Not the Oldest—Not the Largest Just the Best.

The Mount Forest Business College

This College is the Best:— Because each student is taught separately at his own desk; Because all difficulties are thoroughly explained as they occur, thus avoiding loss of time to the students and enabling them to accomplish more than is possible in class teaching; Because each student receives special attention in his weak subjects and may choose his subjects; Because each student does his work independent of all others thereby establishing confidence in himself; Because by attending the day and evening classes, students graduate in a short time and at a small cost; Because its graduates are enjoying the best positions in almost every Canadian and American city; Because this College enjoys the confidence of the Business Public; Because it teaches Actual business from start to finish; Because its Shorthand students are doing marvellous work, some writing 200 words per minute after attending only two months; Because at the head of it is a man whose qualifications as a teacher are unexcelled and whose ambition is to see his students become good citizens, morally, socially and financially. Open July and August.

W. T. CLANCY, Prin.

TEACHERS' SALARIES.

If Dr. Pyne's school bill becomes law, in its present form it will give a boost to the salaries of public school teachers. It provides that the township council shall appropriate by general levy, the sum of \$250, for each school section in the municipality, which sum is to go to the teacher. After that the minimum salary will depend upon the assessment of the school section. If the assessment reaches \$160,000, the teacher will get \$250 more, making his minimum salary \$500 in all, and in no case will the salary be less than \$300. Of course, if the trustees feel like it they can make the salary more than this, but unless human nature takes a sudden change, they won't be likely to give any more salary than they have to.—Telescope.

\$100 Reward. \$100.

The readers of this paper will be glad to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

KILLED HERSELF.

A Brampton despatch of Monday says:—"Mrs. Frank Ruston, wife of a farmer who lives five miles from here, ended her life with a shot gun on Sunday afternoon. She was suffering from temporary insanity caused by illness. Careful watch had been kept over her, by her husband, but while he was at the barn getting a team ready to take her to Brampton to consult Dr. Sharpe, she secured an old shot gun, placed its muzzle to her head and fired. The top of her head was entirely blown off. The family are well to do people and very great sympathy is felt for her relatives."—Shelburne Economist.

FROST LOCKS

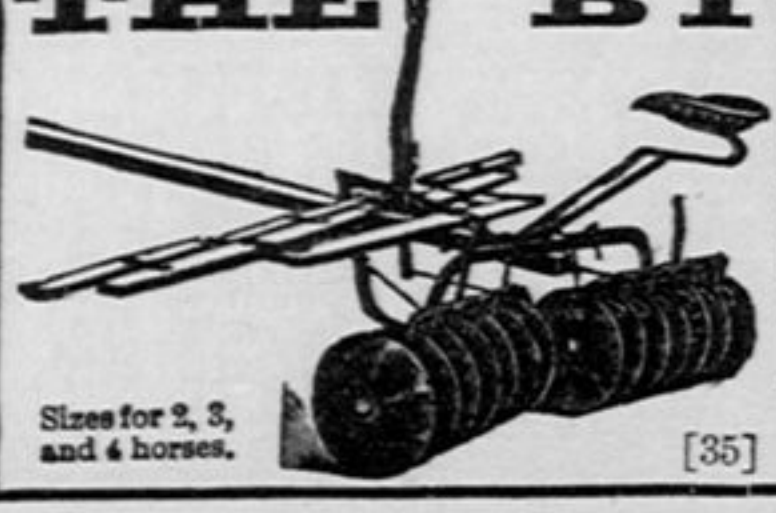

Make a Fence of Strength

The heaviest, strongest wires made can't make a strong fence unless the locks are as strong as the wires. A fence, like a chain, is only as strong as its weakest spot. The New Frost Lock and Frost Wedge Lock are the most unyielding parts of a Frost Fence. They make the whole fence as strong as the strongest wire.

And remember—should FROST FENCES go wrong, from mechanical defects or workmanship in building, they are repaired, free of charge.

ATTEMPTED TO ESCAPE.

George Fletcher, the Ripley firebug is not such an innocent chap as he looks according to Mr. McKechnie the jailor, and the turn key Mr. Lob-singer. Fletcher had been kept in the corridor on the ground floor usually reserved for women, there being no women inmates at present. This is rather comfortable quarters as jail accommodation goes. At night Fletcher was locked in a cell, but during the day he had to himself a corridor about twenty feet long. In the corridors a jog of about ten feet which would hide the prisoners from the view of anyone in the main corridor. The prisoners are allowed a knife with which to eat their dinner and one day after dinner a knife was missing and no trace could be found of it. Last Wednesday Fletcher's knife was returned broken and Mr. McKechnie became suspicious and made an examination of the corridor. He found the wires which fastened a wire screen over the bars on one of the windows had been cut and could easily have been pushed off. Fletcher apparently found this would be no use unless he had a saw to cut the iron bars that were between him and liberty so he tried another plan. Mr. McKechnie on further examination looked into a ventilator in the floor where prisoners had been known to hide tobacco, and much to his surprise found loose gravel and sand. This ventilator is in the jog in the corridor and Fletcher had used the purloined knife to saw the cracks in the floor from the ventilator for a distance of about eight feet, all of which is in the jog mentioned. The boards he would take out during the day and with the knife he was making towards Mr. McKechnie's private yard a distance of six feet. The sand and gravel was being stored under the floor, the lid of a pail being used as a shovel. At night, or whenever disturbed Fletcher would put the boards back in position. If Mr. McKechnie's suspicions had not been aroused the prisoner would have been gone in a couple of days there being only a little over another foot to excavate. Fletcher was removed to the Central Prison on Tuesday.—Bruce Herald.

Low Taxes Not Always Good.

The following from the Municipal World has a local application: No one wants to pay a bigger tax than is necessary, but on the other hand, the municipality with a low rate is rarely a desirable place to live in. The meaning of a low tax rate is usually bad roads, poorly kept streets and an inferior character of public service. By means of municipal organization modern improvements, or rather modern necessities, can be produced in a general way for less than the individual working alone can obtain it. It is a means of economy in securing sewerage, water supply, fire protection and other common necessities. It is not the business of councillors to starve any of these services in order to reduce taxes but rather to see that the people obtain the best value for available expenditure upon them. There must be efficiency as well as economy in municipal work.

THE SETTING HEN.

A Minnesota man has a plan for curing hens that get the "setting" fever when you don't want them. He guarantees it to cure in three hours. The cure consists of a cheap watch, with a loud and clear tick to it, inclosed in a case that is white and shaped like an egg. When a hen manifests a desire to set out of seas in he gently places this bogus egg under her sheltering breast and the egg does the rest. It ticks cheerfully away, and soon the hen begins to show signs of uneasiness and stirs the noisy egg round with her bill, thinking perhaps, that it is already time for it to hatch and there is a chicken in it wanting to get out. She grows more and more nervous as the noise keeps up, and soon jumps off the nest and runs around awhile to cool off, but returns again to her self imposed duty. It gets worse and worse with her and she wiggles about and cackles, ruffles her feathers and looks wild, until at last, with a frenzied squawk, she abandons the nest for good and all. That incubating fever is broken up completely.

\$1,000 REWARD

For a Case of Incurable Constipation.

To a person who can't be cured of constipation by Dr. Hamilton's Pills, the above reward will be paid. No cathartic medicine gives such lasting satisfaction or effects such marvellous cures as Dr. Hamilton's Pills. Relief immediately follows for headaches, biliousness, and stomach disorders. No gripping pains, no burning sensations, nothing but the most pleasant relief attends the use of Dr. Hamilton's Pills—others not so good. Price 25c. a box, at all dealers.

GLENELG COUNCIL.

The council met April 14th, as per adjournment. All the members present. The Reeve in the chair. Minutes of last meeting read as follows: Dr. Ego account for attendance on a Diptheria family. W. Turner & Co. account for medicine for same family. From Isaac Traynor account for surveying. From MacKay & Dunn claim for damages to property on a supposed defective road, From Sawyer & Massey Company invoice for road grader. From A. McLachlin and D. Sinclair, account for repair of a bridge on sideroad 50. From Local Board of Health several accounts for services rendered. From the Reeve his report on what was said to be a defective road. McMillan—Hunt—That the Clerk be instructed to ask for tenders for a capable man to operate grader. Tenders to be received by the first of May, stating salary. Lowest tender not necessarily accepted.—Carried.

McMillan—Black—That the claims for damages to Walpole's dray wagon and the International Harvester Company's gasoline engine be not entertained, but that the Reeve and Wm. Hunt adopt proper steps to defend in case suits are entered.—Carried.

Black—Hunt—That the Reeve and Clerk be and they are hereby authorized and instructed to assign Lot 36 Con. 3, N. D. R., to John A. McMillan and cause the seal of this corporation to be attached thereto.—Carried.

McMillan—Hunt—That A. McLeod be paid \$4.50 for cedar plank for repairs of bridge on sideroad 50, Con. 2, N. D. R. A. McLachlin 75 cents, and D. Sinclair \$1.75 for work and 80 cents for bolts and washers. Total \$7.80.—Carried.

Hunt—Weir—That Isaac Traynor be paid \$14.50 for surveying deviations on Lots 26, Con. 8, and 25, Con. 9, and making plans thereof.—Carried.

McMillan—Hunt—That the Clerk be paid \$4.00 for preparing By-law 405 and 410 for National Portland Cement Company. The company having paid the same to Township Treasurer.—Carried.

Hunt—McMillan—That the Reeve be paid \$2.00 for a trip to Bentinck to interview the Reeve of Bentinck in regard to the accident on Gravel Road between G. and B., and \$1.00 for inspecting the road where the accident was said to have taken place.—Carried.

McMillan—Black—That the Reeve be paid \$1.00 and Mr. Weir \$1.50 for unloading and caring for the grader.

Hunt—Black—That A. F. Wyvil be paid \$3.00 for work on road on 10th Con.

Weir—Black—That the Treasurer be paid \$1.80 for postage and stationery.—Carried.

Hunt—Weir—That M. Black and Geo. Leith be paid \$1.00 each for repairing bridge at Lot. 20, Con. 10.—Carried.

Black—McMillan—That Edwin Hunt be paid \$1.00 for inspecting road at Lot 9, Con. 1, E. G. R.—Carried.

Weir—Black—That ward appropriation for the present year be \$1.50 for each ward.—Carried.

The Council adjourned until called for Court of Revision. J. S. BLACK, Clerk.
