

Millinery

WE beg to announce to our many customers that we have returned from Toronto, after visiting the different Millinery Wholesales. We have selected a larger stock than ever this season, and at present we are preparing for our own Millinery Openings which will be about the end of March. In the meantime we are prepared to take orders and will be glad to show any of the New Models that are now complete. We have secured the services of Miss Oliver as head trimmer, who comes to us highly recommended, having had experience in one of the leading stores in Toronto. We cordially invite you to inspect our goods at any time. We have large and select display of mourning millinery to choose from. A grand selection of Auto and Spring Millinery in the latest style and coloring. We solicit your patronage and are willing to please you in style and price.

WORTH TAKING One ounce Fluid Extract Dandelion; One ounce Compound Salatone; Four ounces Compound Syrup Sarsaparilla; Mixed and taken in teaspoonful doses after each meal and at bedtime, is pronounced by a prominent physician to be the best mixture for the cure of the kidney, bladder, and all urinary troubles. This says the doctor, is the most simple though remarkable prescription ever written to cleanse the system of impurities and waste matter. It acts as a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcoming rheumatism, lame back, sciatica and other afflictions arising from sour, impure blood. The ingredients can be procured at any good drug store, and being purely vegetable and entirely harmless, can easily be mixed at home. If you have a suffering friend show this to him, as he will undoubtedly be pleased to learn of so simple and highly recommended a remedy.

THE BEST FIRE ESCAPE. Chief Benoit Recommends Exterior Galleries for all Public Schools. Chief Benoit, of the city fire brigade, is to-day continuing the inspection that he has undertaken of the city schools in order to make special observations regarding the fire protection provided in the several institutions. He is convinced there is a shortcoming in several instances especially in regard to the provision of fire escapes. Asked what he considered was the best escape could be put in a school, the chief said that he would recommend that every public school should have a gallery built round each story with staircases leading therefrom, one to the other. In this way, he said, the children could gain immediate egress from any floor, and if their escape was cut off in one direction by smoke or fire, they could get away from the building in another direction by means of the gallery. —Enterprise.

A DISASTER AVERTED. Grand Rapids, Mich., March 5.—Grand Rapids to-day was threatened with a repetition of Cleveland's tragedy of yesterday on an even larger scale. Fire broke out in the laboratory of the Central High School, while 1,200 pupils were in the midst of the morning work. The signal for the fire drill was given and the children marched out in perfect order. The building emptied in two and one-half minutes. The Central High School is overcrowded, and the stairways inadequate, and fears of a possible panic have long been felt. That there was no panic in the school was probably due to the fact that a professional photographer had been taking flash light pictures in the corridor of the High School a few minutes before the fire broke out, and the children had been warned not to be alarmed. When the fire alarm came, and the drill began they thought, therefore, that it was for another picture, and all of them marched out quietly. The fire started below the floor of the chemical laboratory in the first floor, and only quick action of the fire department prevented a serious conflagration. The photographer was in the school, which was intended for 600 pupils, to get pictures, showing its overcrowded condition. These photographs are to be used in furthering a campaign already inaugurated by the Board of Education for a larger High School.

DURHAM POISON FACTORIES. You Will Be Surprised to Learn How Many There Are. Did you ever feel stupid and dull after eating a hearty dinner? When food is retained too long in the stomach, because of stomach weakness, the poison factory works overtime and there is giddiness, confusion of thought, despondency, heart-burn, sleeplessness, nervous trouble and other forms of indigestion. It is high time to look about for quick health when you have dizzy spells after eating. The general use of Mi-o-na stomach tablets puts within the reach of everyone a reliable and positive cure for all stomach weakness. Mi-o-na quickly cures the worst case of indigestion, and the pain and distress which is often felt after meals will soon disappear, such is the wonderful curative power of this little tablet. Mi-o-na acts upon entirely different principles from any of the other remedies that have been used in stomach troubles. It is taken before meals, and has a specific strengthening action upon the muscles of the stomach, increasing the flow of digestive juices and making the stomach get to work and digest easily and naturally the food which is eaten. Mi-o-na is sold by druggists everywhere for 50 cents, and we positively guarantee to refund your money should you purchase a box and be dissatisfied with results. Write for free sample, addressing Booth's Mi-o-na, Box 977, Buffalo, N. Y.

A Day's Work. "What constitutes a day's work?" We figure it out that it depends altogether on your occupation. If you lay brick, eight hours; if you keep house sixteen hours; if you preach the gospel, two hours; if you are a porter in a sleeping car, twenty hours; if you serve the government, one hour; and if you are a newspaper man, twenty-four hours.

ONLY ONE PAINLESS CORN CURE. Hundreds have tried, but no one has succeeded in making as good a remedy as Putnam's Painless Corn Extractor. It's by far the best—be aware of substitutes for "Putnam's."

Do Not Crowd the Season. The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale at Parker's Drug Store.

LETTER TO THE EDITOR. Moosomin, Sask., Feb. 17, 1908. To THE EDITOR OF THE DURHAM CHRONICLE. DEAR SIR,—In the Chronicle of recent date you make mention that ground has been secured for a rink. I have often wondered that a town the size of Durham has been so many years without an up-to-date building for the young people to enjoy skating and hockey, as there is nothing more conducive to health, pleasure and sport and keeping the rising generation of the street at night and young men out of questionable places than a well conducted skating rink, and I hope before another winter comes round you will have a place that will do credit to the town. In Moosomin, which is not half as large as Durham (about 1200), there are two buildings for curling and skating, the latter about 180 by 75 feet, built in the form of an arch, and owned by a joint stock company, which has been conducted very successfully for the past ten or twelve years, where the youth of the place assemble every evening from eight till ten o'clock and have a most enjoyable time. Up to the middle of March the ice holds good. The hockey club have the ice one night a week and over hours from ten to eleven on Tuesdays for matches or practice, for which the rink company receive 50% of the gate money for league and 40% for exhibition games. I send you under separate cover a marked copy of the World with our team's record for the past three years, of which Moosomin is justly proud for their clean manly sport. They also hold the good opinion of every club from Brandon to Regina, which, in a large measure, is due to their managers, and their success to the fact that there is not a "boozer" in the bunch. We have also a junior team of boys who are a tie with Virden in a Manitoba League along with a "scratch" seven who play exhibition games with small towns and country teams. There is nothing like hockey in the long winters in the way of sport for player and spectator, young and old, and would say let no obstacle stand in the way of your getting a rink; it is money well spent. Older people (as I often do) can spend a very pleasant evening seeing the youngsters enjoy themselves either skating or in the game. Up to the present we have had a most delightful winter, six to eight inches of snow, three or four stormy days and eight or ten of zero weather. The lowest was about 32°.

The Moosomin district is favored above many in Sask., though the grain crop was not up to the average of other years. The flour mill and six elevators have been fairly busy since threshing, and do not think there will be any Government seed distribution from this point. Any one thinking of farming in the West can make no mistake in staying off at Moosomin. There are no free homesteads, but land is cheap, \$12 to \$30 per acre. Yours truly, J. C. JOPP. P.S.—February warm and spring like

YOUR NERVES ARE WEAK. You sleep badly, appetite is variable. You eat but gain no strength. Morning tiredness makes you wish night would come. When night comes refreshing sleep is hard to obtain. You're run down, your blood is thin and watery, your nerves have grown weak, the thought of effort wearies you. You need Ferrozone; it makes blood, red, strong blood. An appetite? You'll eat everything and digest it too. Strength? That's what plenty of food gives. Ferrozone gives hope, vigor, vim, endurance. Use Ferrozone and get strong. Results are quick—cure is lasting. All dealers in 50c. boxes

Somebody Lied. The Sabatha Star passes this story along:—It is related that a merchant who lives in a town not far from there, while counting his money previous to taking it to the bank, forgot a \$20 bill and left it lying on the show case, says the Arkansas City Traveller. He did not miss the money until he arrived at the bank, and when he returned to the store it was gone. He posted a notice in the window as follows:—"If the person who took a \$20 bill from this store wishes to avoid trouble he will immediately return same, as his identity is known." A few days after he received a postal card, bearing this message:—"If the merchant who lost a \$20 bill will call at the house of the man who picked it up it will be returned to him."

Attended 2500 Funerals. Mr. James A. McPherson, of Kincardine, was in the village to-day (Thursday) attending the funeral of the late Josiah Parkhouse. Since making his home in Kincardine we learned that Mr. McPherson has attended some 2500 funerals. Surely this shows a kindly spirit for the departed ones that have crossed to the other shore—Tiverton Watchman.

Tetter, Salt Rheum and Eczema. These are diseases for which Chamberlain's Salve is especially valuable. It quickly allays the itching and smarting and soon effects a cure. Price, 25 cents. For sale at Parker's Drug Store.

THOUSANDS CURED. Wonderful Success of Hyomei in Curing Catarrh, Even in Chronic Stages. Hyomei is the most unusual remedy ever known for the cure of catarrh. It follows Nature in her methods of treating diseases of the respiratory organs, as its healing balsams are taken in with the air you breathe, thus reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs that may be present. Relief comes with almost the first breath of Hyomei, while lasting and complete cure follows its faithful use. There is hardly a town or village in the whole country where there are not many who have been cured of catarrh by this natural treatment. Be wise in time and use Hyomei at the first symptoms of catarrh. Do not allow the disease to extend along the delicate mucous membrane, gradually going from the nose to the throat, thence into the bronchial tubes, and then onward and downward till the lungs are reached. Hyomei will cure all curable forms and stages of catarrh. We positively guarantee Hyomei, or should you buy a complete outfit, price \$1.00, and be dissatisfied with results your money will be refunded. Hyomei is sold by druggists everywhere. Write for literature. Booth's Hyomei Co., Buffalo, N. Y.

GEN. OTTER TO BECOME CHIEF OF STAFF. Ottawa, March 5.—Brigadier-General Otter has declined the offer of the Imperial War Office to take command of the fifth infantry brigade at Aldershot from May 1 next, and will instead come to the headquarters staff at Ottawa, where his ability and experience in military matters will be made adequately available for the benefit of the militia of Canada. Major General Lake's term of command in Canada as Chief of Staff expires in November next. During his tenure of the position he has inaugurated many reforms in connection with the militia service and the department is now organized on a well thought-out and adequate basis. It is understood that for the last six months or so of his time in this country General Lake will be given the position of Inspector General, with a view to his making a thorough inspection of all the military units in the service, offering criticisms as to the defects in carrying out the system he has established, making suggestions as to possible improvements, etc. The position of Inspector-General is now vacant, owing to the death of Brigadier-General Vidal.

General Otter will, according to the proposed plan, become Chief of Staff in succession to Major General Lake, thus realizing what has long been contemplated—namely, the appointment of a Canadian to the chief command of the militia forces to the Dominion.

Don't Take Milk at Night! Milk in any form taken at night is apt to cause digestive disturbance. Your night's rest is not refreshing. To appease hunger, or merely for company's sake, "Bovril" in the form of a bouillon, or sandwiched between the bread and butter is excellent. After this light supper you will sleep well and awake refreshed.
