## Buy Hair at Auction?

At any rate, you seem to be getting rid of it on auction-sale principles: "going, going, gone!" Stop the auction with Ayer's Hair Vigor. It certainly checks falling hair; no mistake about this. It acts as a regular medicine; makes the scalp healthy. Then you must have healthy hair, for it's nature's way.

The best kind of a testimonial—  
"Sold for over sixty years."

Made by J. C. Ayer Co., Lowell, Mass.  
Also manufacturers of  
**Ayer's** SASSAPARILLA, PILLS, CHERRY PECTORAL.

## THE Cream Separator Creamerymen Use

To-day over 98% of the world's creameries use DE LAVAL separators. This fact means much to every cow owner. Without the separator creamery operation would be almost impossible. No matter whether the creamery is buying whole milk or cream its success rests upon the centrifugal cream separator. Those who are buying whole milk skim it at the factory with DE LAVAL Power machines—those who are buying cream advise their patrons to purchase DE LAVAL Hand machines. The biggest and most successful creamery company in the world is buying cream from nearly 50,000 patrons to whom it has sold or recommended DE LAVAL Hand machines. Had the DE LAVAL not been the best and by far the most profitable separator for any owning two or more cows, this great creamery would never have taken the responsibility of placing them with its patrons. And this is true in hundreds of other instances, for creameries can be found in every part of the world having from a few hundred to many thousand DE LAVAL patrons. Wouldn't it pay you to find out WHY experienced creamerymen prefer the DE LAVAL to other separators? You may learn the reason by asking for a DE LAVAL catalog, or better still, a DE LAVAL machine—to examine and try out at your own home free of all expense. Don't wait, but write us to-day.

THE DE LAVAL SEPARATOR CO.

W. J. McFadden, Agent, Durham

### BASEBALL.

The Bankers' team of bat artists handed out a crushing and decisive defeat to the Merchant aggregation on the exhibition grounds on Thursday afternoon last before a small crowd, the score running up to something or other higher than the writer can count, though his numerical education only runs to 23.

But as the Merchants haven't been taking any bets on their chances on winning any games they have so far played, and have only been in the running just to "keep the ball a'rolling," the Bankers haven't much to crow about. Anyway, with the importation of a battery, first, second and third basemen, a shortstop or two and a brand new set of fielders, the retailers are still hopeful of presenting the counterfiter with a bunch of half-ripe lemons before the schedule is completed. The next game is on Thursday evening between the Banks and Cement Company, and as neither team have, so far, lost a game, a fight to the finish will be in order when they line up for their battle on Thursday.

On Friday afternoon the Bankers took a whirl out of the Flesherston nine in Flesherston and scored on a victory by the narrow margin of 21-12. But though the score was large, the boys over the way had the game cinched till their initial pitcher was removed, when the strait ball slab artist, who was evidently out of practice, handed out a series of bases on balls and walked two men over the home saucer. This coupled with the fact that the Durhams connected for a few safe hits, some of them three-baggers, resulted in the scoring of eleven runs in one inning and made the visitors feel happier.

This change in affairs rather nettled the Flesherstonians, who thought the umpire was throwing the game Durhamward, but there are still a few in the old town over the way who realize that it was the change of pitchers that caused the landslide rather than any decisions the indicator man may have given. Any umpire who will steal a game for his own team, is certainly mighty small potatoes, and especially so when there is neither league standing nor honor attached.
