**County and District. Doctors Report**

**Death of Thomas Wright.**

In the death on Tuesday morning, May 5th, of Mr. Thos. Wright, another pioneer has been transferred to the great beyond. He had reached the good age of 77 years, and having been growing frail of late answered the last call peacefully at the home of his son Samuel H. at the homestead, Glenelg, as above. The funeral on Thursday to Markdale public cemetery was a large one, though a constant downpour of rain rendered the day most unpleasant. Rev. Ivison Wilson officiated at the home and the grave. The pall bearers were: Messrs. A. Ferguson, Wm. Smart, John Varty, Harry Smith Wm. Matthews and G. W. Armstrong. Mr. Wright moved to this part about 50 years ago from Crosby, Leeds County, and experienced a full share of the hardships incident to pioneer life. He was married 45 years ago to Miss Mary Smart, who died some 24 years since, and to them were born seven children, five of whom survive, viz: T. S. Wright, Winnipeg; S. H., on the homestead, Glenelg; H. Wesley, Bemingie, Minn.; Batty, Chesley; Stewart, in the West, Miss Minnie having died nine years ago, also Porter when quite young.—Markdale Standard.

**Relief from Rheumatic Pains.**

"I suffered with rheumatism for over two years," says Mr. Rolland Curry, a patrolman, of Key West, Fla. "Sometimes it settled in my knees and lamed me so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the rheumatism away. I have not had any trouble from that disease for over three months." For sale at Parker's Drug Store.

**Death of George Littlejohns.**

The death on Tuesday of last week of George Littlejohns, of the suburbs, removed a native of this district in the meridian of life. Deceased had not been in the enjoyment of vigorous health of late, and notwithstanding the close attention of physician, together with professional nurse and attentive relatives, pneumonia made steady progress and in less than two weeks did its fatal work. The Independent Order of Oddfellows, of whom Mr. Littlejohns was a member, were most faithful in the discharge of fraternal duties during his illness, and also took a leading part in the funeral obsequies, thus doing credit to the Order. The funeral on Friday to Markdale public cemetery was largely attended, notwithstanding the inclemency of the weather. Rev. J. S. I. Wilson conducted service at the house, while the I. O. O. F. and Orange Order co-operated in the procession and last sad rites at the grave. The floral offerings were a large wreath from the I. O. O. F. and one from his brothers and sisters. The pall-bearers were Messrs. John Hamilton, W. H. King, W. J. Beaty, Geo. White, James Irwin and Fred Sarjeant. Deceased was born 46 years ago in Glenelg, was married 15 years ago, and leaves a widow and one son, George, 14 years old, together with aged father and brothers and sisters to mourn his premature demise. George was a man of abstemious and industrious habits, and for many years a constant member of the Methodist church.—Markdale Standard.

**Sore Nipples.**

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale at Parker's Drug Store.

**Boy Hangs Himself.**

One of the strangest kind of tragedies we have ever heard of happened at Eden Grove on Wednesday last. The circumstances are substantially as follows:—Ernest Culham, the eight year old son of Mr. and Mrs. Robt. Culham, who live on Ward farm at Eden Grove corner, asked permission of the teacher to go home at the afternoon recess to help his mother plant onions. When he got home his mother told him to go back to school adding at the same time that they could plant the onions some other time. The boy said that he did not want to go back to school and that he would rather die than go back. The mother paid no attention to the childish remark, and the little fellow started off, as his mother thought, to school. Instead of going to school, however, he went to the barn and when his father, a little later on, went to the barn on some errand, he was horrified to find the lifeless body of his son hanging from a beam. The boy had tied a strap around his neck and to the beam and then jumped off. Neighbors have informed us that he was an exceptionally bright little fellow and that as might be expected, the parents are taking their loss very much to heart.—Telescope.

**A Revolver Accident.**

When John Sidle Jr., of Brant read in the papers about the hold-up here last week, it occurred to him that it would be the part of wisdom to get ready to meet anything of that kind that might happen to come his way. Not having much to do on Sunday he got out an old revolver that had not been used for 22 years, and set to work to clean it up. Then he loaded her up and began a little target practice. First he used the right hand and fired two shots, in succession, then it occurred to him that it would be well to get his left hand limbered up, and the revolver was charged from the right hand to the left. But the left hand didn't respond properly, and when he fired the bullet entered his leg just above the knee, making an ugly wound. And the worst of it is, that so far the doctor has been unable to locate the bullet. He is probably in for a rather bad time of it.—Telescope.

**Many Cases**

**Say That Spring Fever is Prevalent. Patients Feel Drowsy, Dull, Dead Tired.**

How provoking to sleep well, but when you waken to find none of the exhilaration that rest and sleep should bring. You ought to feel alert, bubbling over with vim, but instead of this there's dullness, languor and disinclination to do things.

The cause for this sort of feeling—a lazy liver, lazy kidneys, and a lazy stomach, the last doing its work very poorly and compelling the other organs to perform a task they are unequal to.

Note the consequence—blood is filled with waste matter—poisonous substances weighing down the nervous system—rebuilding processes absolutely impossible.

Take Ferrozone and note the rapid change. Your appetite improves and your digestion soon is as good as ever. Your skin has its natural color, the sense of languor and unsteadiness if not entirely gone, comes back only occasionally, and then disappears.

You see Ferrozone restores all the powers of the body to normal activity.

The reason you feel better is because Ferrozone is driving out all the poisonous wastes from the body.

Ferrozone imparts to the blood that element that is necessary to render the air you breathe vitally active and strength giving. In the old condition it simply acted on the surface. Now it enters deeply into all the activities of the body.

Now you know that Ferrozone stimulates appetite and makes rich, red blood.

Now you feel that Ferrozone gives strength, endurance, vim.

Ferrozone clarifies the brain, imparts tone and vigor to it, gives clearness and strength.

Your will power is as strong as ever, and your enjoyment of life has a new zest because so vigorously renewed.

**Any Weakness in Your Back?**

Sometimes you experience pain and weakness without much suffering. Later on the pain will surely come. The trouble can be stopped now by rubbing on Nerviline—rub it in deeply over the spine, and then put on a Nerviline Porous Plaster. In these remedies you will find wonderful and quick relief. They will spare you from an attack of Lumbago, which is the outcome of neglected pain in the back and side. For all muscular pains, strains, and weakness, Polson's Nerviline and Nerviline Plasters have no equal, Refuse substitutes.

**Chesley's Population and Assessment.**

R. J. Follis has completed his work of assessing the town of Chesley for the current year. The assessment in 1907 was \$626,260; and this year \$669,750. Of course these figures include exempted properties which will be put down for school rates only at the Court of Revision. The population in 1907 was 1894 and the assessor's figures for the current year are 1962 an increase of 68. This includes the last detachment of Cockneys. The population of Chesley is now 17 more than the township of Elderslie.

**Invented Safe Headache Cure.**

Away with headaches, be done with dizziness, bad stomach and biliousness. A cure has been found—use Dr. Hamilton's Pills. They cleanse and purify the whole system, act as a perfect tonic. Safe for children, girls, women and men. Sold in 25c. boxes by all dealers.

**Be Good.**

Young men let us give you the benefit of our observation. We have noticed that at least nine tenths of the young men who have been before the courts for misdemeanors are those who take no interest whatever in education, seldom read a newspaper, and are always ready to make fun of other young men who use correct language and try to be somebody. It comes natural to them to discourage the studious and ambitious young men of their acquaintance. Their minds run towards dirty stories, midnight sprees and bad company. This in a short time means trouble, a sheriff's invitation to attend court, and a fine or term in jail.

**When all is said, Hanover has a pretty bad bunch of youngsters growing up in her midst. It is not an unusual thing to see parents looking for their "boys" on the streets at ten and eleven o'clock at night, and almost any night a crowd of children—boys and girls—can be seen playing on the streets at an hour when they should be at home and asleep. Nine o'clock is late enough for children to be out, and parents who have any regard for the welfare of their boys and girls should see that they are in the house by that hour. We have boys in town, under sixteen years of age, that can throw out more profanity in fifteen minutes than a Kentucky Colonel could in a day, and besides they appear to have little or no regard for ladies or young girls that may be within hearing. Children must have time to play, we will admit, but there is ample time for them to romp and play between 4 and 9 p.m., and no necessity of their being on the streets after that hour. A boy at fifteen who spends his nights on the streets and who can curse strong enough to make your hair curl and your toes warp is not likely to become a "shining light" of intelligence and integrity. The future of the boy lies in the hands of his dad. Fathers, get your boy in at a reasonable hour at night, and have a raw hide or some other implement of torture in that hand to be used whenever you hear of his using profane language or smoking cigarettes.—Hanover Post.**

**Most frenzied efforts of the police failed to find Mord during three weeks while no reward was offered. He was captured within six hours of the time when a price was put on his head, and other police were hot on his track, but a little too late. Money makes the mare go—and the detectives.—Confed.**

**Absolutely all packet teas and most bulk teas show the grocer a larger profit than "Salada" but few of them show as much satisfaction to the consumer.**

**Catapults are destructive and dangerous weapons and they ought to be suppressed and confiscated whenever found, especially by parents, police and teachers. On Friday one boy shot another on Main street here, knocking out a tooth and splitting open the lip of his target. The injury might easily have been even more serious.—Mt. Forst, Confederate.**

**No Wedding Bells for Him.**

Last Wednesday was supposed to have been the wedding day of a couple of young Barrie people. As the time for tying the nuptial knot approached, the prospective groom experienced the discomforts of the present financial stringency. After one or two unsuccessful efforts to negotiate a loan, he finally appealed to the object of his affections for the price. She, unhappily, was in a similar state of bankruptcy, but her credit being good, she had no trouble in securing an advance of \$8. This amount she handed to her prospective husband, anticipating, of course, that he would appear the following morning, when the marriage would take place and they would live "happily ever afterwards." During the night he changed his mind, and neither he nor the \$8 performed their allotted duties.—Gazette.

**A Cure For Corns.**

Cheap acid preparations are useless—use the old standard—Putnam's Corn Extractor. For fifty years Putnam's has been the one painless cure.

**Aged 50—No Vote.**

As an instance of the peculiar workings of the various Canadian franchise acts, there is a man now resident of Harrison who is at least 50 years of age who has spent all his manhood in Ontario and has always had the necessary qualification to entitle him to vote, but he has yet through force of circumstances never had the opportunity of exercising his franchise, his occupation always compelling him to be somewhere else on voting day, or else his name was struck off for some absurd reason. Perhaps it would be impossible to frame an Act that would do justice to everybody, but past efforts of both parties have served to disfranchise a considerable proportion of very intelligent voters.—Review.

**A Constant State of War.**

To successfully combat the germs of disease and sickness, of which the atmosphere is full, you need something more than ordinary food. A daily cup of "BOVRIL" will give the extra strength and vitality to enable you to successfully resist any attack.

Keep "BOVRIL" in the house.
