At a meeting of the Merchants' Association, held on Tuesday night a resolution was adopted to keep stores open till one o'clock on Thursday the 21st of June, when they will be closed until 5:30. This is done for the benefit of those coming in from the country.

THE Women's Auxiliary of the Deanery of Grey will hold their annual meeting in Trinity church, Durham, on Thursday afternoon, commencing at 2:30. At 7:30 there will be service to which all are invited. Rev. J. Ardill R. D., of Owen Sound, will give address.

WE regret to chronicle the death of Mrs. Wm. Allan of Egremont after a lengthy illness and a period of much anxiety on the part of friends and relatives. Death occurred Monday or Tuesday and interment took place Wednesday. Deceased was a woman who was held in the very highest esteem and her death is generally mourned in the community. We hope to be able to refer to this matter next week at greater length.

WE referred last week to the bicycle injury sustained by Mr. Dan McDonald. Since then he has been in a rather serious condition. Notwithstanding that he was reported dead on two or three occasions, we are credibly informed that he is improving as well as can be expected; a fracture of the skull and other injuries will naturally set him aside for some time, but no fears are entertained now regarding his condition.

MR. A. S. SMITH of the St. Thomas Journal accompanied by Mr. A. E. Smith and Mr. Chant all of the Railway City were visitors in town last week and took a look through the Cement Mill in which they have a financial interest. They were evidently delighted with what they saw and heard regarding the working of the concern this year. As might naturally be expected from outside stockholders they advocate a low assessment on the plant, but the figure named is not likely to be entertained by the Court of Revision. The newspaper man admits his inability to describe the Mill and pronounces it away beyond his expectations. Never expected to find such a huge affair was the substance of one of his remarks.

WE hear that Wm. Smith of Normanby has a fish story that has yet escaped the newspapers. He was out with a party after speckled beauties and took a bag with him to carry home the catch. He decided to go into a little secluded spot by himself and, seated on a log he had great luck putting each trout as he took it from the hook into the bag. Other members of the fishing party discovered him after awhile and called to know how he was getting along. He reported a splendid catch and fished down into his bag to get some of the good ones, when he found the bag had a hole in the bottom of it and the fish he had on his hook was the only one he could produce. Wm. says he would not mind the loss of the fish only he would hate like Hamilton for the darn newspapers to get hold of it. We sympathize with Mr. Smith in his misfortune but out of respect for his modesty we'll say nothing about it.

THE little two-year-old son of Mr. and Mrs. J. M. Firth is critically ill with empyema.

THE broken plate glass in the south window of the store occupied by R. B. Keele & Sons was replaced by a new one on Thursday.

THE railings along the sidewalk on Lambton St. have had a coat of red lead. This will keep the iron from rusting, and is, no doubt, a stitch in time.

UNDER the auspices of S. S. No. 11, Bentinck, a monster picnic is being held in D. Donnelly's bush next Friday afternoon. Sports and music. Everybody welcome. Take a basket.

THE Durham Furniture Company offers for sale a quantity of short slabs, suitable for summer burning. Delivered to any part of the town. Orders for same may be left at our showrooms, one door south of post office.

WE publish a day late this week as we have been obliged to wait for cuts for cement report of the month of May just ended. We hope our readers will survive the twenty-four hours of anxiety in waiting for the Peoples' Paper.

A WRECK on the W. G. & B. Division of the Grand Trunk on Monday, was responsible for the non-arrival of the Toronto mail till evening. Thirteen freight cars and two engines were derailed, and considerable of the track torn up. No one was killed, but the two engines and one fireman were badly injured though not seriously.

THE Garafraxa street bridge is being repaired. New flooring has been put in, and some posts erected to keep the buttments on the west side from sliding out of position. The old bridge is in bad shape, so bad in fact, that it seems foolishness to spend much on repairs, and we hope to see in the near future, a new steel structure such as the one on Lambton street take its place.

THE Epworth League of the Methodist church has decided to run their annual excursion to Niagara Falls on Friday July 6th. Those who attended last year were delighted with the trip and many will repeat the visit on this occasion. Full particulars regarding train arrangements will be given in due time. In the meantime get prepared for a very pleasant outing and take your families with you to see the great cataract, one of the world's natural wonders, soon to be reduced to a great motive power for much of the province of Ontario.

TUESDAY morning saw a large number of Durhamites and residents of the surrounding country take the train for the North-west. They left in a tourist car belonging to the Canadian Pacific Company, the following starting from this town, viz.:—Malcolm McEachern, and Dan McKechnie, of Bentinck; Archie Ector, of Edge Hill; George Lawrence and James Carson, of Durham; George Twamley, of Dornoch; and Thos. Jack, of Traverston; all for Saskatoon. F. Jenkinson and B. Jenkinson, of Rocky Saugeen, went to Edmonton. Angus McKinnon and Dan McCormack, to Settler. Mrs. C. Ector and family to Arcola, Miss Stewart, of Welbeck, to Grand View, Mr. and Mrs. John Morice, of Varney, to Lumsden, and Chas. McKechnie, to Mildstone. We wish them all success.

FEW men will be more generally missed from the town than Mr. James Carson who has been identified with the place and held prominent positions in Church and state for nearly a quarter of a century. He was chief constable here for many years and if at all in error in the discharge of his duties he erred on the side of leniency preferring, if possible, to get along without trouble. His family had all grown up and were away, and bereft of his estimable wife only a few weeks ago, he left the town alone and perhaps forever. He held the position of bailiff also and we have never been informed of any serious and undue harshness in the discharge of his duties. He goes to Saskatoon, to be with some member of his family and we only voice our own feeling and the feeling of the community in wishing him many happy years of life. His successor as bailiff is Mr. Wm. Sharp, and his successor as trustee will have to be filled.

THE COMMITTEE.

ODDFELLOWS' DEMONSTRATION.

June 21st has been proclaimed a civic holiday, and all places of business will close for the day. This is the day of the Oddfellows' Demonstration when Premier Whitney, R. R. Gamey, H. H. Miller and other prominent members of the Local and Dominion Houses will be present.

To furnish music for the occasion the Society has secured the services of the Hanover Band, the Listowel Band, the Durham Band, as well as Mr. P. F. McArthur, who is an accomplished Highland Piper and will appear in full Highland costume.

The Strathcona lacrosse team of Guelph, has also been engaged and will play an exhibition game with the Durham boys. Our boys have a strong line-up this year and are determined if possible to win a victory from the Guelph boys, hence a fast and interesting game may be looked for.

The entertainment committee is sparing no pains to make the concert in the rink at night one of the best, if not the very best, ever presented in this town. Fuller particulars regarding talent will be given later by posters and in the press. We think we are promising a rich treat to everyone who comes out to spend with us the longest day of 1906.

MR. TORRY, of Allan Park, who has been laid up with typhoid fever, is not recovering as rapidly as his friends would desire. Complications have set in, and he is suffering great pain. Nothing serious is expected, we learn, though he is likely to be confined to his bed for some three weeks or more yet.

Free Exhibition.

Mr. J. A. Glass, sole agent for Canada, for the Star Gas Stove is giving free exhibitions of the workings of this great invention, which takes the place of coal, wood, and dangerous gasoline, in Kinnee's Showrooms, Garafraxa Street. Call and see it. Agents wanted.

THE Markdale Standard's report of the Durham-Markdale game would make a horse laugh—that is if he knew anything about lacrosse and had watched the game. Evidently the sporting editor was at the time holding down one end of a "built for two" sofa or else dozing on the lumber pile during the first quarter. He says Durham was playing defence the first quarter, when as a matter of fact, Markdale had scarcely a look-in the first ten minutes. Not content with this he falls back on berating the referee, and telling a few other nice ones to tickle the palates of the homers. He says "a few little practices like this," etc., will work wonders for the Aberdeens. Well don't worry over it, there's a return match coming soon, and by that time Markdale will be in shape. So will the Shorthorns.
