The home of the

REV. A. A. BICE, Rector, Trinity Church.

It is only a year or so since Mr. Bice became rector and during that period he has endeared himself in hearts of his own people and is popular with the community generally. The church is prospering under able ministrations and the services well attended.

REV. W. L. NEWTON, Pastor, Baptist Church.

About five years ago the congregation received the services of their present pastor, the Rev. W. L. Newton. Prior to that the church was not the prosperous appearance it shows. The church building itself is an old one and let us say wholly unsuitable for public worship. The congregation has long been favored by good ministers, but the spirit of material progress did not seem to lay upon the people till moved to by the magnetic influence of Mr. Newton. They have now a handsome church, not a large one, but comfortable and up-to-date in equipment and modern in appearance. We give credit to the building elsewhere and hope we are not in a position to give credit to other churches also.
