DEFEATED BY DR. HAMILTON.

In no way is health so menaced as by constipation. It leads to indigestion, insomnia, anaemia and a hundred ills. Ordinary remedies fail—they relieve—don't cure. The worst case is defeated and cured quickly by Dr. Hamilton's Pills, which cleanse the entire intestinal tract, stimulate kidneys and liver, keeps the pores of the skin open. You'll never have stomach trouble, yellow complexion or headaches if you use Dr. Hamilton's Pills. They are a perfect system tonic. 25c. at all dealers.

LETTER TO THE EDITOR.

TO THE EDITOR OF THE CHRONICLE.

DEAR SIR.—In last week's Leader there was an article written in reply to Mr. Thomas Brown's letter, in which a base attack is made on some of the young men of Holstein. Four of them are charged with purchasing whiskey in a neighboring town, drinking most of the night and being in a most deplorable state, which no doubt means they were drunk. Therefore, we, the undersigned young men of Holstein and vicinity, hereby protest against this base and false insinuation and deplore the fact that such mean, low and contemptible tactics are used to bring reproach and discredit on Local Option.

WORK has started in the Separator Factory preparatory to putting up steam and putting the mill in motion. The business has been purchased by Messrs. J. A. and Sirs, who are now ready to kinds of repairs on Oxford Separators. This will be good for users of that famous separator which the new proprietors intend manufacture. Messrs. Sirs have engaged in the work here since factory started, and are experts in machine.

WE are sorry to learn that Mr. Storey is not at all well. A year ago he underwent an operation in Fergus hospital for appendicitis. The case was a very serious one for some time his life seemed to be in the balance. At the end of weeks he was considered well to come home where he spent a number of months in comparative idleness making slow recovery but the never seemed to heal up properly. During the past summer he did considerable work, though not very physically. On Monday last he again for Fergus to undergo an operation which we trust will be a success.

NOT content with the appalling of life in the mines, on the railway fires, and the ordinary which assail a person, we have deal with the moving picture machine as an instrument of death. In E. town, Pa., over one hundred persons went to their doom through the explosion of a gas tank in connection with a picture machine. Catharines a day or so later an explosion caused considerable damage and alarm, and resulted in the of a fifteen-year-old boy, who operating the machine. The accident strikes us nearer home happened at Ingersoll, happily ever, with no loss of life and relatively little damage. It is intention to say that these machines are dangerous. Far from we believe them to be safe as other mechanical apparatus if exercised in the operation of. The three catastrophes referred to have been accidental and unavoidable, but we would like one question, "Is it a proper affair to allow a 15-year-old to have full control of a machine has proved itself so death dealing the hitherto harmless bioscope?"
