WELL KNOWN IN JARVIS, ONT.

Haldimand County Councillor tells how Psychine cured his Lung Troubles

"I contracted a series of colds from the changing weather," says Mr. Bryce Allen, a well-known resident of Jarvis, Ont., and a member of Haldimand County Council for his district, "and gradually my lungs became affected. I tried medicine and doctors prescribed for me, but got no relief. With lungs and stomach diseased, nervous, weak and wasted, I began to use Psychine. With two months' treatment I regained my health. To-day I am as sound as a bell, and give all the credit to Psychine."
 There is a proof of what Psychine does. It not only cures Colds and kills the germs of LaGrippe, Pneumonia and Consumption, but it helps the stomach, makes pure, rich blood and spreads general health all over the body. You will never have Consumption if you use

PSYCHINE

Vickers.
 Mr. and Mrs. Will Cuff, of Aberdeen, visited Mr. and Mrs. H. W. Hunt one evening recently.
 Miss Mary Wise, of Allan Park, visited in this vicinity one day last week.
 Mr. and Mrs. A. W. Hunt spent last Sunday with the former's sister, Mrs. W. D. Mills, Durham.
 Mr. and Mrs. E. Roseborough spent the last couple of days in Owen Sound with the former's mother, who is ill.
 Miss Joy Hopkins visited her grandmother, Mrs. J. W. Vickers.
 Mr. Tom Wilson and family, of Aberdeen, have moved into our neighborhood. We welcome them as neighbors.
 Mrs. Mighton has moved back to her farm on the back line.
 Rev. Dr. Caldwell, of Flesherton, preached a missionary sermon here Sunday last.
 Died—Infant son of Mr. and Mrs. Joseph Reay, aged 4 months.

GREAT DISTRESS IN HER THROAT.
 Not an uncommon experience was that of Mrs. S. Wilmut of Shuler, N. S. Doctors failed, still a quick cure was found in "Catarrhzone." Notice this statement: "I have been a most dreadful sufferer from bronchial trouble and catarrh. On damp days I would hawk and suffer great distress in my throat. I used all kinds of medicines but didn't get permanent relief till I used Catarrhzone. It has strengthened my throat, cured my cough and made me entirely well." Refuse substitutes for the one reliable bronchial and throat cure. All dealers sell "Catarrhzone" in 25c and \$1.00 sizes.

SUPERIOR VALUE.
 When buying a newspaper the same rule should apply as when buying goods. You want the best for your money—There is one "best" in Canada and it should be in every home. You should have your own local paper without doubt, but you should also have the Family Herald and Weekly Star of Montreal. It can be had at the price of the cheapest—one dollar a year—and is certainly the greatest family and farm paper on the continent. Their premium picture given free to all subscribers, entitled "A Tag of War," is away ahead of the ordinary premium picture, and will adorn any home. The Family Herald is certainly very superior value this season.

 DAY and EVENING classes.

Dairy Instruction and Sanitary Inspection of Factories and Creameries.

The Dairy Instruction of the past few years has resulted in a marked improvement in the general equipment and sanitary conditions of factories. Many proprietors and makers have, however, stated to the instructors and members of the Dairymen's Associations that they were some what discouraged after going to the expense and trouble which were found necessary to make improvements considered essential by the dairy instructors. "We have gone to considerable expense in order that the quality of cheese may be of a higher standard but our neighbor factories have gone on in the same old way manufacturing along cheap lines and they, for the most part, secure as high a price for their cheese as the better equipped factories. In many cases the poorly run factories manufacture for a lower rate than a well equipped and improved factory thus making the burden still greater for those who are anxious to do what is essential if the industry is to be placed on a sure and permanent basis."

The sanitary inspectors for the past year, Mr. J. H. Echlin and T. Dillon, have effected a marked improvement in the sanitary conditions of the factories. They went out from the Department clothed with authority to insist upon improvements which were necessary and which had, in many cases, been recommended by the instructors, but which had not been made. Many expressions of appreciation of the work accomplished by these inspectors have been received from all sections and the better class of Dairymen throughout the Province are strongly of opinion that work of this nature should be followed still more closely during the coming season.

The representatives of the dairy associations and the chief instructors as well as the regular staff of instructors are of one opinion as to the advisability of clothing the instructors with the power of sanitary inspectors and so arranging the districts that every factory and creamery will be subject to regular and systematic sanitary inspection and may have the benefit of instruction as well. In order that the opinions above expressed might be put into tangible form to be placed before the Minister of Agriculture, the Director of Dairy Instruction called a meeting of the chief instructors, sanitary inspectors and representatives of the two dairy associations to meet in Toronto on 8th inst. Those present were Chief Instructors, G. H. Barr and G. G. Pablow Sanitary Inspectors, T. Dillon and J. H. Echlin Represent atives of Eastern Dairymen's Association, R. G. Murphy, J. R. Dargavel, M. P., and J. H. Singleton. Western association,—Thos. Ballantyne, Jno. McLevin and J. N. Paget. After discussing the subjects before them at great length they unanimously decided upon the following system.

(1) That the whole Province be divided into such sub-divisions as would give each inspector 35 to 36 factories or creameries. This will require a staff of 38 instructor-inspectors, and it is considered by those who have had the work in charge that the man appointed to the work would be able to render more effective service than in past years. Many of the better factories are really not in need of regular instruction and in the majority of cases a call of an hour or two from the instructor will be just as effective as to spend a whole day with the maker in manufacturing a lot of cheese. This will give the instructor-inspectors an opportunity to visit many of the farms and to advise with the producers as to the best method of producing the desired quality of milk. In the opinion of the chief instructors the chief essentials in producing a first-class article is that the raw material receive proper attention by the producer and milk hauler. Chief Instructors Barr and Pablow stated that "90% of the rejections can be traced to inferior raw material."

(2) That every factory and creamery in the Province be charged a uniform fee of \$12.00 to help defray the expense to the Department of furnishing instructor-inspectors. The total appropriation necessary for the work suggested by the joint committee is \$42,700 and upon the basis of the tax above mentioned, the factories and creameries will contribute \$16,900 towards this expenditure. It was at first thought that a sliding scale would be more equitable but after discussing the question from all sides it was decided to recommend a uniform fee, chiefly for the reason that the smaller factories and creameries are usually in need of a greater amount of instruction than the larger factories and really demand as much or more time than the larger concerns.

(3) That the instructor-inspectors be required to test milk and cream for adulteration or tampering but only in those cases in which application is made and the maker or some other responsible person furnishes the Department or one of the Chief Instructors with evidence that adulteration or tampering has been practised. In some sections the time of the instructor has been almost en-

SCALP SORES

Eczema, Ulcers and Skin Diseases.

Don't you believe in nature? Don't you think that skin and blood diseases such as the above, can best be cured by applying nature's own herbal extracts? From Bible times the "herbs of the field" have been commended to mankind for this purpose. Zam-Buk is a combination of the finest medicinal herbal essences, concentrated, purified, and rendered highly antiseptic. Zam-Buk eases pain, stops suppuration, and heals all sores and skin diseases. A natural herbal balm, operating in nature's own way. Note well following cases.

PROOF OF ZAM-BUK'S POWER.

Mr. Montague Jones, of Tavistock, Ont., says:—"About four years ago sores started to break out on my skin. I used salves to check them, but to no effect. I then burned them with Iodine, and that took them away for a time, but only for a time, and they caused me great pain. Sores then started to break out on my head. I went to the doctor, who told me that it was scalp eczema and that I should need to give it very careful attention. He gave me some salve which I rubbed on, but notwithstanding all my care I continued to get worse. I then tried several advertised remedies, but to the same end. One day I read a report about Zam-Buk, and I thought that what it had done for other people it could do for me, so sent for a sample box. The result of the use of so small a quantity was so satisfactory that I at once obtained a full supply. I also obtained a few boxes of Bileans for internal use. Within a very short time there was a marked improvement. I applied ZAM-BUK in accordance with the directions and very soon the sores were all gone and the sores completely healed. They show no trace of returning, and I feel that I am cured to stay cured."

"Mrs. L. Finch, of Camberwell, says:—"Our little girl, May, had eczema on the scalp. It spread all over the head and the pain was so bad at times that the poor child screamed aloud. Her hair came out in patches. Hospital treatment failed. The first application of Zam-Buk eased the agony and by the time we had used a few boxes the disease was cured. It is the finest balm ever brought into a house for all skin injuries and diseases."

USE ZAM-BUK IF YOU SUFFER FROM:—
 Eczema or any skin disease, Ulcers, Abscesses, running sores, blood poison, eruptions, chronic sores, etc. It also cures chilblains, chapped hands, cold sores, cuts, burns and bruises. It eases the pain of piles, and cures the ailment by softening the hard veins and removing the congestion. Also good as an emulsion. Used by Sherring, the Marathon winner; Lannon, ex-champion wrestler, and leading athletes the world over. All Druggists, 50 cents a box, or from the ZAM-BUK CO., TORONTO, upon receipt of price. 6 boxes for \$2.50.

A Free Box
 will be mailed you if you send this coupon and 1 cent stamp to ZAM-BUK CO., Toronto

ZAM-BUK.

tirely taken up with the work of testing and it is considered by the persons identified with the Associations and the Department that the identified with the factory should be qualified to make preliminary tests and investigations sufficient to furnish evidence that tampering or adulteration has taken place, before the services of the inspector be asked for.

(4) It is also recommended that any owner or manager of, or assistant in a cheese or butter manufactory who shall knowingly receive or make into cheese or butter any milk that is tainted, lassy, over-ripe, or delivered in rusty or unclean cans or utensils, or in which a preservative of any description has been used, or which has been drawn from cows suffering from lump-jaw or other infectious disease, shall be liable to a fine. We now have a provision under which the producer can be prosecuted, provided he sell or supply to a cheese or butter manufactory any milk that is tainted or badly soured, and it is thought to be distinctly in the interests of the industry to have a provision by which a maker or proprietor can be dealt with provided he accepts any such milk to be manufactured into a food product for general use. This will have the effect of practically prohibiting a maker from accepting milk of inferior quality which has been refused at a neighboring factory.

It must be remembered that the above are recommendations made by the joint committee to the Department, and the same are being published at this time in order that the comments of the dairymen generally may be secured before definite action is taken. The Department is desirous of doing only that which shall be in the best interests of the cheese and butter industry of the Province and wishes to adopt such measures as are necessary to secure the same, but at the same time, wishes to avoid doing an injustice to any person or persons. It must not be inferred that instruction is to be abandoned and an army of men sent out merely to give orders to the men who own factories and herds of the country. It is the desire to so rearrange the work of instruction and sanitary inspection that it can be done most effectively at a reasonable cost and in the best interests of the owners of the factories, the producers of milk, and the makers.

The Director of Dairy Instruction, Mr. G. A. Putnam, would be glad to receive suggestions or recommendations from dairymen regarding the proposed regulations.

THE large 12x14 photograph given away with one dozen cabinets is well worth a dollar and a half. F. W. Kelsey, Photographer.—July 12th. ff.

Executrix's Sale.
ACCORDING TO THE LAST WILL and testament of Samuel Kidd, deceased, there will be sold by public auction on Thursday, December 27th, at 2 o'clock, p. m., lot 33, con. 3.
