### Corner Concerns.

We are pleased to extend congratulations and best wishes of all in this part to Mr. and Mrs. Jas. Lewis, of Orchard. The happy bride was Miss Sarah Brown daughter of Cattle King, formerly of this section, but now of Holstein. The sacred ceremony was performed by Rev. Mr. Little on March 7th at the home of the bride's parents.

Messrs. Jas. Eden, Thos. Tucker and Wm. Sirra, were amongst the Orangemen who attended the Provincial Grand Lodge of Ontario in Mt. Forest last week.

In speaking of the prominent reciters at the presentation gathering, last week in our report we absently inserted the name of Mitchell in place of Miss Clara Ritchie and although we side tracked her for once she is bound to come to the front very soon as an elocutionist as she shows rare ability for one so young.

Messrs. Jas. Lennox, Robt. McMeeken and Alex Ferguson are in Owen Sound this week, as jurors.

Mr. Jas. Eden was in Harrison last week helping to organize an Orange Lodge. We understand one may also be started in Holstein.

Mr. Tom Bartman has given up the idea of working the Hillis farm this year and moved away his effects last week. He will lose his day's ploughing by the move.

Billy Bryans has got some mighty good ideas about horse buying and mighty set ones too that aren't changed every two or three weeks like a shirt. He has always maintained that buying a five dollar horse never pays. Far better to put two or three dollars more to it and get a good one. His boys last week thought he might waver his decision a little for their sake and brought home one of the forbidden kind. The fact that it had to be returned should not spoil the sale of it to others, as it was simply the result of his cast iron rule.

Mr. Hugh Thompson who spent the winter with his sister, Mrs. Den nett, left last week on a prospecting trip through the western provinces.

Mr. I. Queen of Roland, Sask., who has been spending the winter with his family near Woodland, spent last week visiting his sisters, Mrs. J. H. Sharp and other friends, in this part. As he is still a bachelor and in good circumstances he naturally has a decided preference for the company of lady friends and of course the friendship is mutual.

Mr. Pete Black was so unfortunate last week as to lose one of his team of horses. Such a loss at the beginning of seeding when a man has but the one pair, is severely felt.

Messrs. Jas. Allan, Alex Allan Arch. Baird, Chas. Drumm and Wm Pettigrew, started from Holstein last Friday morning for Sioux City, to resume their duties of stock selling for a manufacturing establishment. Mr. Jas. Eden had some notion of accompanying them and yet may go, on the report of brisk business.

All that was mortal of Miss Edith Allan, was laid to rest last Friday afternoon in Maplewood cemetery, but pleasant memories of her kind, winsome ways accompanied with feelings of sadness will remain green in the memories of her host of friends for some time. And many friends she had who praised her worth very highly. She had filled the place of mother in the home since the illness and subsequent death of Mr. Allan over two years ago, and although but nineteen years of age she had taken a prominent place in church and Sunday school work as well as lend a helping hand to all good purposes. Her pleasant, frank, manner won for her a host of friends in social circles, while her cheerful spirit helped sustain her through her severe illness, in fact kept her in good hope of soon again taking her place in the world, after friends had begun to despair. The three floral wreaths that bedecked the casket were very pretty, and were contributed by the S. S. and close friends. Her pastor Rev. Kendall conducted the funeral services, assisted by Revs. Little of Holstein, and A. A. Bice of Durham, who were both warm friends, in fact the latter felt very deep feelings of gratitude for her kindness and assistance during the busy summer of building. The funeral was the largest ever seen in this part, although the roads were so bad that many could not go to the cemetery, but had to turn off in all directions. The breaking of cutters and harness was very common with those who did go.

Miss Bella Grierson of Welbeck assisted in the home of Mr. Wm. Allan during the illness of his daughter, and won for her services much praise and made numerous friends. Mr. Allan also speaks very highly of the trained nurse in attendance, her name we can't recall just now.

The death of Mr. Thos. Flemming of Summerberry, Sask., on Feb. 29th, removes from earthy care a man who has done full duty in pioneer life in two countries. He was born 68 years ago at Mona Mills, Ont., and with his parents came to this neighborhood amongst the very first settlers. Like his four brothers he was a noted workman in all kinds of work to be performed at that time.

Wise, progressive, in all walks of life he took an active part in organizing church, school, Orange Lodge, Temperance Lodges, Agricultural Societies, as well as further the cause of the great Conservative party. In 1888 he moved his family to Manitoba, and after a brief sojourn in Brandon, started pioneer life on the farm

## Does Your Heart Beat

Yes, 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This produces constipation. Pile-press substances are then absorbed into the blood. Keep the bowels open with Ayer's Pills.

where he died. In 1883 he again entered into the work of organizing a Methodist church and S. S. He was serving in the council and had attended a meeting a few days before pneumonia stopped his useful career. He was Provincial Grand Master of the Orange Lodge a couple of years ago and laid to rest by the brethren who so highly esteemed him.

### Not For Her.

"Turn that wrapping paper the other side out," said a lady in a dry goods store this morning as the clerk was putting up her purchase in a printed wrapping paper. "I don't want to be a walking advertisement to your store. I read the papers like all intelligent people ought to do, and I think in them is the place to advertise your business. Instead of asking your customers to carry your sign around with each purchase of goods, go and tell the people through the papers what you have to sell and how you sell it."

Steel is iron free from dirt, air or foreign substance fused with carbon. Carbon gives toughness strength, keenness and life.

Thirty year's study of the razor situation has shown a way to add the highest per cent of carbon to a Carbo Magnetic razor blade through a secret process of ELECTRIC TEMPERING giving it a uniform diamond like hardness—something absolutely impossible with fire tempered razors, and they are Hamburg ground. ### PLEASANT FOR JAMES.

When Mr. Ransom won his bride he felt properly humble at securing such a prize, and in the after years Mrs. Ransom never allowed him to lapse into forgetfulness of her condensation.

"You really cared for me I'm sure," said Mr. Ransom. "That is a great comfort—to think I didn't urge you against your wishes."

"James," said Mrs. Ransom, in a tone suited to her imposing and somewhat massive appearance, "how could you ever doubt my affection? Have I not told you that I had proposals from men who were brilliant, handsome and talented, and passing them all by, James, I choose you!"

THE town constable is on path and says he is going every person who makes corners at Garafaxa on streets a loitering head Sunday evenings. For back he has had strict order Council to keep these corners Sunday evenings, particularly church service is going on, to cause them to be forced fine, he has warned the off and again, till now, someone an idea they cannot be certain parts of the highway is private ground. As not recognize loitering, estate property, we think the assist in this idea to the extent these places a Sunday evening, out, will come out of the the hour when they appear. What idea a bun men can have in hanging corners, especially on the time in question, is rather of doubtful beauty to und probably some of the fellows, who are more able to explain the matter they'll have to if the hold of them.
