MONTREAL BOY AND GIRL HEALED BY Zam-Buk

Keep Zam-Buk Handy! Accidents will happen to the best regulated families, and the necessity of keeping handy a box of Zam-Buk—the valuable "first-aid" cannot be too strongly insisted upon.

Mr. F. Webster, 519 Seigneurs Street, Montreal, says: "One day as I was lifting a pan of water off the stove, my son Eddie ran toward me and knocked the pan upwards. The water ran over his neck and scalded him very badly. It is a very awkward place on which to keep a plaster and several things which we tried failed to give him relief. We then applied Zam-Buk (which we had used some time before for a bad gathering on my little daughter's head) and this acted like a charm. It drew away the pain and healed the scald. We have proved Zam-Buk an invaluable remedy."

SEND FOR FREE SAMPLE Acquaint yourself with Zam-Buk. Send this coupon with 1c stamp (for return postage) to The Zam-Buk Co., Toronto, and possess a dainty sample box.

Zam-Buk's Wonderful Way.

Zam-Buk is absolutely unique in its composition, and must not be confused with cheap ointments containing rancid animal fat which the skin cannot absorb, and which consequently instead of cleansing the pores clogs them up.

Zam-Buk has revolutionized existing methods of healing cuts, bruises, burns, scalds, chapped hands, cold sores, chafing, and treats in a new, scientific and effective way the worst case of eczema, piles, ulcers, bad legs, blood-poisoning, festering, proriasis, scurf, ringworm, children's scalp troubles, sores on the back, and all those inflamed, burning, irritable and diseased conditions of the human skin that incapacitate and torture their thousand victims.

Of all druggists and stores, 50c a box, or post-paid from the Zam-Buk Co., Toronto, on receipt of price. 3 boxes for \$7.25.

GREY COUNTY COUNCIL.

R. J. Ball Chosen Warden Without a Ballot Being Taken.

The inaugural meeting of the county council of Grey for 1908 is in progress this week at the court house. The members assembled at two o'clock on Tuesday afternoon and went through the usual formalities as to qualification. The council is composed of the following members:

- Artemesia—Muir, McKenzie. Bentinck—Wilson, Dodsworth. Chatsworth—Dr. T. McCullough. Collingwood—McKnight, Goldsmith. Derby—Garvie. Dundalk—Sinclair. Durham—Saunders. Egremont—Hastie, Ferguson. Euphrasia—Erskine, Ellis. Gleneig—McFadden. Hanover—Ball. Holland—Hampton. Keppel—Elliot, Johnston. Markdale, Stephenson. Meaford—Agnew. Normanby—Schenk, Umbach. Neustadt—Weber. Osprey—Norman, Taylor. Owen Sound—Harrison, Lemon, Dr. Lang, John Legate, Proton—Corbett. Sarawak—McClelland. St. Vincent—Abercrombie, Eaton. Sullivan—Sinclair, Hatton. Sydenham—McDonald, Day. Thornbury—Smith.

The first business to be dealt with was the election of a warden. As foreshadowed in The Times the only name to receive serious consideration was that of Mr. R. J. Ball, reeve of Hanover. His nomination was made by John Legate of Owen Sound and was seconded by James S. Wilson of Bentinck. Messrs. Walter Hastie and S. P. Saunders proposed Andrew Schenk of Normanby, but the latter declined to allow his name to go before the council and Mr. Ball's election was made unanimous. The only other business transacted was the appointing of a special committee consisting of Messrs F. W. Harrison, Neil McDonald, S. R. McKnight, R. Agnew, A. Schenk, Thos. McFadden, E. W. Norman, J. H. Corbett, and James Erskine to strike the standing committees for the year. The following are the chairmen of the respective committees: Finance, Robert Agnew, roads and bridges, James Erskine, county property, Neil McDonald, education, Walter Hastie, printing, James S. Wilson communications and memorials, S. R. McKnight; house of refuge, J. H. Stevenson.

WHY DO WOMEN WORRY?

First Sign of Failing Health.

Worry is a disease—and it's more—it produces other diseases, because it breaks down the nerves and saps the vitality of the body.

What a pity women don't realize that if they were well—if the blood was nutritious—if the nerves were strong—if all the organs were active—then the little things that irritate and prey on the mind wouldn't receive a moment's thought.

The woman who worries has a poor appetite—she sleeps poorly. If it only lasted for a day or two it might be of small consequence—but she grows limp, miserable, unhappy—worse day by day.

She needs Ferrozone which cures worry by curing the conditions that render worry possible. For nervous, weak women, no tonic is so good; thousands it has cured just like Mrs. M. E. Etherington, of Troy, who writes: "I am quite willing to give a public testimonial for Ferrozone, believing it to be a tonic of superior excellence and one that will rapidly build up strength and supply new energy to anyone not feeling well."

LEARN DRESSMAKING BY MAIL

In Your Spare Time at Home, Or Take a Personal Course at School.

To enable all to learn, we teach on cash or installment plan. We also teach a personal class at school once a month—class commencing Tuesday of each month. These lessons teach how to cut, fit and put together any garment, from the plainest shirt waist suit to the most elaborate dress. The whole family can learn from one course. We have taught over 7,000 dressmakers and guarantee to give \$500 to anyone who cannot learn between the ages of 14 and 40. You cannot learn dressmaking as thoroughly as this course teaches it if you work in shops for years. Beware of imitations, as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada, and excelled by none in any other country. Write at once for particulars, as we have cut our rate one-third for a short time. Address SANDERS DRESS CUTTING SCHOOL, 31 Erie Street, Stratford, Ont., Canada.

WANTED AT ONCE—We have decided to instruct and employ a number of smart young ladies to teach our course in Dress-making, having one teacher for the six near-st towns where they live—age 20 to 35. Those who have worked at dressmaking, or like drawing preferred. Please do not apply unless you can devote your whole time. Address—THE SCHOOL.

without a dissenting voice In my predecessor's address, at last June session, reference was made to the equalization of the County assessment; and since the June session I have heard of considerable dissatisfaction touching the results of that equalization. It will be unfortunate if a feeling of dissatisfaction prevails among the different municipalities, as to so important a question as the finances of the county, because based on an unfair assessment. I would suggest that at this session some plan of re-adjustment be devised—either on the lines laid down in the Assessment Act of Ontario, which provides for the appointment of valuers, and I am sure you will agree with me when I say that this is an expensive method, and perhaps not always satisfactory or the more simple and less expensive plan, of the individual members of the council preparing, during the interval between January and June sessions of a statement of values of the lands in their respective municipalities. They could have the assistance of the local assessors, clerks and treasurers and to this at very slight cost might be added a few particulars from the registry offices of actual sales in different sections of their respective localities. This would, I believe, be much more satisfactory than the manner in which the equalization was done in June, 1907, when the question of the basis of assessment was sprung upon the members of the council without sufficient time for adequate consideration. I notice that many of the counties in our province—including some adjacent to our county, Simcoe and Wellington for example—are availing themselves of the government's proffered aid in the inaugurating of systems of good roads. Those of you who were members of this council last year will not, I am sure, have forgotten the address of the November session of A. W. Campbell Deputy Minister of Public Works, of Ontario, which contained much valuable information and much good advice in reference to this important question: and I sincerely

GOES AFTER GERMS.

How Hyomei Does its Work in Curing Catarrh.

Nature's remedy for catarrhal troubles is the oils and balsams found in Hyomei. It is a specific, not a cure all. It has but one mission, the cure of catarrh.

The natural way of curing a disease is always the scientific way and the scientific way, of curing catarrh is the simple way with Hyomei.

Catarrh is a germ disease and can be cured only by using Hyomei, the treatment that reaches and destroys all catarrhal germs.

Breathed through the neat pocket inhaler that comes with every outfit, Hyomei's medication reaches the most remote air cells of the nose, throat and lungs, going after the disease germs wherever present, destroying them and preventing their growth, thus making catarrhal troubles impossible.

There is no dangerous stomach dosing when Hyomei is used. It is solely an inhalation treatment, prepared specially to kill the catarrhal germs.

Begin its use at once and see how quickly it gives relief and lasting cure.

We positively guarantee Hyomei for should you buy a complete outfit, price \$1.00, and be dissatisfied with results your money will be refunded. Hyomei is sold by druggists everywhere. Write for literature, Booth's Hyomei Co., Buffalo, N. Y.

MARRIED AT TORONTO.

The marriage of Miss Jessie Lorette Reid, daughter of Mr. Wm. Reid, of Toronto, formerly of Hanover, to Mr. George H. Mitchell, of Hanover, publisher of the Post, was consummated at the residence of Mr. R. S. Scarborough, 1 Orford Ave., Toronto, on Thursday last, at two o'clock. The marriage was quiet in nature, only the immediate friends to the number of about thirty, witnessing the ceremony. The bride was assisted by her sister, Miss Audrey, while Mr. B. B. Weatherall, B. A., of Toronto was best man. After luncheon, the newly married couple left at 4.40 on a short trip to Detroit and Chicago, the bride traveling in a suit of navy blue ladies' cloth with hat to match.—Hanover Post.

hope that, either that as the result of a plan devised by our Road and Bridge Committee; or if you please by a special expert appointed for the purpose, something tangible in the shape of a good roads system will be undertaken by this council. When the government of Ontario is willing to provide one-third of the cost, why should not the county of Grey have a share in the advantages which would of necessity accrue? I ask your earnest consideration to this important question. I have no doubt most of you are interested in the opening up and development of our county by the construction of rail ways and other facilities for the carrying of the products of our mills and factories and I am pleased to report to you the near completion of the spur line being built by the C. P. R. from near Proton Station in our county, touching Priceville, Durham and Hanover in this county, and going to Walkerton, and possibly other important points in the adjacent counties. This line will, I doubt not, be of immense advantage to a number of the inland towns which it may touch, and will afford increased facilities for the shipping of the farmers produce, as well as the products of the manufacturing concerns. I hope to see the day, not far distant, when the connecting link between the important towns of Owen Sound and Meaford shall be constructed, and thus increased facilities for travel and commerce be brought to the Northern parts of the county. You are all aware that large expenditures have of late years been made in the building of steel and concrete bridges in our county—such as at Heathcote, Priceville, Sarawak, and one under contract at Sceno, on the county line of Grey and Bruce. I would respectfully suggest that the county treasurer be asked to furnish a statement of the finances of the county, so that the members may be in a position to control and keep within proper bounds the finances of the county. In this connection I would suggest for your consideration the propriety of the issuing of debentures from time to time as might be found necessary and covering a period of at least ten years or more, for the payment of the construction of these expensive bridges. There is in my judgment, no reason why we should tax ourselves to pay for these bridges in one year, as we have been doing, when the probabilities are that they will be sufficient for the use of generations yet to come, and as they will be of service to those who are to come after us, they should be required to provide some of the cost. And now, gentlemen, in closing, I respectfully solicit your assistance and co-operation in conducting the business of this session. Again I thank you for conferring upon me the honor of the Wardenship of our county and I shall endeavor to prove myself worthy of the trust reposed in me. I am as ever, your humble servant.

DURHAM SCHOOL.

STAFF AND EQUIPMENT.

The school is thoroughly equipped in teaching ability, in chemical and electrical supplies and fittings, etc., for full Junior Leaving and Matriculation work. The following competent staff are in charge:

THOS. ALLAN, 1st Class Certificate, Prin. MISS LOLA McLEOD, B. A. Hon'r Graduate of Queen's University, Classics, Moderns, and English.
