4 YEAR OLD BOY COULDN'T STAND! Limbs Weakened by La Grippe Made Strong by Zam-Buk.

Mrs. T. Brixton, of 5 Woodworth Ave., St. Thomas, Ont., says: "I had had some experience as to the efficacy of Zam-Buk in healing sores, cuts, etc., and had heard good reports from friends who also tried this balm, so when a year ago my little lad, four years of age, was left weak in the limbs as the result of a severe attack of influenza, I began rubbing in the Zam-Buk. His legs were so weak he would tremble and shake and was unable to stand for any length of time. Frequent applications of this ointment well rubbed in, seemed to strengthen him daily, and in a very short time the shaking and trembling in his limbs had been banished and he soon got strong and able to run about, thanks to Zam-Buk."

WHAT ZAM-BUK CURES.
Zam-Buk cures cuts, burns, scalds, ulcers, ringworm, itch, barber's rash, blood poison, bad leg, salt rheum, abrasions, abscesses and all skin injuries and diseases. Of all stores and druggists you can get Zam-Buk Co., Toronto, post-paid for price, 3 boxes for \$1.25.

FREE!

IN MEMORIAM. Old Timer Passes Away.

The late Mr. Thomas Fleming, the subject of this sketch, who died from pneumonia after a week's illness on the 29th of February at his home, Poplar Grove Farm, near Summer berry, Sask., was born at Mono Mills, Ont., on Feb. 21st, 1846, and at the time of his death had just entered upon the 64th year of his age.

His father, Thomas Fleming, was one of the pioneers in Ontario and moved into what was then known as the Owen Sound settlement, and took up his farm in the township of Egremont, South Grey, with his five sons, his youngest son, Thomas, being three years of age. Before leaving for South Grey, he took part in the Rebellion and shouldered his old "Queen Anne" musket and went from Mono Mills as one of the Militia in defence of his country. He was at the battle of Montgomery's north of Toronto on Yonge Street, where the rebels were entirely routed. These pioneers of Ontario built the first school in the township, cut down the forests and prospered, when the North West presented to the Fleming family an opportunity which, from their education and experience, they were well fitted to embrace.

In 1852 the four brothers, Samuel, Stewart, James and Thomas, sold their farms in Ontario and moved with their families into what was then the Great Lone Land of the West and settled south of Summerberry.

At that time the C.P.R. was built only as far as Brandon. These pioneers unloaded their cars and contents, hitched their horses to their wagons, like wise men they had brought with them, and drove on till they found prairie broad enough and unoccupied for the four brothers and others of their friends to settle on.

When Mr. Fleming first put his old Ontario plow into the prairie soil he was able to turn over two acres a day, which, compared with the time that it took his pioneer in Ontario to get two acres of bush cut down, burned, logged up, and prepared for seed, seemed to the son, the second pioneer, but child's play.

He was only three years in the country when the Riel Rebellion broke out in the spring of 1885. The Fleming family and their friends at once formed a company, obtained arms from the Government and stood ready to defend their settlement against the Indians who were in a sulky mood on the reserves near by. Mr. Fleming himself with his team went to the aid of the Government in conveying the soldiers and their munitions of war from Swift Current to Battleford, and rendered valuable service in quelling the rebellion and retaining this country under the British flag.

His sons have caught the spirit of their father, for the youngest, Stanley, is at present a member of the Sixteenth Mounted Rifles and took part in the military practise of the camp held in June last.

Mr. F. was elected as a member of the first Municipal Council in 1888, and continued to give service to the same while the Council continued to exist. He took an active part in the

SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion one ounce;
Compound S. Latone, one ounce;
Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime.

A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Salton and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

LUMP-JAW IN CATTLE.

High-Constable Clark, in his Report to County Council, says Diseased Meat is Sold for Human Food.

(Markdale Standard.)
TO THE WARDEN AND COUNTY COUN-
CILLORS OF GREY COUNTY:

GENTLEMEN,—It gives me pleasure to present to your Council my First Annual Report of the discharge of my duties as your Officer for 1907. After my appointment, my first duty seemed to be to acquaint myself with the names and addresses of some of the other County Constables so as to be in touch with them in case of need in any particular quarter.

This I found helpful in several cases of alleged violation of your By-law respecting Hawkers and Pedlars. In one case, on receiving notice from the County Treasurer that the By-law was violated by a tea pedlar in the vicinity of Boothville and Swinton Park, I asked the local officers there to investigate the complaint and report to me. These officers, while not refusing to act, complained that their fees in such cases were not sufficient to reimburse them for their outlay of time and money to secure a conviction. They claimed that the reward offered by the Council prior to 1907, in addition to their fees, was not too much to compensate them for the probable expense and trouble, and they asked that the Council again grant the reward formerly offered for the conviction of such offenders. I have pleasure, therefore, in making the request on their behalf and believe it (the reward) is necessary, in order to make the By-law effective.

The case of Jacob Levine, a person suspected of peddling without a license, came under my own personal observation. Following my advice, he gave me an order for \$120 the amount of the license fee, which I forwarded to your Treasurer, and secured a licence for him.

Several cases in which my services were called for, were duly attended to, but as the full report of the proceedings in each case will have appeared in the Magistrate's Returns, I need not further detail them here.

A recent notice from a County Official of alleged foul play in the case of the sudden disappearance of a young lad in the Township of Bantock, received immediate attention. The case is at present under examination and will be reported in due time to the proper authorities.

There is another matter to which I deem it my duty to call your attention. In passing through the County in various directions I notice many cases of Lump Jaw in cattle that are being fitted for the market. These cattle are usually rejected by the dealers and shippers, hence they are left on the farmer's hands. Instead of these cases receiving proper treatment by a competent veterinary surgeon or the animal being destroyed, I have reason to believe that many of them are slaughtered for human food and sold by the piece or quarter in the villages and towns in the County. This is a serious matter and, I am informed, endangers the lives of those using such beef as food. So far as I am aware, the duties of the County Constables in such cases are not clearly defined in it and it might be advisable to amend the By-law so as to empower us to put a stop as far as possible to what many do not hesitate to describe as a "Criminal Practice."

All of which is respectfully submitted.
I am, Gentlemen,
Your obedient servant,
JOHN CLARK,
High Constable.

Do Not Crowd the Season.

The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take, children like it. For sale at Parker's Drug Store.

Went Insane.

The village of Kerrwood, about six miles west of Strathroy, was thrown into a state of intense excitement by the action of a farm hand named Charles Marshley who went violently insane. Marshley went into the depot, ordered the operator out and took possession. All efforts to remove him proved fruitless until the arrival of Arthur Morgan, for whom Marshley had worked for the past three years. After coming out Marshley threatened to burn the barns and surrounding buildings. After a hard struggle, John Taylor, county constable, succeeded in placing him under arrest and kept him under close guard all night. He was brought to Strathroy and taken to the London Asylum by Chief Wilson. Marshley is a home boy, about 20 years of age, and has been in this country about three years.—Ex.

HAVE YOU UGLY WARTS?

Cure them with Putnam's Painless Corn and Wart Extractor. Fifty years success is a guarantee of its merit. Beware of substitutes.

A Constant State of War.

To successfully combat the germs of disease and sickness, of which the atmosphere is full, you need something more than ordinary food. A daily cup of "BOVRIL" will give the extra strength and vitality to enable you to successfully resist any attack.
Keep "BOVRIL" in the house.

LOST TWO LITTLE CHILDREN.

(Tisdale Monitor.)
Seldom a family has to experience so great a sorrow as has Mr. and Mrs. Guy Williams in the death of their two young children, which took place a few days ago. Both children were taken sick almost at the same time, the cause of which still remains a mystery. Both children were hale and hearty, when suddenly they were stricken down with convulsions, which eventually carried them from the folds of the parents' care to a higher sphere of power.

The one child, a boy of some fifteen months was buried on Friday, February 21st, while the other child, a girl, lay nigh unto death and on Monday, February 24th, the little girl of a few months better than two years was borne to the grave. It was the sad duty of the Rev. Mr. Bailey to commit to the grave these two bright children in so few days intervening. The parents have the sympathy of the whole community in their sad bereavement.

HAVE YOU A HORSE?

If you want to keep him in shape, never let him suffer pain. Rub on "Nerviline"—it is noted for curing strains, swellings and stiffness and sore muscles. For internal use in curing cramps and colic. Nerviline is a perfect marvel. In every good training stable you'll find Nerviline because it keeps horses in trim and reduces the veterinary bill. Farmers, stockmen and all horse owners should own Nerviline and prove how invaluable it is. Good for man or beast. 25c. per bottle at all dealers.

DEATH OF DR. POOLE

(Mount Hope Cor. in Tara Leader)
Dr. Jesse Poole, formerly a popular and respected resident of this neighborhood died in Perth, N. D., on Wednesday February 26th, aged 45 years and 9 months. The remains were brought here for interment last Saturday by his brother, Mr. John Poole, of Cedar Rapids, Iowa. The funeral was held last Sunday afternoon from the residence of his brother, Mr. Joseph Poole, to the Mount Hope Cemetery where interment was made. Rev. Mr. Sanderson preached a memorial sermon at the house and conducted the service at the grave. Deceased who was born and raised in this community, was intelligent above the average. Before leaving here for the West over twenty years ago he taught school for a time. Later he entered the medical profession and practised in North Dakota. Two years ago he became afflicted with a disease of the liver which resisted the best medical treatment and finally caused his death.

Deceased was a brother of Mrs. Wolfe of this town and of Mr. Isaac Poole of Bunessan.—Ed. Chronicle.

QUESTION FOR EVERY READER.

If you could find a simple vegetable remedy for keeping all organs healthy and strong—wouldn't you use it? Most pills are harsh, cause pain, and sick stomach. Dr. Hamilton's Pills are different—they regulate and cleanse the system, so gently, act so silently you scarcely realize you've taken medicine. You are cleansed—appetite improves—color clears—leap is restored. Every man, woman and child is helped by Dr. Hamilton's Pills. Try a 25c. box.
