REMEMBER THE PLACE - LAIDLAW'S OLD STAND.

A DAINTY VISITOR.

For some time past the inmates of Mr. Robert Kanawin's household on Zina street have been troubled by the antics of some animal which has taken up its abode in one of the warm air pipes connected with the furnace. It was thought that the intruder was a large rat and on Saturday night last a long stick was brought into service in an effort to rout the intruder from its hiding place. Before the probing had been in progress very long, it became painfully evident that the animal was neither more or less than a skunk. The family was in a dilemma until the arrival of Mr. Thos. S. Hewson, who despatched the aroma dispenser with a well aimed rifle shot. The mystery is how the animal got in the pipe.—Orangeville Banner.

Don't like the Boers Now.

A British paper twits the Germans with their loss of love for the Boers. It says: "At time when Ladysmith, Kimberley and Mafeking were besieged, and when the British arms were under a cloud, how the Germans did crow and how affectionately they patted Brother Boer on the back, and told him in so many words to "go on and prosper." Now the mere name of Boer stinks in the nostrils of the kaiser's subjects. They will have none of him, and they are alleging that a nephew of the slippery and elusive Dewet is at the head of a plot to raid their colony in German south west Africa. The German press, in referring to alleged plot, strongly denounces the Boers. One paper says: "The Boers have, as Germans learnt to their cost, only two attributes—naked aversion and an unconquerable penchant to conspiracy." When it suited the Kaiser he could not praise the Boers too warmly, but when their resources began to dry up the Afrikaners did not attract the emperor or his subjects so much. The lemon had been squeezed and was cast aside."

Admiral Evans compliments Mea.

New York, November 17.—Complimenting enlisted men, both in the fleet under his command, and the British visitors for their good behavior during the stay of the ships of two nations in this port, Rear Admiral Robley D. Evans, on the flagship Maine, yesterday, stated that it was his belief that never before in the history of any country had so large a body of sailor men been entertained in so thoroughly a satisfactory manner: "I think," said the Admiral, "we have shown the people on shore that the orderly behavior of 10,000 to 12,000 sailors on liberty each day, from the ships of both fleets, prove conclusively that men of sea are well behaved under all circumstances as those on shore, and in many cases much better."

ARE BUYING LAND FROM THE INDIANS.

Ninety thousand square miles in New Ontario, north of the height of land, are covered in Indian Treaty No. 9, which was signed Nov. 16, by Hon. Frank Cochrane, Minister of Mines, on behalf of the Provincial Government. For some time negotiations have been proceeding between the Indians and the Province and Dominion, acting in conjunction, the object being to get the question settled before the G. T. P., goes through. The red men will, as a result, get \$8 per head during the first year, and \$4 each succeeding year, which expense will be borne by the Dominion. One square mile of land for each family will be set apart for a reserve. There were only 1,666 Indians in the territory when it was explored by the joint Government Commission which was fewer than expected.

Anciently of Cheating.

False weights were found in the ruins of the oldest city that has yet been examined. And false weights will probably be consumed when the earth drops into the sun and the heavens are rolled together like a scroll. Ancient records and ancient statute books are full of evidence that every modern practical device down to adulterations and crooked scales was familiar to our ancestors of the plateau of Iran before the migrations. Vice is the old inhabitant; virtue is the newcomer, the immigrant, received with reluctance and compelled to fight for every inch of ground he gains.

A Great Lack of Love.

There is a pleasant story being told just now of an Irish priest who, taking leave of his congregation, gave his reasons for going: "First, you do not love me, for you have contributed nothing to my support; second, you do not love each other, for I have not celebrated a marriage since I arrived; third, the good God does not love you, for he has not taken one of you to himself; I have not had a single funeral."—London Telegraph.

Why She Loved Her.

Mrs. Cummins—Do you love your grandmamma, do you, Gracie? And why do you love her? Gracie—Because she used to punish mamma when mamma was a little girl. I hope she used to spank mamma as hard as mamma spanks me.

The Flight of Birds.

One of the few men to recover sight after being blind from the birth of recollection was reported to have wondered at nothing so much as the flight of the birds. "Why do not people make more fuss about them?" he said.—London Outlook.

Faulty Theory.

Gus de Smythe—Those new boots of yours squeak awfully. Perhaps they're not paid for yet. Johnny—That's all nonsense. If there is anything in that, why don't my coat and vest and my trousers and my hat squeak too?

Old Enough to Notice.

"Are your papa and mamma at home?" asked the caller. "No," replied little Marguerite; "one of them may be here, but they never are both at home at the same time."

Generous.

"Some men say," remarked the beautiful heiress, "that I have no heart." "Oh, that doesn't matter," replied the poor but willing to be honest youth; "I'll give you mine."

Not the Oldest—Not the Largest Just the Best.

If you wish to receive the Best Commercial and Shorthand Education, it is necessary that you attend the Best—

The Mount Forest Business College

This College is the Best:—

- Because each student is taught separately at his own desk;
- Because all difficulties are thoroughly explained as they occur, thus avoiding loss of time to the students and enabling them to accomplish more than is possible in class teaching;
- Because each student receives special attention in his weak subjects and may choose his subjects;
- Because each student does his work independent of all others thereby establishing confidence in himself;
- Because by attending the day and evening classes, students graduate in a short time and at a small cost;
- Because its graduates are enjoying the best positions in almost every Canadian and American city;
- Because this College enjoys the confidence of the Business Public.

Because it teaches Actual business from start to finish;

Because its Shorthand students are doing marvelous work, some writing 200 words per minute after attending only two months;

Because at the head of it is a man whose qualifications as a teacher are unequalled and whose ambition is to see his students become good citizens, morally, socially and financially.

DURHAM, ONTARIO

160 Acres For Sale

160 acres of the best land in Manitoba, not away West beyond all civilized surroundings, but right in the oldest and best part of Manitoba, within a mile and a half of two different stations on the C. N. R. Main Line (Curtis & Newton Stations.) and only about 8 miles from Portage La Prairie, and about 50 miles from Winnipeg.

This soil is a deep black loam on clay subsoil and is exactly similar to that of the far famed Portage Plains, which have produced as many as 20 successive crops of wheat without fallowing or manuring. There is no better land in the wide world.

The land is covered with light scrub and small poplar, but enough cordwood could be cut to more than pay for clearing. This is in the heart of a first class settlement of English speaking farmers, who are thrifty and prosperous and who would welcome and assist any new settler.

The surrounding land is none of it held at less than \$20 per acre, but to close out an estate, we are authorized to offer this for a short time at \$15 per acre, \$1760 cash, balance in five equal annual instalments. If definite offer was made, a smaller cash payment might be arranged.

John S. Mortimer,

433 Main Street Winnipeg.
