CHAS. LAWRENCE, Sec'y,
S. S. No. 11, Bentinck,
DURHAM, ON.

Twenty-five years ago it was difficult to
sell spring wheat flour for pastry at any price.
People didn't want it—they were using
soft, winter wheat flour, and saw no reason
for changing.

But hard wheat flour was persistently
pushed and prejudice has been overcome.
The women tried it, succeeded with it and
appreciated it.—To-day hard wheat flour is
the favorite for pastry as well as for bread.

The flour that is doing the most for
the reputation of hard wheat flour is the
brand known as

Ogilvie's Royal Household

It is hard wheat flour at its best—milled
by modern methods, retaining all of the
good of the wheat and none of the bad—
it is without an equal for every kind of
baking in which flour is used.

Talk to your grocer about it—if he
isn't enthusiastic it's only because he isn't
informed.

Ogilvie Flour Mills Co., Limited,

DIVIDEND PROMISED

St. Thomas Men Visit Durham Cement Works—
Splendid Showing Made.

(From the St. Thomas Journal.)

The National Portland Cement Co., whose stock is held by a great number of people in this city and surrounding district, is all right. A Journal representative paid a visit to Durham and was much surprised at the magnitude of the works. Everything was found to be running smoothly and cement was being manufactured in a really wonderful manner and, we were told, faster and at a less cost than ever before in the history of the company. As most of our readers know, the company has had a chequered career in the past, each year a new lot of directors being elected to fill the place of the old board, who in the past had been unable to make the showing that is now being done under the energetic and capable management of Mr. McWilliams. The success of any plant of the magnitude of this company depends solely upon the management and it will be remembered that last spring at Toronto the annual meeting was of a somewhat sensational nature, resulting in a new board of directors and manager, whom, we are pleased to say, have so far made good. The earnings up to the end of May, we were assured, will pay off all debt and leave a snug balance on the right side of the ledger. Our first visit to the works was paid at night and it was a most impressive scene. Our space is too small to admit of a detailed description of the manufacture of Portland cement. Suffice it to say that the shareholders of the Durham plant have a first class money-making business that is apparently being managed in a very energetic and up-to-date manner. The marl, which forms the basis of all cement, is obtained from Wilder's Lake, which is situated some four miles from the works. It is dug up from the bottom of the lake by a steam dredge, blown through a large pipe by compressed air, and loaded into the cars of the company on the shore automatically. It is then transported by the company's engine to the works, where the cars are unloaded on a high trestle and the marl is precipitated into the receiving vats, where it is mixed with the proper proportion of clay and passes into the rotaries in the form of a thick paste called slurry. The rotaries are immense steel tubes, seven feet in diameter and 70 feet long, lined with firebrick, and revolve slowly. At the lower end coal ground into dust is blown into them, which immediately ignites and forms gas, producing an intense heat, and the wet slurry passes out at the lower end of the rotaries in the shape of red-hot clinker, which is really cement in the rough shape. The clinker is then carried in an endless railway in steel cars through a water bath to cool it, into the grinders, where it is ground and passes out from them ready for the market. The whole manufacture from beginning to end is done by machinery of the most approved and up-to-date pattern. At present the works are turning out about 1,200 barrels per day of 24 hours and a ready sale is found for the whole of it. We were informed by Mr. McKechnie, who is a director, that it was the intention of the board to declare a dividend this fall, which will be very welcome news indeed to the many shareholders in this district. Mr. Barlow Cumberland, of Toronto, who is also a large shareholder, was paying a visit to the works at the same time and expressed himself as highly pleased at the showing now being made by the company. Everything possible was done by the officials to show us how cement is made and of what the works are capable. The manager, Mr. McWilliams, paid a glowing tribute to his staff and to the energy and ability of the new superintendent, Mr. George A. McGrane, to whom he attributes in no small degree the present good showing. Mr. McGrane is an old cement expert and the works at Durham were erected by him for the construction company which had the contract. We had the pleasure of meeting the editors of the two local newspapers, the Review and Chronicle. Both gentlemen are enthusiastic in regard to the prospects of the company. The stock is now steadily increasing in value and bids fair to reach par inside of six months. In May 36,110 barrels of cement were manufactured and 38,125 barrels were sold. Mr. Charles Dyer, of this city, is a director of the company, and the resident officials say that he is one of the most efficient and well posted on the board.

Don't Dose The Stomach.

Cure Catarrh by Breathing Hyomei.

There is one treatment for nasal
catarrh which is based upon common
sense, and at the same time, is
thoroughly scientific.

Hyomei is not a cure-all: it is a
specific for the cure of catarrhal
troubles. Breathed through the neat
pocket inhaler that comes with every
outfit, the aromatic healing of Hy-
omei penetrates to the most remote
part of the nose, throat, and lungs,
healing all inflammation and killing
the catarrhal germ wherever present.
The complete Hyomei outfit sells for
\$1, and consists of an inhaler that
can be carried in the vest pocket, a
medicine dropper, and a bottle of
Hyomei. The inhaler lasts a lifetime,
and if more Hyomei is needed,
extra bottles can be obtained for 50
cents.

It is the most economical of all
remedies advertised for the cure of
catarrh, and is the only one that
treats this disease without stomach
dosing, applying the medication and
healing where the disease germs are
present.

Do not dose your stomach to cure
nasal catarrh; breathe Hyomei.

If you cannot obtain Hyomei of
your dealer, it will be forwarded by
mail, postage paid, on receipt of
price. Write to-day for consultation
blank that will entitle you to ser-
vices of our medical department
without charge. The R. T. Booth
Company, Hyomei Building, Ithaca,
N. Y.

DO YOU KNOW

That when half a dozen women
get together they proceed to lay out
their neighbors and cackle.

That a gambler's wife never knows
whether it will be seal skin coat or a
cheap wrapper for her.

That after a man has passed the
critical stage of his illness he begins
to worry about the doctor bill.

That possibly all men may be born
free, but it is impossible to keep
some of them in that condition.

That it is a waste of time to pray
for the heathen if you are not in
speaking terms with your neighbor.

That after a man takes a number
of drinks he sees double, and after
taking a few more he gets stone
blind.

That a man here actually looks
proud when he wheels his baby out
in his carriage, but it is said he is
proud of the carriage.

That a man never got slapped in
the face for talking too little.

That every man knows some other
man whose funeral he would like to
attend.

That both miser and the spend-
thrift think each other foolish—and
they are.

That many a woman's reputation
as a good wife hangs upon her hus-
band's buttons.

That a girl would sooner go hun-
gry than miss an opportunity to
have her fortune told.

That a cyclone will lift most any-
thing—except a mortgage.

That too many men's charity is
limited to the giving of advice.

That the more a man owes the
more he is apt to be sought after.

That we wish to know as much as
some people think they know.

That the man that eats pie with a
knife usually pays for what he gets.

That you will never be accused of
cheating in playing cards as long as
you lose.

That after marriage many a girl
discovers that she fooled with the
wrong man.

That when a married man fastens
his suspenders with a safety pin it's
a sure evidence that he has been dis-
appointed in love.

That automobile caps are worn by
some of the young men who couldn't
buy an automobile if they were sell-
ing for five dollars a dozen.

That it has been said that the
drum was the first musical instru-
ment in use, but how any one dis-
covered that it is a musical instru-
ment is still a mystery.

That when nature fails to make a
woman pretty the milliner and dress-
maker have to supply the deficiency
—and poor man foots the bills.

That the girl who waits for a man
to come and make love to her after
the manner of a novel hero will
remain single to the end of the
chapter.

That what a man needs is a wife
who can make a dollar go as far as
possible and not a woman who is
crazy about piano playing, painting
or poetry.

That a girl may be convinced in
after years that she drew a blank in
the matrimonial lottery, but she
clings to the belief that her husband
drew a capital prize.

That usually about six months
after a girl marries a man to reform
him she gives it up as a bad job.

That many a good dishwasher has
been spoiled by encountering a piano
teacher who needed the money.

That a man is fickle if he breaks a
marriage engagement, but he is dis-
honorable, a traitor and wretch if he
waits till she has been to the dress-
maker.

That if the north pole is ever dis-
covered it will be by a man who is
able to keep cool.

That in Europe a great deal of
attention is paid to the blood of the
people, but here we pay more atten-
tion to the blood of the stock.

PRINCIPALS.

TO CONSUMPTIVES.

The undersigned having been restored to health
by simple means, after suffering for several years
with a severe lung affection, and that dread
disease Consumption, is anxious to make known
to his fellow sufferers the means of cure. To
those who desire it, he will cheerfully send, free
of charge, a copy of the prescription used, which
they will find a sure cure for Consumption,
Asthma, Catarrh, Bronchitis and all throat and
lung affections. He hopes all sufferers will try
his remedy, as it is invaluable. Those desiring
the prescription, which will cost them nothing,
and may prove a blessing, will please address
