DURHAM CHRONICLE

W. IRWIN, Editor and Proprietor.

DURHAM, JULY 19, 1906.

During the past couple of weeks a drain is being dug and tiled from the Knapp House to the lower side of Garatrasa street bridge. We understand it is the intention of Mr. Hahn to dispose of his waste water through this drain, but not the contents of the closets. We hear some indignant remarks by citizens regarding this matter, and while they may have just reason to complain, we must admit that Mr. Hahn is entitled to a place to dispose of his house slops. The question of a proper system of sewage and a proper system of water-works is an immediate duty that should be taken hold of by the town council. Let them neglect it and the town will be sure to suffer. There was a bluff made some time ago to discontinue the pit closets. Following this boxes and cess pools were substituted with very questionable advantages so far as the public health is concerned. When nearly every house has to depend on well water the cess pools and pit closets are little short of death traps where the subsoil is nothing but gravel and renders very little resistance to liquid and effete matter percolating its way to a nearby well. It certainly behooves the town fathers to do something to improve the sanitation of the town and they can't get started too soon. The Cement smoke is another nuisance that the public are beginning to howl against and from the overloaded atmosphere of coal dust we have experienced this summer it seems very little surprise that they should put up a howl for relief. Citizens in all parts of the town are getting a share this year. Formerly the chief complaints were from those near the mill, and it is only now that everyone begins to realize the justice of their outcries. It is simply horrible and the introduction of smoke consumers or some other device is an absolute necessity.

SUCCESSFUL BARN RAISING.

The frame of Mr. Wm. Smith's new barn was erected on Tuesday afternoon last. The main building is 54 by 60 feet with an annex about 24 by 30 feet, the latter to be finished below as a hog pen and above as a poultry house. The whole structure is based on a solid foundation, the basement to be finished as stalls for cattle and horses. Ben Sharp has the contract of the frame and carpenter work, and the huge stone walls were put in place by a mason from Allan Park. A large number of men assembled in the afternoon and put the bents together in readiness for raising, when all rushed to the supper table like a crowd running to witness a hotel fight. When this little job was finished Bob Morris and John Backus were chosen as captains and the lifters were rapidly chosen from the assembled crowd. Charlie Lawrence, Bill Grierson, Lige Armstrong, Bill Scarf and George Morton were amongst the first called and the way they handled themselves showed the captains were not strangers to the strength and ability of the men selected. Ye Editor was present, too, but he wasn't considered of much account and he was left till near the last, which also showed great wisdom. Everything went together in fine style, and the final struggle was well sustained on both sides. Mr. Morrice leading in the finish only by a few minutes. There was no jangling or rudeness of any kind and it makes a newspaper man feel proud of his constituents to be able to go to a barn raising without being removed from the usual moral atmosphere of his own sanctum. There were a number of women present also, and they too behaved themselves very nicely. There was no accident of any kind and Mrs. Smith, who seemed to dread the event, remarked at the close that a big barn was rolled away from her heart as there was no casualties.

NOTES OF THAT BURG BY OUR OWN CORRESPONDENT

At the residence of the bride's brother-in-law, Mr. James McClocklin of this place, a quiet marriage was solemnized at 7 o'clock on Tuesday evening of last week when Miss Letitia Warling, fourth daughter of Mr. and Mrs. John Warling of Vandeleur became the wife of Jacob Neely of the same place. Dr. Caldwell of this place officiated. The bride, who was unattended, wore a becoming and pretty gown of white organdie with allover lace, yoke and berthe trimmed with valenciennes lace and cream satin baby ribbon. Her travelling costume was a skirt of gray homespun cloth and pale blue silk waist. After the marriage a dainty wedding supper was served and the company had an enjoyable evening. The bride was the recipient of many beautiful wedding presents. Mr. and Mrs. Neely left to visit friends at Collingwood and other points and upon their return will settle in their new home at Vandeleur.

It was very quiet here on the Glorious Twelfth, but flags and numerous Union Jacks were displayed in honor of day. The band and a large number went to Dundalk to celebrate and report a big day. LACROSSE.

The junior lacrosse match in the morning of the 12th between Hanover and Durham, by Hanover, 3-1. The game here two weeks ago, between teams, resulted in a tie, 4-4, everything being equal, it was our junior stick-handlers who put all over them when the men got in action on their own. The score was a grateful surprise when it was learned, on the evening of last year's seniors, that there was good, spicily played at times, well worthy of a larger crowd than Thursday morning. The two have each got a promising array of youngsters, who, with practice next year or so, catch a place faster company than junior in its present stage, is capable of doing to any great extent.

Hanover.—goal W. Henni, Henning, c p Ash, defense Jucksch, Klemmer, centre-home Mearns, Hauert, Wend side Ries, inside Peffer.

Durham.—goal Hurd, c p D. McFadden, dnter-home Glass, Darling, Knisley Smith, inside Saunders.

The afternoon was to see a sporting feature of the day, a match between Wingham and Durham's fast intermediate rubber and about 4:30 the teams lined up in front of the Reid House, and to the exhibition grounds. It was not long in following, and face-off about 4:45, a large number of spectators were jammed on ropes the full length of the field.

The game started with a draw, with both teams nearly matched. Wingham some time to in the net. Wingham tied shortly after, and the quarter as it began—even score and playing strong. The second saw good scientific combination gone through by both teams, spectators from both towns, over too, were worked to a wondering who, and hoping team, would break the tie. Teams were working hard. Wingham was finally rewarded dropping the rubber where it. Thus endeth the second.

And the third quarter was a fine, looking bad for Durham, you can't keep the work down" and with a bunch of like the Shortforms were hard to lose. And we before time was up, the little once more nestled sweetly in the arms of the Wingham tied the score.

The last period was where got her pretty work in, land behind the flags to Wingham with just enough of Father between the tallies to keep the torsi guessing. At no time team too sure of the game; fellow was always there, a some, too. It was a good, only one being hurt, Dinsdale ham. Kearns, of Arthur, was partial and efficient referee, for Durham, 2 for Wingham.

The teams lined up as follows: Wingham.—goal, McGeMoore, c p Wingham, defence McGuire, Kemkes, centre, home Cooke, Elliott, Fleming, McLean, inside Reid.

Durham.—goal C. Lavell, dorf, c p B. McDonald, defence Donald, Smith, Miehlihaus, Moore, home Trelford, Glasvold, outside Briggs, inside

This is what the Hanover in commenting on the team remarks, put up a good, game of lacrosse: "Durham rather the better game at stages, and their victory of deserved, Durham was well known and prized Mat one or two other good me they were not out full must ham was also shy one good it is safe to say that had carried all their sail here, would have been larger in favor than was the case."
