HOME-MADE MEDICINE
Said to Relieve Kidney Trouble and Rheumatism

One ounce Fluid Extract Dandelion;
One ounce Compound Salutarin;
Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after meals and at bedtime, is stated by a prominent physician to give most excellent results in kidney or urinary affections, and also in rheumatism and sciatica. The mixture opens the clogged pores of the kidneys, thus assisting them in their work of filtering all waste and poisonous matter from the blood, and expels these in the urine. To allow this poisonous matter to remain means that it will settle in the muscular tissues or joints, and cause the untold misery known as rheumatism.

The mixture is composed of harmless vegetable ingredients which can be purchased at any good drug store, and mixed at home.

Anyone suffering from any of these afflictions will no doubt be pleased to learn of so simple and highly recommended remedy.

NO HONING - NO GRINDING

Steel is iron free from dirt, air or foreign substance fused with carbon. Carbon gives toughness, strength, keeness and life.

Thirty year's study of the razor situation has shown a way to add the highest per cent of carbon to a Carbo Magnetic razor blade through a secret process of ELECTRIC TEMPERING giving it a uniform diamond like hardness—something absolutely impossible with fire tempered razors, and they are Hamburg ground.

But Test this UNCONDITIONALLY GUARANTEED razor at home—or have your barber use it on you—for thirty days WITHOUT OBLIGATION TO PURCHASE.

D. ALLAN.

Swinton Park.

The hand of death has again been in our midst and taken another pioneer to join the silent majority. John Martin, Postmaster of this place passed peacefully away on Monday May 4th 1908. Deceased was 87 years of age and was a native of Ireland. He came to Canada in '48 and was a steady, upright, hard working man and knew the hard ships of pioneer life. Retiring from farming 22 years ago he founded and named this Post Office, and was appointed Postmaster. Then the infirmities of old age crept on and death came suddenly as he had been in his usual health up to within a week of his demise. Mr. Martin was a staunch member of the Presbyterian church also a member of the L. O. L. No. 1182 Glenelg.

His wife predeceased him, also his two daughters, Sarah and Mary. The following are his children: Wm., John A., in Blaine, Wash; James H., in Seattle, Wash; George and Martha J., at home.

The funeral which was largely attended took place Wednesday at 2.30 p. m. to the Presbyterian cemetery. A very impressive service was conducted by his pastor, Rev. A. Matheson.

The floral designs were very beautiful.

Rheumatiz

When you've got the rheumatiz—
S'pose you know jes' how 'tis—
All the fellers in the kentry wants to make the case their biz:
Tellin' you
What to do,
When you've got the rheumatiz.

"Tell you what!" says Elder Brown, "Got ter get the swellin' down! Brother Ike—he was that bad! Thought we couldn't save the lad. Both his legs was full o' pain; So I says to old Dock Haines, 'Doc, I reckon this won't do—Got ter pull the youngster through! So I takes the case myself, Gits some liquor off the shelf, Soaks it into Ike fer fair—Made him boozey, I declare, Then I wraps his legs in wood Gives 'em quite a hefty pull, And, by gravy, the next day Ike he 'lowed he felt O. K.

"Rheumatiz?" says Jabez White "Cider'll fix you all right. Drink a gallon, good and hard. Gallop up and down the yard—Take a heap o' exercise. Use warm water to your eyes; Stuff your ears with cotton; Get that dope—the name is Lulu—Somethin' like 'ideacaine, An' you'll soon be feelin' fine 'Cider nuthin'!" says Lem Jones "Rheumatiz is in the bones. Get a quart o' catnip tea, Jes' as hot as it can be, Let it cool and drink it down Nuthin' better in the town!

"No use talkin'," says Eph Law. "What you want's a good big chaw Off a plug o' nigger-head. Then undress and go to bed. In the mornin' fill your jaw With another good big chaw!

When you got the rheumatiz—
S'pose you know jes' how it is—
All the fellers in the kentry wanto to make the case their biz:
Tellin' you
What to do,
When you've got the rheumatiz,

The Troublesome Tick.

In South Africa there is an insect called the "tick," which is a great torment to the horses, bullocks, etc., in the warm season. It fastens itself on to their skins and is very difficult to remove. But Nature has provided a remedy. While the animals are browsing on the veldt a small bird, about the size of a pigeon, and known as the "tick-bird," comes around and deliberately alights on their backs, and after picking out all the ticks it can find, flies off to pastures new. The animals are quite pleased at the visits of these little birds, and make no remonstrance. Frequently two or three tickbirds may be seen perched gaily on the back of a single bullock.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale at Parker's Drug Store.

LETTERS TO THE EDITOR

A NOTE FROM MOOSOMIN

Moosomin, May 8th, '08
EDITOR CHRONICLE.

Dear Sir,—This is Arbor Day, and a school holiday, which is taken advantage of by the children in some districts for tree planting and preparing flower beds on school grounds.

There are a number of shade and ornamental trees that do remarkably well in the West, viz ash leaf maple, Russian poplar, cottonwood and willow. There are many others planted but they are of slow growth, and include the spruce, elm, ash, birch, etc. In shrubs, the lilac, Tartarian honeysuckle, and caragana are very much in evidence along with a dozen or more other varieties. So you see our country is not as many suppose—a bare, treeless plane—but, on the contrary, there are thousands of beautiful little poplar bluffs, which, in many cases, reminds one of home and the East.

Our seeding has not progressed as at first promised, being more or less at a stop for about a week with rain and snow. However, we could bear with it, as the ground was dry and the dust behind the harrows something fierce, but now it is a pleasure to be on the land.

The wheat will be all in this week, and the first sown is 2 ins. above ground. A farmer of my acquaintance informed me he had 300 acres drilled in before the storm, and if the season is up to average should thresh him five or six thousand bushels. The weather is all we can desire, being about 70 in the shade, and to-day the lawn mower is in use on well kept grounds. If, as you remark, my short notes are of interest to your readers, you may hear from me from time to time.

J. C. JOPP.

FROM SUNNY ALBERTA.

High River, Alta., May 6th 1908.
EDITOR CHRONICLE.

DEAR SIR:—I noticed by your paper that you are receiving letters from different parts of the West.

I will try and send you a few lines and let you know how we are getting along in Sunny Alberta. We have a most beautiful spring and have not had any rain since I came up here until last week, which helped the country an awful lot. It helped to quench the prairie fires which were very bad. One fire covered an area of five miles wide by thirty long and did considerable damage to the property. I have not heard of any lives lost. Farmers tell us they have never seen fall wheat look better. This is a great country for fall wheat not so much spring wheat sown. Most of the farmers are through with their spring seeding. We have our garden vegetables all in and some are up very nice. We also have potatoes up a couple of inches above the ground, so you can see we are early.

My old friend Thos. How and I took a trip out in the country and we saw them working a steam plow. There were eleven plows and harrows and drills all following each other drawn by an engine. It was quite a sight to see.

Business is a little quiet at present as building is not far enough advanced yet, still, prospects are very good for the summer. Will write you more some future time. Hoping you are all enjoying the best of health, I remain.

Yours as ever,
F. E. SEIGNER.

Tenders Wanted.

SEALED TENDERS ADDRESSED to W. Calder, Esq., Mayor of Durham, Ont., will be received not later than Saturday, May 16th, for the building of a reinforced concrete arch bridge of 42 feet span, with retaining wall approaches, in the town of Durham, about 800 cubic yards. Plans and specifications may be seen at the Mayor's office or at the offices of the engineers.
