A Nuisance.

or nearly all, of these citizens are owners of dogs and the canines visit the dump-heap with unfailing regularity. The landscape in that section is consequently heing strewn with putrifying garbage and the air is not of the brand recommended in the Health Act. An ounce of prevention is worth a pound of cure and instead of fighting disease later on the authorities might take preventative measures and have the horses buried. At all eyents it would improve the sanitary condition of that neighborhood by putting this repulsive sub stauce beyond the reach of dogs .-Bruce Times.

#### Dead, Aged 104.

At the remarkable age of 104 years, Eugene Smith passed away at Barrie on Wednesday, 11th. Up till two weeks before his death he had been enjoying good health, and was able to go out for his walks. Till Sunday night he was able to speak and recognize those about him.

#### Thumb and Fingers Taken off.

Mr. Alfred Murton, who is employed at Mr. Calder's planing mill, met with a very unfortunate accident on Wednesday afternoon. He was running the mortising machine, and in tightening a nut his hand slipped and was caught by the knives, the thumb of his left hand being torn off and portions of the next two fingers cut off, and a piece taken off the third finger. The injured members were surgically treated, but it will be some time before he can make any

use of his hand, which will be maimed for life. Mr. Murton is a married man with a family, and is a steady and industrious workman. His mis fortune has evoked deep sympathy from his many friends, by whom he is much esteemed, and from the citizens generally .- Listowel Standard.
