May 21, 1908.

## Rheumatism

Eats Up Strength Racks the Joints Prevents Sleep.

UNCHECKED, - It Finally Strikes the Heart and Kills Its Victim.

It originates in the blood and develops most quickly in the system of persons who are run down and lacking in vitality.

The only specific of ALL forms of Rheumatism is Ferrozone, which is perfect solvent for uric acid and a splendid stimulant for the kidneys and liver.

No remedy is so successful as Ferrozone. It has never failed to cure, because it attacks the cause of the disease in the blood. It neutralizes the uric acid poisons, quickens the sluggish circulation, and relieves the system of all irritating matter.

Every distressing symptom is cured, swollen muscles and aching joints are relieved of their pain. The disease will not return if once cured by Ferrozone, which does its work thoroughly. Its cures are lasting.

Unlike other treatments, Ferrozone does not depress the heart or deaden the nerves. It rebuilds the system, promotes better health, establishes good appetite, sound sleep and freedom from wakening pains and aches.

The perfection of all rheumatic remedies is found in Ferrozone. It is in tablet form easy to take, convenient to carry, guaranteed to cure, and costs only 50c per box, or six boxes for \$2.50 at all druggists; don't fail to test Ferrozone.

"You must keep your mouth shut when you're in the water," said the nurse as she gave little Tommy a bath. "If you don't you'll swallow some of it." "Well what of it?" demanded Tommy. There's plenty more in the pipes, ain't there?"

## AGRICULTURE IN THE PUBLIC SCHOOLS AND THE TRAINING OF TEACHERS.

By G. C. Creelman, President Ontario Agricultural College, Guelph.

The problem of successfully teaching Agriculture in the public schools has been long under trial and consideration, and everyone admits the wisdom of instructing the children in the rural schools in the elementary principles of the sciences that relate to their life activities. The difficulty, however of securing teachers specially trained for the work has hindered advancement. The day is gone for thinking that the subject may be adequately provided for by a text book alone. There must be more than this. The school must have teachers prepared for the work. The rural school must have special rural teachers! All over America a movement to secure this end is in evidence. Ontario has been active in the cause for the past four years, but greater public interest is needed in order to attain results commensurate with the importance of the interests involved. The basic industry of Ontario—Agriculture requires for its proper growth and development the co-operation of the schools. All those interested in the education of children—trustees, parents and teachers—should share in the responsibility of meeting the requirement.

To this end arrangements have been made by the Education Department for the holding of a Summer School for Teachers at the Agricultural College at Guelph. It opens on July 2nd and continues for four weeks. Instruction is given in five distinct courses, viz: (1) Elementary Agriculture, (2) Nature Study, (3) Art and Constructive Work, (4) Manual Training (Woodwork), (5) Household Science. Macdonald Hall will be open for the accommodation of lady teachers at a charge of \$15.00 for the four weeks. There are no tuition fees. The instruction in Elementary Agriculture prepares the teacher for taking up the work of School Gardening at our rural schools. All the

other courses help to fit the teacher to teach children in terms of their environment and their life activities. The urban teachers will have their needs met in the courses in Nature Study, Art, etc. Further particulars may be had on application.

The Ontario Agricultural College has given instruction along these lines during the past four years to about 250 teachers. It has only reached so far a very, very small fraction of our school children thereby. It desires to extend its usefulness and asks for the active sympathy of all concerned. Teachers should be encouraged by their trustees to take up the work. Only by this co-operation can our schools be brought into accord with recent and approved educational development.

### THE STRENUOUS LIFE

Pulls so Hard on the Stomach it Must Have Help.

The stress and strain of the strenuous life in both city and country makes stomach troubles. Five people suffer to day where one did ten years ago with sick headache, dizziness, flatulence, distress after eating, specks before the eyes, bloating, nervousness, sleeplessness and the many other symptoms of indigestion.

All who are suffering with stomach troubles, and that means at least two out of three in Durham and other towns, should use Mionna stomach tablets. Nothing else is as safe, yet effective; nothing else can be so thoroughly relied upon to relieve all troubles from indigestion as Mionna.

So reliable is Mionna that MacFarlane & Co., with every 50 cent box they sell, give a guarantee to refund the money unless the remedy cures.

The north star is estimated to shine with a light 190 times that of the sun.

German scientists, after devoting deep study to the question of the decay of paper, have found that bacteria are the chief enemies to be met with in the preservation of valuable books and manuscripts.

## The Fiz Biz!
