"HECLA" **Fused Joints** Mean a Clean,

Smokeless Home. A warm air furnace, that will not leak gas

or dust, provides

an ideal heating vstem. It combines economy in first cost-and in operation, a plentiful supply of warm air and perfect ventilation. That is why "Hecla" Furnaces

are made with FUSED JOINTS. Where steel and cast-iron come together, the metals are fused or welded, so that they practically become ONE. This fusing (a Clare patented process) makes the "Hecla" absolutely dust, smoke and gas, tight.

There are a dozen and more other special features about the "Hecla" that you will appreciate almost as much as the FUSED JOINTS.

So let me send you the new Hecla catalogue, which gives all the details of construction. If you send me a rough plan of your house, I will tell you just what it will cost to install the "Hecla" Furnace. Write NOW to the "Hecla Furnace Builder" care of

but my heart is too full to keep it gested to the first man a scheme. It When I was left a widow worked out something like this: with three children, I thought it was more than I could bear; but it wasn't bad as this-"

ered her voice to go on

Men's Heavy Plow Boots \$1.50 hands. I toiled early and late all partner. Good looking fine Sunday Shoes, the years till John could help me. them and he went West to begin for the door. Women's boots, Dongola and Box himself. He said he had provided calf from......\$1.25 to \$3.00 for the girls, and they would provide

"I went to them in the city. I A full range of boys' children's and went to Mary's first. She lived in a by my partner came along. Without there wasn't room enough for me-"

> The tears stood in the lines of her cheeks. The ticket agent came out softly, stirred the fire, and went back. After a pause she continued:

> I was willing to do anything so as not to be a burden. But that wasn't it. I found they were ashamed of my bent old body and my withered face-ashamed of my rough, wrinkled hands-made so toiling for them-"

> The stranger's hand rested careless ly on the gray head.

"At last they told me I must live at a boarding house, and they'd keep me there. I cculdn't say anything. My heart was too full of pain. wrote to John what they were going to do. He wrote right back, a long, kind letter for me to come right to him. I should always have a home while he had a root, he said. To come right there and stay as long as I lived. That his mother should never go out to strangers, So I'm going to John. He's only got his the revolver and flourished it, rough hands and his great warm heart-but there's room for his old mother-God bless-him-"

"Some day when I am gone where let him run out." I'll never trouble them again, Mary and Martha will think of it all. Some day when the hands that toiled for them are folded and still; when the eyes that watched over them through many a weary night are closed forever; when the little old body, bent with the burdens it bore for them, is put away where it never can shame them-"

The agent drew his hand quickly next for 50c. Subscribe now.

before his eyes, and went out as il to look for the trair. The stranger's fingers stroked the gray locks. while the tears of sorrow and sympathy fell together. The weary heart was unburdened, Soothed by the touch "I don't know, ma'am. I never of sympathy the troubled soul yielded to the long ng for rest. and she fell asleep. The agent went noiselessly about his duties that he might not watched she saw a smile on the care-

worn face The lips moved. She bent down to hear. "I'm doing it for Mary and Martha.

They'll take care of me some time." She was dreaming of the days in the little cottage-of the fond hopes which inspired her, long before she learned, with a broken heart, that The evasive tone, the look of pain some day she would, homeless in the

HE DIDN'T GO HUNGRY.

Neither Did His Partner After Their Scheme Succeeded.

The man who once was down and out, but is so no longer, was telling the other day of one of his poverty time devices.

He was travelling with another chap jist as much down and out as he and both were hungry. Their capital was insignificant, and they didn't intend to spend any of it. "It's hard to tell it to strangers, But they had a revolver, which sug-

'I went into a pretty good looking restaurant." said the prosperous one, taking a long draw at his cigar, 'and The stranger waited till she recov- as my clothes looked pretty good I wasn't an object of suspicion. I had "I had only the cottage and my an overcoat which belonged to my

PLAIN TALK FROM THE DOCTOR

May 21, 1908

A prominent physician, famous for his success in the treatment of kidney and bladder troubles, stated that to the following prescription is due a

great deal of his success : One ounce fluid extract dande-One ounce compound salatone ;

Four ounces compound syrup Mix and take a teaspoonful after

neals and at bedtime, drinking This mixture will, he says, positively cure any diseases arising from weak, clogged or inactive kidneys,

and will assist these organs to cleanse the blood of the poisonous waste matter and acids, which if allowed to remain, cause lumbago, lame back, rheumatism and sciatica, and at the same time will restore the kidneys to healthy normal action. The ingredients, which are purely vegetable and entirely harmless, can be procured from any good druggist and mixed at home at very little cost. This advice will undoubtedly be much appreciated by many readers.

Barber Shop. RESIDENCE-

door South of W. J. Lawren

No Honing-No Grindin

blacksmith shop.

You know from daily experience, at home or in the barber shop, that the question is-"Why doesn't a razor hold its edge uniformly from heel to head without honing and grinding?" Whether it is safety, with the certain tax of new blades, or the ordinary open-bladed razor does not alter the question. You want the comfort and satisfaction of a clean, smooth shave every morning with the confident knowledge that your razor will be ready for instant use

the next time needed. The Carbo Magnetic razor is the only razor unconditionally guaranteed to do this. Thirty years of study on the mazor situation has perfected a new secret process of ELECTRIC TEMPERING that positively merges every particle of carbon (the life of steel) into the metal-giving a diamond-like hardness uniformly throughout the blade-something absolutely impossible

with fire tempered steel-used in making all other razors. But test this razor in your own home-or if you prefer, have your barber use it on you. Give us your name. or call and see the "Carbo Magnetic" razor, and we will state our proposition for testing these razors without obligation on your part to purchase, together with our free booklet " Hints on Shavng.") This book illustrates

the correct razor position for shaving every part of the face.
