

Extend to Hearty things for their coming

A Boston schoolboy was tall, weak and sickly.

His arms were soft and flabby. He didn't have a strong muscle in his entire body.

The physician who had attended the family for thirty years prescribed Scott's Emulsion.

NOW:

To feel that boy's arm you would think he was apprenticed to a blacksmith.

ALL DRUGGISTS; 50c. AND \$1.00.

NEW BUTCHER SHOP

I beg to announce to the citizens of Durham and vicinity that I have opened up a first-class Butcher Shop in the McIntyre Block where I will furnish all kinds of first class meats at reasonable prices. Trial order solicited.

B. PHILLIPS

J. H. TEAKLE, Allan Park.

rounding towns where much larger debenture debts are carried.

Railway Crossings—Though an underground crossing was desired by the residents it was found to be impracticable, but he felt confident that sufficient protection would be given, as he had been led so to believe from an engineer of the Railway Commission who was here recently.

Smoke Nuisance—Used means to have it abated, but on account of recent legislation giving privileges to smelters, etc. Notwithstanding this legislation he has good advice and reason to believe that the Company can be forced to abate the smoke nuisance. Much of the lower town property is practically destroyed.

Fire By-law—Limits extended in 1906, but found objectionable in the early part of 1907. Felt confident that Fire By-law was too stringent. Did not suit majority, as it prohibited the erection of certain class of buildings in residential portions of the town. Got information from other towns, notably Mt. Forest (business), Hanover no by-law, Palmerston (business), Harriston (does not include residential portion of town).

Cream Separator Plant—Did not comply with initial requirements, and owing to a technicality the mortgage did not fall due until October. Previous to this date they went into liquidation. Council demanded full taxation as the Company in 1907 had not complied with the conditions. Does not think there is much possibility of recovering the amount of the mortgage now due. Advised starting of plant, tried to do so but failed. Sees now a possibility of setting it going at an early date. Only one thing to depend on now is to increase our industries and to revive this one particularly.

Two By-laws—Local Option—Submitted on account of a petition being signed by a requisite number of ratepayers. Would not go in to discuss the By-law. It was a moral question which every ratepayer has a right to look into and to vote according to the dictates of conscience. As Mayor, he thought it his duty to refrain from taking an active part. Should he be elected Mayor he will do his duty in case the local option by-law passes; he will endeavor to see that the law in that respect is fully carried out. Every voter on the list has a right to vote on the by-law. Impossible that vote should be challenged and hoped there would be no effort at wholesale swearing.

Bridge By-law—To ask for debentures of \$4000 to build a bridge on Garafraxa Street. He is of opinion that \$5000 is necessary. The by-law is to extend over 20 years and the cost will not exceed an increase of more than about half a mill in the yearly tax rate.

Armory—Read a letter from H. H. Miller in relation to the expenditure of \$2500 by the Government in the erection of an armory provided the Council buy the site.

In concluding his remarks and seeking the support of the ratepayers, he said he had no apology to offer in asking for a "second term only," and he thought that he should be elected. Mr. Hunter held the position for three years without opposition and thought he should be elected for a second term. He also appealed to the electors on the ground of much unfinished work left over by this year's Council.

Mr. A. S. Hunt stated that he had been requested by a number of the ratepayers to contest the Mayoralty. Mr. Calder and his Council having done nothing the pressure was brought upon him and he consented to come out. The Council of 1906 raised the assessment \$77,000 and also got \$1,500 from the C. P. R. The school wanted \$5000 or \$2033 more than the Council of 1907 had to give. The roll for 1906 was \$11410 and for 1907 is \$10957.45.

There are \$3500 to provide for what we are behind this year.

The fire by-law he admitted takes in a little too much area, but he was not in favor of it. Mr. Calder was fighting the by-law nearly all summer. His lawyer says it is a good by-law. He did not give the ratepayer the advantages promised them last year and now he was trying to bait them with visions of new industries that he would bring into effect if elected. Mr. Calder's taxes this year are \$26 less than last year, notwithstanding the higher assessment. Mr. Calder, he

claimed, did nothing this year.

Local option, he said remains with the ratepayer to decide. Every one should vote as he sees fit. If it carries he intends to see it enforced, if elected Mayor.

Mr. Jackson explained some financial questions but did not feel it to be his duty as treasurer to take an active part in the matter. "We have \$8000 on hand to begin to do business with next year. The total amount of our liabilities is over \$10,000 and we have about \$6,000 to pay it with" said Mr. Hunter after which he appealed to the electors for their support in this election.

Mr. Saunders referred to his election last year, the efforts to disqualify him and his subsequent election by acclamation. With pride he referred to his success in the County Council in keeping down the assessment of Durham to \$450,000 after a strong effort had been made to raise it to half a million. He referred to the House of Refuge and other matters after which he asked to be elected for a second term only.

Mr. J. H. Brown declined to contest the Reeveship but would allow his name to stand as a candidate for the council. He was an out and out supporter of Local Option and the temperance people had decided not to bring out a candidate. He was, therefore, not the candidate of any party. He found some fault with the condition of the streets and the council he thought would be justified in spending more money to put them into better shape.

Mr. Laidlaw referred to the greatness of last year's promises, and expressed disappointment at seeing so little done. He never remembered a council that did so little business as the council of 1907. Could not say who was to blame for the discord and for so little being accomplished. Did not like to hear glowing promises of new industries when we were unable to retain the ones we have. He believed if the council had been a unit the Cream Separator Factory would be running to-day. Thought the council should be as lenient as possible and give a chance to get the factory in operation. Glad to hear that we are going to get some Government support. Glad to feel that we have a prospect of getting post office boxes. Thought the debt we are facing for 1908 will be about \$3500 more than we had this year. Regretted that the assessment has been raised. Will vote for the local option by-law and he is conscientious in doing so.

Mr. Saunders came back to the platform and explained that the council had an estimate of the bridge and referred to a similar bridge which cost \$3500. He didn't say anything about local option, but if returned he was prepared to do as much for local option as Mr. Laidlaw.

Mr. Calder explained that the raising of the assessment of the town was not at the instigation of the council.

Time and space prevents us from giving an outline of the addresses of Councillors Lenahan, Cochrane, Whelan, Swallow and McGowan and Mr. B. Sharp who remains as a candidate.

Mr. W. Lawrence gracefully declined nomination.

BENTINCK.

Reeve—Samuel Dickson, J. S. Wilson.

Deputy Reeve—Robert Brigham, F. Dodsworth.

Councillors—Robt. Grierson, Geo. A. Noble, Alex. Wilson, Robt. Leslie.
