WATER IN TURKEY.

Perfect Beverage. "Turks are extremely particular," writes a traveler, "in regard to the quality of the water they drink and are willing to be at much trouble and expense to obtain water of the kind water must issue from a rock, fall from Funeral Director a height, be of medium temperature, flow rapidly and copiously, taste sweet, spring in high and lonely ground and run from south to north or from east to west. The excellence of any water is accordingly determined by the num ber of these conditions it fulfills. It is remarkable how much pleasure Turks find in visiting a famous spring in the country, to spend the whole day beside it under the shade of trees, doing little else than drink carafe after carafe of the water as the elixir of life. Resorts of this description abound on the shores and in the valleys of the upper Bosporus under such names as the Water of Life, the Silver Water, the Water Under the Chestnut Tree, the Water Beside the Hazels. The spectacle of the great gatherings there on Fridays, arrayed in bridal colors, seated tier above tier on the terraced platforms built against the green slope of the hill, the women above, the men below, all in the deep shade of the branches meeting overhead, forms a Mrs. Egan and Miss Egan, Dundalk, picture beyond a painter's power to reproduce.

Hot Drinks For Thirst.

It is a mistake to suppose that cold drinks are necessary to relieve thirst. Very cold drinks, as a rule, increase the feverish condition of the mouth and stomach and so create thirst. Experience shows it to be a fact that hot drinks relieve the thirst and cool off the body when it is in an abnormally heated condition better than ice cold drinks. It is far better and safer to avoid the use of drinks below 60 degrees. In fact, a higher temperature is to be preferred, and those who are much troubled with thirst will do well to try the advantages to be derived from hot drinks instead of cold fluids, to which they have been accustomed. Hot drinks also have the advantage of aiding digestion instead of causing debility of the stomach and bowels.

The Harshness of Orators. American political orators are often charged with being unduly harsh to the other side. The following extract from a speech of the late Earl of Shaftesbury, published in his memoirs. shows that if our stump speakers exhibit harshness they come honestly by it. The noble earl thus described and prophesied: "When Gladstone runs down a steep place, his immense majority, like the pigs in Scripture, but hoping for a better issue, will go with him, roaring in grunts of exultation."

TO REFOREST SPRUCE.

Paper Required For Printing Daily News May Run Short.

A Timber Valuator writes regarding the pulpwood situation: "In view of the growing scarcity of forest products many substitutes have been offered and suggested to take the place of wood for building material, yet, notwithstanding the near approach to a timber and lumber fa-Mr. Anderson, of Hepworth, and mine, and the high prices now becheapest, safest and best building material. Brick, coment and steel have been experimented with to a considerable extent, but nothing has yet been discovered or invented that will Mrs. James Allen, who returned serve to check the increasing demand for lumber as a building material. When I was a boy rags were used almost exclusively for making all kinds Mr. Henry Holman, who was in- of paper, but to-day I have it from required the product of a well-timbered acre of spruce. To one that At the quarterly business meeting knows opproximately the total amount Almost Denuded of Trees.

Pulp mills on the west side of Lake Michigan have been getting their superal years. Going east through Ontario and nearing the Ottawa River we gradually run out of the pine belt and able for pulpwood, with the exception of the Province of Quebec, which is pulp mills or rossing plants north of St. Lawrence River, the products of which are shipped to New York and other eastern markets. I would suggest that the Forestry Associations give some attention to the reforestry

THIN AS A RAIL, ARE YOU?

Every day spending as much energy as you make-if the balance goes a On the danger line to day,-to-morrow may be too late! Better use Ferrozone, it builds up-a little gain the first week, but the gain keeps growing. Next week, not quite so Do you know that rheumatic pains thin. Keep right on, lots of fat Ferrozone. You'll try it, only 50c. at all dealers.
