BY ROYAL WARRANT, MILLERS TO H.R.H. THE PRINCE OF WALES

Good Bread should please the Eye as well as the Palate.

Why does the dainty housewife delight in snowy napery, glittering cut-glass, burnished silver, delicate china and all other table allurements dear to feminine hearts?

And what man does not appreciate table beauty?

It is not that we appreciate the appearance of our food almost as much as the taste of it?

Bread may be ever so wholesome, well-flavored and made of scientifically milled flour, but with all these qualities we want it to look dainty, appetising, snowy-white, with nut-brown crust, and be firm and silky in texture.

Royal Household Flour makes just that kind of bread.

The electrical purification and sterilization of Royal Household Flour makes it yield not only absolutely pure bread, but bread of snowy whiteness and beautiful texture—bread that will grace the prettiest table or give beauty to the humblest meal served on the plainest dishes.

You can prove this by trying a 25 lb. bag—you must have flour, why not have the best.

Ogilvie's Royal Household Flour.

CORNER CONCERNS.

Since we commenced a correspondence with the Chronicle some years ago we have always felt it presumption on our part not to try to interest or entertain its many readers during their leisure moments by giving them the very best we could produce, and therefore, when we came before them try to appear cheerful no matter what our feelings were. But those letters that it copied last week from the Flesherton Advance and Warrton Canadian of how farmers are going to be so poor this year from turnip rot, potato rot and the wood almost done that they won't be able to scrape up a dollar for the paper, has caused us to feel hungry and think of the Poor House ever since. Sunday we went over to the Anniversary Service at Varney for consolation and the Rev. Mr. Smith, if we mistake not, told us that a man had to grow in sanctification until he could live from day to day without committing a single sin to be sure of obtaining heaven. So now that the Editors and preachers have got us crowded down between hell and the poor house and dunning us daily without mercy for subscriptions, missionary money, church funds, etc., the former hinting if we pay we will go to the poor house and the latter telling us if we don't pay our honest debts we will fare worse. It is pretty hard for us to look pleasant this week.

Threshing is now almost a thing of the past for another year. Farmers have seen the different labor-saving devices at work and are beginning to think the ordinary separator with the straw blower will be the popular outfit for some years. Self feeders add so much to the length of the machine that for many small buildings they are too far from the barn to be convenient. Even the dust blowers could be done without as many of the threshers demonstrated this year by having them most of the time out of working order, and all hands have recovered again from their illness caused by the dust.

Mr. James Johnston is engaged putting in cement flooring in Mr. Naismith's new barn. Mr. Naismith had the misfortune of having two horses killed on the G. T. R. track a fortnight ago as well as his recent loss by fire.

The youth and beauty of this neighborhood attended a social gathering at Mr. Henry Lawrence's on Friday night.

Varney church appeared at its very best on Sunday bedecked with the fruits of the season. The choir did their part well and the Rev. T. J. Smith, of Elmwood, who held forth in Varney twenty years ago, still holds a place in the hearts of Varneyites and his visit was much appreciated. He has changed very little in appearance during that time, but has changed somewhat in his views through actual experience. They expect to have an excellent entertainment this Monday night which we will give a report of next week.

Mr. Thomas Renwick, of Varney, attended a silver wedding at Dro-more on Friday evening. Mr. and Mrs. Robert Renwick were the fortunate favored couple.

Mr. Vollett, son of Mr. Robt. Vollett, of Durham, met with a slight accident at the mill last week getting his right hand cut by a saw.

Our neighborhood last week was made doubly sad by the death of two of our oldest and most respected citizens in the persons of Mr. Alex. Pollock and Mrs. Frank Grasyby, the latter of a lingering illness of over eight months' duration; the former from typhoid fever of only two weeks duration. The end came on Wednesday evening. He had about reached the allotted age of three score and ten. He first saw the light of day in Canada Antrim, Ireland, and came to Canada while a mere youth. He started life in this place when it was in its primitive state and has always been a hard-working, honest citizen, and has accumulated considerable wealth. He leaves a wife and family of sons and daughters some of whom are in Klondyke regions and unable to be present at the funeral on Saturday, which was largely attended by sorrowing friends and relatives. Interment took place at Maplewood cemetery. Mrs. Grasyby, who died on Saturday morning, was born sixty one years ago in Nottingham, England. Thirty-four years ago she joined heart and hand with Mr. F. Grasyby, the man of her choice, and subsequently they came to Canada and to this neighborhood. She was of a cheerful, hearty disposition and always ready to lend a helping hand to any person in need. Her kind acts to neighbors might be counted by the score. She leaves a husband and five children to mourn the loss of a kind and loving wife and mother. The children, who were all present at the funeral, are Mrs. Smallman, Toronto, Mrs. Frank Havens, Mrs. Andrew Picken, Nellie at home, and Tom in Durham. The funeral took place on Monday to Maplewood cemetery where a large number of sorrowing relatives and friends gathered to pay a last tribute of respect. Rev. Mr. Bice conducted the services.

How to Cure Corns and Bunions. First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain-Balm is unequalled. For sale at Parker's Drug Store.

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O., Sold by all Druggists, 75c. Take Hall's Pills for constipation.

That's All. A once well-known actor, also a devout man and preacher in his local chapel, has left on record one of the shortest sermons ever preached. His text was: "Man is born to trouble as the sparks fly upwards." "My friends," said he. "I shall consider this discourse under three heads: First, man's ingress into the world; secondly, man's progress through the world; thirdly, man's egress out of the world. First, man's ingress into the world is naked and bare. Secondly, man's progress through the world is trouble and care. Thirdly, his egress out of the world nobody knows where. We shall do well there if we do well here: I can teach you no more if I preach for a year."

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale at Parker's Drug Store.

WEDDING CHIMES.

McDonald-Watson. At high noon on Wednesday Sept. 27th, 1905, at the home of Mr. and Mrs. J. A. Watson there occurred an event of unusual importance and happiness, it being the marriage of their eldest daughter, Olive Mildred to Malcolm Brown McDonald, of Durham. To the strains of Mendelssohn's wedding march, played by Miss Milburn, the bride entered the parlor leaning on her father's arm and was received by the groom under a beautiful arch of ferns and asters where the Rev. D. M. McCamus, pastor of the Methodist Church, assisted by the bride's uncle, Rev. Dr. Fallis, of Schoolcraft, Michigan, performed the ceremony which consummated this happy union. The bride was dressed in a beautiful gown of white Point-de-sprae over white taffeta and carried bridal roses of pink and white. A large gathering of friends and relatives of the contracting parties were present. It would be impossible to enumerate the many useful and valuable presents which could be seen on every hand, which was the evidence of the high esteem in which the bride and groom were held. After the ceremony the guests sat down to an elaborate wedding dinner to which all did justice. The happy couple left on the 3:40 p. m. train for an extended trip to Toronto, Hamilton and other eastern points, amid showers of rice, flowers and fond wishes. The bride's travelling gown was of blue chiffon broadcloth and hat to match.—Listowel Banner.
