

**Sensitive Throats**

This is the worst season of all for people with sensitive throats.

About the only way all parts of the throat can be reached in treatment is by the use of an atomizer.

Nearly all physicians recommend their use and leading physicians in this vicinity direct their patients to come here for the atomizer, as they know we have a superior assortment of the most approved kinds. The best ones with several tips cost \$1.25 but we have others as low as 50c.

**Elastic Goods**

When in need of anything in this line you'll find our stock most complete; we carry a heavier stock than is usually found in the average drug store. The goods are all fresh and made by the most reliable manufacturers.

Elastic stockings, etc., that have to be made to individual measure, we will order for you. It takes only a few days to get them and you can be sure of a perfect fit.

Elastic bandages both plain and woven, in different widths, will always be found here. Low prices on all.

**DURHAM CHRONICLE**

W. IRWIN, Editor and Proprietor.

Durham, Feb. 22, 1906

**SANCTUM SIFTINGS.**

The Canada Press Association met in Toronto during the first week of February and the winding up portion of the conference was an excursion to the Model Farm and Macdonald Institute at Guelph.

Elsewhere in this issue will be found a letter from the Farm, growing out of a request from the visiting members of the Press Association. This letter is highly interesting and profitable reading, and much benefit will result from a careful perusal. In fact we believe all the bulletins from the College are profitable to agriculturists and we publish nearly every one they send us. Some there are who do not care for them, but we took the trouble on one or two occasions to enquire regarding the agricultural ability of the grower, and found he wasn't considered high enough to get a rating. Our opinion is that the articles are all good, and we think that the Provincial Government, the College and the railroad Companies, are much indebted to the press of this country for the enormous amount of free advertising they get through the local papers. We disseminate the information cheerfully, believing we are doing a good thing. The interest we cause people to take in the Farm, the experiments and the College in connection, leads thousands every year to visit the Royal City, and this brings large traffic to the railroads. Our biggest kick is against the railroads, who are owing much to the press of this country.

**About Rheumatism.**

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say it can be cured is, before a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale at Parker's Drug Store.

**Reflections of an Old Maid.**

The bachelors have been reflecting for a long time and they don't seem as if they are going to let the old maids have a chance.

An old maid is an unclaimed blessing but the men don't seem to smile on them with much sweetness if they don't have cash.

Some old maids are not overly handsome to gaze upon, but I know some awful homely ones that are all wool and a yard wide.

Most of the old maids would like to marry but they'd rather die than ask a man.

A man that can't see what an old maid means when she's right after him isn't sharp enough to make a good spry husband.

The man who wears the showiest necktie isn't always the man with the biggest stock of sense.

His head is the right place for a business man to have his brains. If he carries them in his feet he cuts a small figure when he comes to count up his profits at the end of the year.

When an old maid sees a young girl chasing round trying to capture a two-legged whisky barrel she returns thanks at once for being an old maid.

An old maid can keep herself easier than she can keep herself and a useless husband. A poodle dog would be a less expensive pet.

If an old maid is rich she can have more followers than a load of green corn in a pasture field full of hungry steers.

A country editor doesn't need much brains, but if he expects to influence public opinion for good the stock he has ought to be of fair quality.

If a man can't keep himself when he's single the only real reason he should give for wanting to get married is to have somebody to help make up the deficit.

Some men think it's a poor hen that can't scratch for herself and one chicken. If a woman marries a man of that kind she may have to do some scratching for the old rooster.

When a man is so slow that he doesn't go through a cornfield for fear of being run down by the pumpkin vines we would advise a girl not to spend much energy in chasing him up.

I am an old maid myself but I mightn't have been if somebody had only asked me when I was a girl. I'm not awful homely but I guess I didn't do enough street gadding to capture a bean.

I suppose that girls have things well arranged in the pantry and the coo-wees cleaned from under the spare bed before they start out on their daily gadding expeditions. When I was a girl I used to help mother with the housework.

Bachelors musn't think that all the Reflections come from their side. Old maids have lots to think about and if their reflections were printed they would give some pretty good reading. Bachelors aren't all angels and when they show up smart and funny in the presence of a girl it would be well for the girl to find out how he treats his mother. If he doesn't treat his mother with a fair degree of respect his wife needn't look for any special attentions.

**St. Valentine's Day Wedding.**

The home of Mr. Chas. Boyle was the scene of a very happy gathering on the evening of February the 14th inst. The deep interest shown by the seventy or more assembled guests was explained by the fact, that, on this occasion, Mr. Walter Ledingham, of Weyburn, Sask., was united in the holy bonds of matrimony to Miss Mary Wray Boyle, daughter of Mr. Chas. Boyle, of Glascott. The young people were ably supported, respectively by Mr. A. M. Ledingham of Williamsford, and Miss Hannah Boyle, the bride's sister. The ceremony was performed by the groom's brother, Rev. R. B. Ledingham, of Waldemar, assisted by Rev. Mr. McDonald, of Dornoch, while Miss Margaret G. Gun, of Durham, played the Wedding March.

The bride, leaning on the arm of her father, entered the parlor, and being suitably attired in white silk, with white carnations in her hair, was well worthy of all the admiration which she received. As for the groom, he never looked so well before. Thus happily did these young people enter into the true spirit of St. Valentine's Day, in a most practical and satisfactory manner.

Mr. Boyle is a charming host. His is ever a hospitable home. In the bountiful repast prepared, in the warm welcome given, in happy reunion of friends, the repetition of former festive occasions was observed. An interesting program of sacred songs, speeches, etc., was successfully conducted by Rev. Mr. McDonald. The excellence of the many gifts show the high esteem in which this young couple are held. In some two weeks Mr. and Mrs. Ledingham intend journeying to their own home, where they will undertake a share of the responsibility in moulding the life of our great Canadian West. Needless to say, the best wishes of their wide circle of friends attend them as they go.

Mrs. Geo. White eldest daughter of Mr. Geo. Johnston, Durham Corners has been dangerously ill for a few days. She is under Dr. Carter's care.

**THE CEMENT MILL.**

The agitation is now over and the new board will have made some very important changes before this paper reaches our readers. They are in session at the head office here as we are running off the paper. We prefer to predict nothing this week more than to say that a general pruning crusade will characterize their first meeting. By the time everything comes to be squared up the stockholders will find that our opinions expressed during the past three months will be vindicated almost entirely.

SOME of our correspondents are not so prompt as we would like to see them. Remember we appreciate your budgets. Send them along, please.

**NOTICE.**

All who have signed, and all who intend to sign the Service Roll of the South Grey Rifle Association are hereby requested to go at once to Police Magistrate Telford, or some other Justice of the Peace and take the Oath of Allegiance.

**ATTEMPTS MURDER AND SUICIDE.**

Seaforth Girl Almost Killed by Brutal Husband.

Detroit, Feb. 16.—(Special.)—Jealous, mad and infuriated because his wife, May, aged 22, secured a warrant for his arrest for brutally assaulting her, William J. Richards, aged 26, broke into the house at 59 Dufferin-street at 7.30 to-night and shot the woman twice as she stood in the kitchen.

One bullet struck her in the right cheek, lodging in the back of the head; the other struck her in the hand.

Richards then turned the weapon upon himself and sent the ball crashing into the right side of the neck.

George Sowersby, a boarder, and his daughter, Lillian, aged 14, dodged bullets.

The wounded woman ran to Reid's drug store two blocks away, and later was sent to St. Mary's Hospital, and Richards to Harper's Hospital.

Richards is the more seriously

wounded, but both will recover.

The shooting comes as a result of continued abuse.

They were married less than a year ago. The woman has been systematically ill-treated. She comes from Seaforth, Ont.

**PALE AND ANXIOUS.**

Your Countenance Indicates the Body's Awful Struggle for Health

Impossible to work or think clearly when there is no reserve of vigor, no nourishment in the blood, no supply of nerve energy.

The life of the half-sick man is pitiful, in fact almost criminal, when bounding strength is so quickly derived from Ferrozone.

This nutritive tonic is guaranteed to strengthen all men, women and children. Weak organs get new force, vital energy is generated. Muscle and fat are added, healthy color is restored, and the blood fairly tingles with newfound life.

Read the evidence of Jno. Carter, of 424 King St. East, Toronto, who says:

"After a severe attack of Grippe my health was almost shattered. I suffered constantly from nervousness and dyspepsia. At night I would waken with terrible palpitation and heart pains. Work became a great effort. At ten in the morning I was so tired and weak I could hardly work another minute."

"Then came a bad attack of rheumatism, which laid me up in bed. I could scarcely lift the weight of a pound, and to stoop or bend was impossible. My druggist recommended Ferrozone, and he knew what he was talking about, for it rebuilt my strength, gave me abundant appetite, better blood, and new nerve energy. The rheumatism has disappeared. I weigh more, feel refreshed and vigorous, and am able to work ten hours a day. Ferrozone did it all."

You will be steadied, toned and strengthened for all time to come with Ferrozone. Get the genuine in 50c boxes or six for \$2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.
