DURHAM CHRONICLE

W. IRWIN, Editor and Proprietor.

DURHAM, SEPT. 13, 1906

OBITUARY.

William Britton was born in the Tp. of Bentinck 46 years ago. When not two years old, his father got hurt at a barn raising and died, leaving four small children. Five years of his early life were spent in Parry Sound. He then settled on the 200-acre homestead in Bentinck. About ten years ago he moved to Glenelg where he resided till the time of his death on Sept. 4th. Nineteen years ago he married Miss Lottie Lunney, daughter of the late James Lunney, of Bentinck. To them were born one son and two daughters. One daughter, Violet, is left to mourn the loss of her father, Flossie having gone before at the early age of ten years and eight months, and Willie died in infancy. Mr. Britton's trouble began with his heart but a complication of diseases set in. His suffering he bore with Christian fortitude, and on Tuesday morning he passed peacefully away. In religion he was a Baptist. In the absence of his pastor, Rev. Mr. Newton, the Rev. Mr. Farquharson conducted the service at the house and grave. Besides his wife and daughter, he leaves one brother and two sisters—Mrs. H. Edwards, Glenelg; Mrs. Jesse Edwards, Owen Sound; and Robt on the homestead, Bentinck. He also leaves three half sisters in Parry Sound—Mrs. Jesse Dixon, Mrs. Alex. Lawson, and Phebe Black at home.

Constable Clark Cooped a Crook.

A few days ago Mr. Caldwell the lively man hired a horse and rig to a young fellow about eighteen years of age. He said his father was working on the railway about two or three miles out and he wanted to bring him to town. Driver and outfit failed to turn up and Mr. Caldwell became suspicious that things were not right. He set out in pursuit and followed the chap to Shelburne where he found him in a stable with an entirely different outfit. Preparations were made for his arrest and the thief was put into custody for the time being to await trial which didn't materialize fast enough to suit Mr. Caldwell, who gave instructions to hold him there till he would send Constable Clark after him. Mr. Caldwell got his own mare and harness about eight miles from Shelburne and came home. Tuesday he went out again in search of the buggy which he found a few miles the other side of Dromore, in possession of a farmer. The exchange was made and Mr. Caldwell came home with his own outfit complete. The deals were all evened up, no boot being given by either party, and there was no difficulty in the "trading back" process. Constable Clark went to Shelburne secured his game took him by train to Flesherston, and drove to Durham and put him in the coop here to await trial, which came off Wednesday morning before Mr. Telford. The young chap pleaded guilty and the evidence of Mr. Caldwell was taken when he was committed to Owen Sound for trial. He doesn't appear extremely bright.

The annual meeting of the Durham Furniture Co. was held in the Company's Office on Friday night when a very satisfactory statement was made of work done since rebuilding and reorganization after the fire. The preferred stockholders have received their 7% dividend, and President Dr. Jamieson and Manager Catton gave promise of strong likelihood of a small dividend being paid to holders of Common Stock by the close of the present calendar year. Mr. Catton came in for a goodly share of praise for the efficient and able management of the concern, and his financial and executive ability in relieving the Directors of much of the burden they had formerly to endure. In fact the Durham Furniture Co. is now regarded not only as a going concern but an institution that is on the highway to success, and the payment of dividends on all subscribed capital. Orders are coming in well, and much of the product has to be manufactured after the orders are placed. The outlook for the furniture business looks bright, and the management feels certain that the Company will be able to give account of themselves. An effort was made to put Mr. Catton on the Board of Directors, but as his appointment would necessitate the removal of some member of the present Board he respectfully declined the honor. We are highly pleased to know that Durham's first industry still stands without a charge for dishonesty or improper management, and every department is going on harmoniously. All the members of the old Board were reappointed.

A FEW days ago Mr. David McClocklin was standing on Garafraxa Street Bridge and he says "two other old chaps" came and joined. The question of age next came and it was learned that all three were seventy-six. Mr. McClocklin thinks this is quite a coincidence and wonders if such a thing would ever occur again. The other two were John Hunt and Jas. Calvert.

THEY ALL FAILED.

Many have tried to devise a corn cure equal to Putnam's, but after fifty years nothing has come upon the market that so painlessly cures corns and warts. Don't experiment, use the best that's—"Putnam's."

MISS DICK

Lambton St. Durham, Ont.

Flesherston.

The residence of Mr. and Mrs. John McKee, of the west back line, was the scene of a quiet wedding at 7 o'clock on Wednesday morning of last week when their daughter May McGregor was united in marriage to Mr. Daniel A. McDonald, of Artemesia. The bride who was becomingly attired for the occasion was given away by Mr. McKee and Rev. L. W. Thom of this place, performed the solemn service which united two hearts in one. The young couple were unattended. A choice wedding breakfast was served after which Mr. and Mrs. McDonald left on a driving tour to visit among friends before settling in their new home. We join the young couple's friends in the earnest wish that they may enjoy much happiness and prosperity.

Four steam threshers have been operating for some days near the village, and with the exception of peas, which we learn are turning out light with some, the yield is good.

Mr. Adam Genoe had a mishap with his new traction engine a few nights ago. Crossing the Beaver bridge at Carson's on the 8th. con. the engine went through and it was with much difficulty it was raised. Fortunately it sustained but little damage.

The brick work on the new hotel here is about completed and the carpenters will now rush the roof and other woodwork. The new bank will soon be ready for its occupants.

Judge Widdifield has handed down judgement in the two reserved cases at the recent Division Court here, as follows: Reilly vs. McCabe—Judgement for the plaintiff \$20, and costs. Walpole vs. Sproutt, dismissed without costs.

Messrs. J. & W. Boyd have renovated and made some desirable changes in their place of business preparatory for the fall trade. A carpet room has been opened on the second floor and the room down stairs formerly used for such has been furnished for a customers waiting room where ladies with children and others may comfortably rest. This will doubtless prove a much appreciated accommodation. Miss Reid has returned to take charge of the millinery department.

Died—On the 31st. ult. at his home, at Galt, Mr. Jacob Sipes, waggon maker, who some years ago lived at the Durham Corners, Toronto line. Mrs. Jas. Genoe of the Collingwood Road is a daughter of the deceased.

Mr. Andrew Wickens, west of the village, had a successful barn raising last week. The building about 45x55 is set on a fine stone basement.

The team of single men who played the married men a base ball match a fortnight ago again played a mixed team a match on Friday last and won on a score of 17 to 14.

Mr. P. Quigg had a bee on Monday evening moving from the homestead his old residence to be converted into a stable and carriage house. The raising took place in the evening and with the exception of the sills the timbers hewed and framed in barn style went together almost as firmly as when first erected forty-two years ago.

Communion service was held in the Presbyterian church on Sunday. Rev. J. A. Matheson, of Priceville, preached at the preparatory service on Friday. Mr. Matheson also exchanged pulpits with Rev. Dr. Caldwell here on Sunday and his thoughtful sermons were much appreciated.

Mr. D. McTavish spent the past two weeks at Toronto Exhibition in charge of the exhibit made by the Conboy Carriage Co., of which he is a member.

Mr. M. K. Richardson spent last week on Manitoulin island inspecting neglected and orphan children who are under the care of the provincial government.

Rev. J. B. Wass was at Markdale, on Sunday, supplying the Methodist pulpit, the pastor being on holidays.

Among those who visited friends in Toronto last week were Dr. and Mrs. Murray, Dr. and Mrs. Carter, Geo. Mitchell R. J. Sproule, W. H. Bunt, Miss Christine Richardson, Miss Ethel Triable.

Mr. George Richardson of Hanbury, New Ontario, is on a visit at his old home here, and his numerous old friends are pleased to see him again.

Furniture Company's Picnic.

The Furniture Co. will hold their first annual picnic on Friday next, September 14, at Holstein, leaving Durham by special train at one o'clock. Fare 40c., children 20c. Games will be provided as follows:—

Base Ball Match, Town Council and Directors vs. Employees. Lacrosse match. Tug of war. Tubrace. Boat race. Catching jingler. Walking greased pole and other sports.

Refreshments are to be provided by the ladies. Everybody welcome.

The person who stole the pipe out of Macfarlane's Drug Store is known. On payment of \$2 no further action will be taken.

We have been unable to get full particulars of the Cement Company's Picnic but learn that it was a great social success. Superintendent McGrane was a prime mover, ably seconded by President McWilliams and Secretary Maitland three men who are bound to make things go when they unitedly get their shoulders to the wheel and push in the same direction.

Mr. JOHN COUTTS, son of Alex Coutts, of Bentinck is in town at present soliciting orders for photo engraving. The samples shown are first class and the work is done by the Sovereign Art Studio of Toronto. The prices seem to be remarkably low for the class of work. Mr. Coutts intends to canvas the surrounding townships when he gets through with the town.

A DEPUTATION, consisting of the Mayors of Southampton, Chesley and Durham, and other members and citizens, the representatives from Durham being Dr. Jamieson and R. H. McWilliams, waited on the C. P. R. officials in Toronto last week relative to the building of a line of railway by way of Louise, Chesley and Southampton. The scheme was favorably considered by the Company and every assurance given that engineers would go over the ground immediately and the line built in the near future.
