poisoning not set in his
recovery is assured. No doubt the
Italian reached for a vital spot for
in the throat wound a hair's breadth
would have severed the jugular vein.
On Mr. Adamson's recovery will de-
pend the charge to be laid against
the prisoner but in any case he will
be a resident of Kingston Peniten-
tiary for several years to come. It
has long been known that the
Italians of Shallow Lake have been
carry knives, contrary to the law,
and with their liking for that
weapon it might have known that
they would use it at the first oppor-
tunity and we are of the opinion that
a good deal of blame should be at-
tached to the authorities of that
village for allowing such a condition
of affairs to exist.—Hepworth Cor-
respondent in the Warton Canadian.

The Tonic of Health.

Must be more than a stimulant—
must be a food as well. There is one
medicine that is both a food and a
tonic,—it aids digestion, promotes
assimilation, converts food into
nutrition that builds up nerves, blood,
brain and bone. That tonic is Ferro-
zone which contains exactly what
a run-down system needs. Ferrozone
supplies oxygen to purify the blood,
phosphorous to develop the brain,
iron to harden the muscles. No
wonder it makes such vigorous men
and women. You'll eat, sleep, think
and feel better by using Ferrozone;
try it—now. Fifty cents buys a box
of fifty chocolate Ferrozone tablets,
at all dealers.

THE PRACTICAL FARMER'S EDU- CATION.

Farming is now recognized as a
profession demanding scientific
knowledge and technical skill, and
the farmer who would keep abreast
with the times takes as many papers
on his profession as he can find time
to read. He knows that wide read-
ing is essential to his success. He
also knows that the agricultural
press is one of the most powerful
agencies to-day in improving meth-
ods of farm practice. It is a strong
factor in disseminating information,
ideas and suggestion relating to
scientific and practical agriculture.
Thousands of the best farmers in Can-
ada read The Weekly Globe and Can-
ada Farmer, which in addition to
being a great family newspaper, it is
essentially a farmer's journal, and
gives more special agricultural infor-
mation than many papers devoted to
this one subject. It is edited by an
agricultural specialist, a graduate of
the Ontario Agricultural College and
University of Toronto, who is also a
practical farmer. During the com-
ing year The Weekly Globe and Can-
ada Farmer will give its readers a
series of good things of great prac-
tical value. The subjects will include
a study of the principles of agricul-
tural science and the application of
these principles to farm practices in
the growing grain, grasses, roots,
vegetables, fodder crops etc. and in
the care, management, breeding, etc.
of cattle, horses, sheep, swine and
poultry. The building of stables

and barns, the construction of pig-
eries, sheep pens and poultry houses
will be amply treated. The problems
of the fruit farmer and beekeeper will
also be discussed from time to time.
In addition to the foregoing, a series
of articles on road-making, beautify-
ing the country, improving rural life
etc., will be published. Many stock
farms will be visited and described.
Farmers' conventions and agricultur-
al associations will be reported.
The possibilities and opportunities
awaiting the settler in the newer
sections of Canada will be amplified;
in brief, nothing will make the Agri-
cultural Department of the Weekly
Globe and Canada Farmer even more
valuable and more popular than it is
to day.

A "Wheezy" Chest.

Means your trouble is deep seated.
To delay is dangerous. All the in-
flammation will be drawn out in one
day by applying Nerviline. It pene-
trates through the pores of the skin,
relieves inflammation and thus
prevents serious consequences. For
sore throat, weak chest and tendency
to colds, no prescription is better
than Polson's Nerviline. For nearly
fifty years it has been Canada's great
household remedy. Twenty-five
cents buys a large bottle.

The country newspaper combine is
the biggest trust on earth. It trusts
every body, gets cussed for trusting,
mistrusted for cussing, and if busted
for trusting gets cussed for busting.

A LITTLE OF EVERYTHING.

A Canadian, living in Pontiac,
Mich., has three wives. Wonder
how much he'd sell one of 'em for.

A Toronto man was up before the
"beak" the other day charged with
kicking a police officer when was
down. It's a sad state if a policeman
can't sit down for a snooze now and
again "t'bout some body a'thumping"
on him.

The "producers" in the Russian oil
fields as Baku, owing to the helplessness
of the police, are forced to
purchase their safety from the band-
its of that country. If such a state
of affairs ever come to pass in the U.
S., Chicago would probably miss
some of the \$6,000,000, Rockefeller,
donations.

The U. S. Deputy Collector at
Charlotte N. Y., who ordered the
hauling down of a Canadian flag, on
Independence Day has been removed
or transferred. Canadian honor has
been upheld. Probably England
didn't have anything to do with it,
or it might have gone the same way
as the Alaskan boundary.

Petroleum has been discovered
bubbling up in lake Abitibi. Cobalt,
and copper have also been discovered.
Now for the rush.

Sir Wilfred Laurier told the people
of Fort William, that his object in
bringing the Grand Trunk Pacific in
their direction, was to make it the
"Chicago of the West." When it
comes down to plain everyday talk
he is spending a million on the Win-
nipeg-to-Moncton line, to carry trade
the other way. Some more "Sunny
Ways."

John D. Rockefeller, Jr. has retired
from active business and will take
a trip abroad. Wonder how much of
a boost Standard Oil is entitled to
now.

An American Disease.

Some doctors go far as to say that
indigestion is the national disease of
America. There is but one national
remedy for indigestion and that reme-
dy is Dr. Hamilton's Pills which ac-
celerate the action of the gastric
glands and give tone to the digestive
organs. They strengthen the kid-
neys and liver, cleanse and purify
the blood and thus add general tone
to every organ of the body. Flesh
and strength are fast restored and
the patient can eat and digest any
food he pleases. Test Dr. Hamilton's
Pills yourself, 25c per box or five
boxes for \$1.00 at all dealers.

Ayer's Pills

Ayer's Pills. Ayer's Pills.
Ayer's Pills. Keep saying
this over and over again.
The best laxative.

Want your moustache or beard

Watchmaker Jeweller Orsilva
Durham, Ontario.

HOW CONSUMPTION STARTS.

Tired When You Waken—Languid
All Day—Nerves Worn Out—
Snap All Gone.

Your limbs feel "draggy" and ex-
cessively weak. A night's sleep sel-
dom brings satisfying rest. Contin-
uous headaches, exhaustion and
nervous sensations destroy your
health. Soon every spark of vitality
is used up. Then you catch tuber-
culosis.

Start to-day. Build up, get new
nerve force, and overcome this pro-
cess of decay. Use Ferrozone, which
physicians consider the most vitaliz-
ing, uplifting tonic ever made.

Ferrozone cures because it can fur-
nish the body with sufficient nutri-
ment and building material

Think of the instant effect—at
once the appetite increases, delight-
ful color in the cheeks proves that
rich, red blood is being circulated.
Tired muscles are invigorated, flesh
and weight are added. Nerve force
develops, and bounding, joyous
health is firmly established.

This is certain—Ferrozone restores
failing strength from any cause. The
experience of Mrs. Thos. Dowd, of
Schreiber, Ont., proves this:

"Household worries and cares had
about exhausted my strength. I was
weak and miserable. My cheeks
lacked the color of health, and oc-
casionally I had spells of rheuma-
tism. Then my appetite fell off, and
nothing could tempt me to eat.
Worn-out feelings, chills and des-
pondency filled my very being. I
became anaemic and dwindled down
to a shadow. Consumption was very
near. Ferrozone put strength in my
body with a rush. It built me up,
strong, virile and happy, and I have
been well ever since."

Ferrozone cures sickness by curing
the cause—lack of blood and nerve
tone. It keeps people at their best—
fit, ready and anxious for work. In
50c. boxes only, six for \$2.50, at all
dealers, or N. C. Polson & Co., Hart-
ford, Conn., U. S. A. and Kingston,
Ont.

T. Long & Bro. Company have suf-
fered another serious loss by fire, al-
though not to the extent of the fire
two years ago, the interruption to
business at this season of the year
will in itself entail a large loss to the
firm.

The fire occurred between six and
seven o'clock in the morning, and
the alarm was turned in at 6.45. The
fire brigade were on the spot without
loss of time, and the flames were
confined to a small area, but the
damage by smoke and water will be
extensive.

The fire evidently originated on
the second floor of the dry goods de-
partment, as this floor and the floor
above were burned away for a space
of 20 feet. At this point there are
quite a number of electric wires as-
sembled, and it is supposed that by
some means they ignited the rafters.

The loss is fully covered by insur-
ance in the following companies:
Sun \$10,000, Alliance \$5,000, North
British and Mercantile \$5,000, Anglo
American \$10,000, New York Under-
writers' \$5,000, Northern \$10,000,
British American \$5,000.—Colling-
wood Enterprise.

The Engineer Cried.

"Yes, indeed, we have some queer
little incidents happen to us," said
the Engineer. "A queer thing hap-
pened to me about a year ago.—You'd
think it queer for a rough man like
me to cry for ten minutes, and no-
body hurt either, wouldn't you?
Well I did, and I almost cry every
time I think of it.

"I was running along one after-
noon pretty lively, when I approach-
ed a little village where the track
cuts through the street. I slacked
up a little, but was still making good
speed, when suddenly about twenty
rods ahead of me a little girl not
more than three years old toddled on
to the track. You can't even im-
agine my feelings. There was no
way to save her. It was impossible
to stop, or even to slack much, at
that distance, as the train was heavy

and the grade descending. In ten
seconds it would have been all over,
and after reversing and applying the
brake I shut my eyes. I didn't want
to see any more.

"As we slowed down my fireman
stuck his head out of the cab window
to see what I had stopped for, when
he laughed and shouted to me—'Jim,
look here!' I looked and there was
a big, black Newfoundland dog hold-
ing the little girl in his mouth,
leisurely walking towards the house
where she evidently belonged. She
was kicking and crying, so that I
knew she wasn't hurt, and the dog
had saved her—My fireman thought
it funny and kept laughing, but I
cried like a woman. I just couldn't
help it. I had a little girl of my
own at home—Catholic Home Com-
pasion.

NOTICE.

In the Surrogate Court of the County
of Grey in the matter of the
Guardianship of the infant chil-
dren of John William Joseph
Stephenson, late of the Township
of Egremont in the County of
Grey, Farmer, deceased.

TO WHOM IT MAY CONCERN,
TAKE NOTICE that an application will
be made to the Judge of the Surrogate
Court of the County of Grey, at his Cham-
bers in the Court House in the City of
Owen Sound on Friday the 27th day of
October next, (1905), at 10 o'clock in the
forenoon (or so soon thereafter as the
application can be heard) for a Grant of
"Letters of Guardianship" to the persons,
and estate, of John Joseph Stephenson and
Gertrude Luella Stephenson, the infant
children of the above named deceased, aged
respectively, about 7-1/2 years and 3-1/4
years of age to Martha Ann Stephenson,
of the Township of Egremont, in the County
of Grey, Widow, the mother of the said
Infant children.

Dated at the Town of Durham, in the
County of Grey, this 25th day of Septem-
ber, A. D. 1905.

MARTHA ANN STEPHENSON
Applicant for said Letters of Guardianship
