

10 Reasons Why Voters Should Vote for Neil McCannell

Not only are some of the temperance people up in arms against this clause, but the liquor interests as well. They recognize in it a foe that is hard to overcome, and of the two parties, we believe they are more against the three-fifths clause than their opponents. With the two elements so strongly opposed to the passing of this piece of legislation, the man who is not an out and out supporter of either cause, and who is therefore better qualified to judge of its merits, must come to the conclusion that it is a pretty fair piece of legislation.

In this riding, the electors are well satisfied with the Whitney Government, and will show it at the polls on Monday next. In Dr. Jamieson, the Conservative candidate, South Grey has the best man in the riding for the Legislature, and a man whose personal popularity, coupled as it is with the three years' good government of the province by his party, will add greatly to his majority over Mr. McCannell, the Liberal candidate.

NOT GOOD AT FIGURES.

(Toronto News)  
In New Ontario Mr. MacKay told the electors that the Government was not devoting a fair proportion of the increased revenue from the North Country to the needs of the North Country.

At Guelph he told the farmers that the Government's expenditure on agriculture had not increased at all in keeping with the increase in the total expenditure of the Province.

At Harrison he endorsed Mr. McEwing's assertion that the Government had not granted the rural schools their proper proportion of the rural revenue.

Mr. MacKay suits his language to his audience. In one part of the country the ear of the miner and the settler must be tickled. In another a special story is provided for the benefit of the agriculturist. In still a third district the supporters of the public school receive attention.

But the trouble is that each of the Liberal Leader's statements here quoted is incorrect.

Under the present Administration the Provincial revenues grew from \$8,128,000 in 1904 to \$8,320,000 in 1907, or 26 per cent.

The expenditure on North Country roads has grown from \$175,620 to \$351,000 in 1907, or 100 per cent., and this year the sum set aside for this purpose is \$488,000, besides \$180,000 for bridges.

In 1904 the North Country schools received \$47,912, and last year they got \$85,000.

In 1904 the Ross Government devoted \$462,903 to agriculture, and this year the grant is \$778,300, an increase of 41 per cent.

The grant to rural schools is \$381,843 this year, as compared with \$123,033 three years ago, an increase of no less than 200 per cent.

This is aside from the larger appropriations for continuation schools, high schools and school inspectors.

Mr. MacKay does not take sufficient pains to prepare his case. His statistics are almost always glaringly incorrect. They are often so far astray as to be ludicrous in the extreme.

A CAMPAIGN OF MISREPRESENTATION.

(Christian Guardian.)  
There are times when our secular press can be, and is, notoriously partisan and unfair. And such a time is now upon us in the fair Province of Ontario. As an illustration—and remember we take it only as an illustration, for there are many others that can quite match it—we might mention the leading Liberal organ in this City and Province. It has long been regarded by many as the best among our daily papers, decently fair and honorable in its treatment even of political issues, and aiming to make its leadership not only a party, but a national one as well. And yet its campaign at the present time in provincial politics is marked by overstatement, misrepresentation, and unfairness that, to us at least, seems to have almost over-stepped the limit of decency.

Mr. Whitney and his government should be made to face their responsibility relentlessly, and the opposition press will fail in its duty if it does not make them so face it, in sight of the whole province they were elected to serve, but that is no excuse for a campaign of misrepresentation and false emphasis.

And yet that is the kind of campaign that too often we are treated to by the organs of both parties indiscriminately. And it is considered the best and most effective kind of campaigning too. But to consider it such is surely to put a poor estimate upon the fairness and discernment of the people. And the question comes, "Is there not a better, a more honorable, and a more Christian way?"

10 Reasons Why Voters Should Vote for Neil McCannell

1. Because he is a farmer with the inclination and the intention of devoting himself to his parliamentary duties, rendering a worthy service to all the electorate.

2. Because as a farmer, knowing farming conditions, he condemns the extravagance that has in 3 years increased the expenditure per capita as much as in the preceding 33 years, this increase being largely in departments that do not benefit the farmer.

3. Because Mr. Whitney, through receiving an enormous majority yielded to the spoilsmen, almost a clean sweep being made of the License Inspectors and in the last days of the session gave grants and guarantees in the millions.

4. Because Mr. Whitney broke his promises as to giving a measure of Law reform, ending the session with another promise, which may also be broken.

5. Because of the muddling they made of School legislation almost taking all power out of Trustees' hands, until the indignation of the public and pressure of the opposition compelled them to withdraw it. Besides, their vacillating policy as to Model Schools is not in the interest of the poor man.

6. Because the Conservative treatment of Northern Ontario has led to a dangerous secession movement.

7. Because the government bungling and procrastination on the power question resulted in losing for the Province the valuable asset of Niagara power.

8. Because of the government's lack of trust in the people that gave them their big majority, as shown by the unnecessary Redistribution Act and the manifest intention shown therein to increase the Conservative chances, especially in Toronto.

9. Because Dr. Jamieson when in opposition, wanted the number of members reduced to 60, wanted the boundaries of constituencies to be fixed by judges, the redistribution only after a census, yet a few weeks ago he voted to increase the members to 110, to have a redistribution, even when there was no census, and that a committee of 5 Conservatives and 3 Liberals should change the Constituencies.

10. Because Dr. Jamieson owing to his many cement and other interests cannot give and has not given the efficient service South Grey deserves and requires.

The "Ten Reasons Why Voters Should Vote for Neil McCannell" are given in this issue at the request of the Editor of the Review and the desire of the Liberal Candidate. We undertook in a recent issue to show the fallacy of the reasons, and did not expect to refer to them again. The whole series consists of weak statements that will deceive no one who understands the political situation and has kept in touch with the workings of the Whitney Government for its three and a half years of office.

The farmer is the only class in whom the Review and Mr. McCannell are apparently interested, and neither the Editor nor the candidate is in reality a farmer. The farmers have rights and interests that should be respected, but no such cry was put up for Dr. Landerkin, Mr. Miller or for Mr. McKechnie. They must have something to say and it seems to suit them at this particular juncture to put up a bid for the farm vote.

Nearly all of these ten reasons were taken up in a recent issue and to again review there would be a needless waste of energy. The farmers are quite well aware of the fact that the Government of the past three years has contributed more to reduce taxation than the previous Government ever did in the same length of time. The increased expenditure is to some extent accounted for by the fact that increased grants to agriculture and education are included in the outlay.

It will be noticed too that the Globe and other Liberal papers have been favorable to the Whitney administration till the election was almost announced. It would never do to let that event go by without some sort of criticism.

When the present Conservative candidate favored a reduction of members in the Legislature, the Liberal party was in power, and his efforts in the way of reduction were voted down, neither party being in favor of it. He is of the same opinion still regarding a decrease of membership and will support such such measure when the time comes for Legislation.

The Review, and we presume Mr. McCannell also, evidently regret that Dr. Jamieson has brains enough to understand any business outside of his parliamentary duties, and in Reason No. 10 he is charged with taking a part in the cement business and neglecting his work in Toronto.

The ten reasons why Mr. McCannell should be elected will be easily offset by a lack of votes on Monday next, and may be given as one reason why he was not elected.

Vote for Jamieson and help support the Whitney Government.

"YOUNG PICADOR" SOLD.  
Mr. G. J. Watts Sells His Celebrated Stallion to Messrs. Black & Carson of Durham.

An important horse deal was consummated on Tuesday morning, when Messrs. Black & Carson purchased the handsome sweepstake stallion "Young Picador" from Mr. Geo. Watts, of the Tecumseh House. The sale of "Young Picador" will no doubt be greatly deplored by the farmers and horse breeders of this section, and Messrs. Black & Carson have certainly been fortunate in securing such a valuable animal. He will no doubt be the means of greatly improving the light horse and working stock in the vicinity of Durham, for he has always proven himself a successful stock horse also a successful prize winner in the show ring. He took first prize in coach and carriage class at Ridgetown, and sweepstakes for the best horse on the grounds of any breed or description, April 25, 1907. At Chatham, on April 27, 1907, he took first and diploma for coach and carriage. At the Western Fair, London, Sept. 1906, he won second in coach and carriage and a two-year-old filly sired by him won first prize at the same time in the carriage class.

"Young Picador" is a beautiful seal brown, free from white, 16½ hands high, weighs 1600 lbs., with good, all round action, good head and neck, short back, lots of bone and good feet. His oldest colts are now four years old and all have changed hands at good prices, which should convince anyone wanting to raise colts that this is the horse to use. His colts are all good-tempered and easily broken to harness.

The Commissioners sent out by the Provincial Government in January of last year to inspect all stallions kept for service, reported this horse as scoring 85 points which they say was the nearest perfection of any stallion they had inspected in their whole rounds.—Thamesville Herald.

Traverston.

Mr. and Mrs. John McKechnie, of the Rocky, spent the first of the week with Mr. and Mrs. Will Jack.

Mr. Geo. Peart had a new Sherlock-Manning parlor organ placed in his home last week for his daughter Mary. 'Twas purchased from Mr. John Murdoch, of your town.

Myrtle McClocklin has shown quite a musical gift, so her dad ordered a handsome Bell organ from Messrs. McLellan & McQueen, of Durham. It came to hand on Saturday evening.

Master Percy Hunt and his sister, Miss Myrtle, graduated from the Stratford Commercial College last week. Percy arrived home on Saturday evening and Miss Myrtle is to arrive this Wednesday. We welcome these bright young spirits to the old neighborhood.

What proved a most serious accident happened on Tuesday of last week, when Mr. Will Hewitt began to move his household effects from lot 2 on the 8th con. out to near town on the 2nd con. He had two loads ready to start, one to be drawn by a spirited team of Mr. Dan McArthur's, the other by Albert McNally. Mrs. Hewitt and two children were on the top of the first load and Miss Mamie Hurly on the second. Just as Will picked up the lines, the horses became frightened at the high load and bolted, throwing the driver and jerking the lines out of his hands. They soon upset the load on top of Mrs. Hewitt and the children, the former getting badly bruised. Albert sprang to stop them, when his team took fright at the racket and away they went, running astride a telephone pole, smashing the tongue and Miss Hurly was thrown violently in among the horses feet and was badly trampled upon.

On Thursday night of last week to Mr. and Mrs. Abel Wright was born boy No. 7. Both are doing well. This is a neighborhood noted for boys.

Mr. Wm. Bailey tendered his resignation to the Trustee Board of No. 5 on Saturday. The section regrets parting with Mr. Bailey as he is in good favor with his pupils; but the mystic spell of the West is upon him.

There was a political pow-wow in the Tp. Hall on Friday night in the interest of Dr. Jamieson. Quite a crowd present. Mr. W. H. Arrow-smith made a good chairman. Mr. Frank McFarland was the first speaker and a most clever one too. Gives promise of being a speaker of high standing. The genial Dr. followed and gave an account of his stewardship and the many beneficial Acts of legislation passed by the Whitney government. Mr. Geo. Binnie assailed both speeches; but was tumbled head-over-heels by the Dr. and his statute books. The crowd enjoyed the fun. Candidly speaking, it appears to us, as if there wasn't much enthusiasm among the electors of this vicinity over the matter. Farmers are doing a good deal of independent thinking and taking very little stock in the howlings of the Party press, or the pledges and promises of Party candidates.

[A lengthy account of the death of Mr. D. Sweeney is crowded out but will appear in next issue.—Ed.]
