WALKERTON Dramatic Club presented a comedy on the 19th inst., entitled "A Pair of Lunatics." The performers were all "home-brewed" and it isn't likely there will be any kick about "ringers."

CHEQUES from Andrew Carnegie are not common here, but one from his disbursing office for the amount of \$750 reached Warton on Monday. It was drawn in favor of Rev. L. Atcheson and was Carnegie's share towards the \$1500 pipe organ recently installed in St. Paul's church. The philanthropist will probably never enjoy listening to the music of the organ. But the present and the next generation here will thoroughly enjoy the gift. This will no doubt be a satisfaction to him.—Warton Echo.

THE Carson family will soon bid good-bye to Durham and form new ties of friendship in the west. The demise of Mrs. Carson has broken up the old home and Miss Sadie accompanied Mrs. Hopkins to Winnipeg a couple of weeks ago where she will visit her sister Mrs. Cameron. Eventually, however, she will reside with Mrs. Hopkins at Saskatoon. Mr. Carson is in Durham as yet, but will leave in a few weeks. This family have a great many friends in Hanover as well as Durham who will regret very much their removal.—Post.

WHAT'S the use of telling people? Newspapers are now warning the public against accepting Straits Settlement coins which are said to be almost worthless. The warning goes out, and so will the coins. The warning goes out against shoddy peddlars and fakirs, but the slick tongued gents finds lots of open mouthed suckers ready waiting to bite at the dangling bait. The green goods man will find victims and some of the victims may land in jail, but there's a new crop ready for operation. They know it's wrong to engage in such business and if any one is smart enough to catch them they may be "jugged" like the other fellows, but then they're too smart to be caught with snuff and some of them do escape. If one man in a hundred escape the ordinary smart Aleck is going to be the hundredth sure. Warnings are given time and again about the damages of careless handling of gunpowder, dynamite, gasoline, acetylene and other explosives, yet accidents are daily occurring and usually through carelessness in doing the very things we know we shouldn't do. If the thoughtless adventurers were the only ones to suffer the loss would not be so great, but it isn't right to let a human freak run loose to the danger of a sensible community. Better be dubbed a coward than to prove yourself a fool.

BIGGER AND BETTER.—Messrs. Ayling & Sons are enlarging their brick plant by the addition of new dry sheds, new machinery and new methods of burning. Three new dry sheds 25x250 feet are being erected. A new up-to-date brick machine, of 20,000 daily capacity is being installed, and to facilitate and improve the burning they are adding three new down draught kilns of 80,000 each.

On Tuesday Senator McMullen was notified by telegram that his nephew, Mr. Robert A. Grant, had died unexpectedly in Toronto. The deceased had been ill for about a month, but a serious result was not looked for. About a month ago an operation was performed for trouble in the leg but complications set in which culminated in pneumonia and heart failure. Mr. Grant was in his 40th year, and was the eldest son of Rev. Dr. Grant, (Knoxonian) of Orillia, and a brother of Mr. Geo. D. Grant, M. P. He was a rising lawyer in Toronto and a pronounced Liberal, being active in the interests of his party on many occasions. His wife died, after a lingering illness, in December last, and interment took place in Durham, her former home. Two little sons survive the loss of both their parents within a few short months of each other.—Mt. Forest Confederate.

WE have to thank Mr. H. H. Miller, M. P. for the latest wall map of the Dominion of Canada. It is about 3 1/2 by 5 feet, clearly lithographed and issued in 1905 under the direction of the Hon. Frank Oliver, Minister of Interior. Everything is in clear outline, and the existing and projected railways are plainly shown. Looking over this map we must feel proud of our vast Western heritage. One thing we seem inclined to regret, however, is the comparative smallness of Manitoba compared with her three sister provinces of British Columbia, Alberta and Saskatchewan, and we hope the pioneer province of our great Northwest will not be long till she ranks in size with the other provinces. To extend the boundary north to the 60th parallel would nearly treble her area and make for greater uniformity in the size of our western provinces. It will likely be so yet, but how soon? Many thanks for the map which we trust will often be of service.

FARMERS! See John Clark's ad. in this issue.

JOHN SAUNDERS who had his leg broken last December is able to walk with the assistance of a cane and hopes shortly to resume work. John believes in providing ahead in case of accident or sickness and had a policy in the Empire Accident Surety Co. of London. The above company settled this and all other claims upon them here satisfactorily.

SHORTLY after one o'clock on Monday, the 15th inst., little Lloyd Noon, the eleven months old baby, son of Mr. and Mrs. Harry H. Wilkinson, went home to be with Jesus. To see the child was to love him. Dr. Brown of Holstein did all in his power to save the little fellow, but gave little hope from the first, as it was pneumonia and inflammation of the brain. The little one was laid to rest in the family plot in Maplewood Cemetery on Wednesday, the 17th, the little white velvet casket being covered with flowers from sympathetic friends. Four small boys carried him to the grave which was beautifully lined with white wadding and greens. The Rev. Mr. Newton officiated at both the house and the grave, delivering an impressive sermon from the words, "It is well with the child." The funeral being a very large one, many were the expressions of sympathy received by Mr. and Mrs. Wilkinson, as it was their only child.

CAPT. TORRY of the South Grey Rifle Association had a letter from headquarters stating that at present a supply of rifles is not available for the corps here, but that they would be forthcoming as soon as possible. This is somewhat encouraging to the members who had about given the matter up for lost, but there is nothing more to be done till the rifles arrive, which may be expected at any time.

In some way we omitted to publish at the time the death of Chas. Wilkinson which took place on the 13th inst. The deceased was a native of Lincolnshire, England, and has been a resident of this town for the past forty years or thereabouts. For about ten years he was engaged at his trade of tanner with Mr. Thos. Smith of this town, having come here from Guelph where he was employed similarly. He was seventy-seven years of age, but appeared older as he was never a strong man and years seemed to show on him. He was a brother of the late Isaac Wilkinson, of Normrby, who died a few years ago. He leaves a widow. Interment took place to Maplewood cemetery whither the remains were followed by a large concourse of friends.

On the evening of Monday the 30th of April, in the Presbyterian church, under the auspices of the Guild, Rev. T. McCullough, of Harriston, will give a lecture on the Great West, its resources, prospects and possibilities. Mr. McCulloch has travelled over a large part of the West and has seen the frowning glories of the Rockies as well as the still more fascinating view of the limitless fields of wheat spread out at their feet. The lecture will be illustrated by lime light views of great excellence gathered from many sources and will be an inspiration to a more enlightened patriotism as well as an appeal for a broader visioned missionary activity. With Mr. McCulloch's rare gift of eloquence and his spirit of native humor that never fails to reach the heart all are assured of a pleasant and profitable evening. Admission 15 and 10 cents.

At the Spring Assizes at Guelph, Hon. Sir Wm. Mullock, Chief Justice of the Exchequer Division, uttered words of warning to parents in reference to the training of children. In addressing the jury, His Lordship reviewed the three criminal cases before him, and particularly urged the necessity of parents and guardians paying stricter regard to the bringing up of their children. Judge Mullock's warning is timely for there is at present a growing laxity in parental discipline. Children do not show that respect to their parents, that they did many years ago. Actions and conduct on the part of children that would not have tolerated years ago, are now passed over or regarded as "smart." "Street education" and bad company are gradually deteriorating child life character in many cases. We fear that in this respect, there is a drifting from safe anchorage, that will, in the end, be disastrous for parents, children, and the community. There is a possibility that in the anxiety for Public and High School education, the moral training is being sidetracked.—Ex.
