# MONEY-SAVING PROPOSITION

Fort William is situated at the head waters of Lake Superior, the nearest point on the lake to the rich Western wheat lands. Every bushel of wheat grown upon these wealth producing prairies must pay tribute to Fort William; all the necessary merchandise that goes to make home and farm a comfort and success must of necessity enter through this portal of the nation. From its geographical position it is destined to become a great shipping and distributing point. Development has barely commenced. The plans of large Commercial organizations have but recently been laid, and to buy well chosen properties to-day means magnificent returns as the city develops.

We offer for sale building lots abutting the mammoth threshing machinery works shortly to be erected at an enormous cost, and affording employment for 3000 hands. These desirable properties may now be obtained at low prices and on very reasonable terms of payment.
