"HECLA" **Fused Joints** Mean a Clean

Home. A warm air furnace, that will not leak gas or dust, provides an ideal heating system. It combines economy

Smokeless

in first cost—and in operation, a plentiful supply of warm air and perfect ventilation. That is why "Hecla" Furnaces are made with FUSED JOINTS.

Where steel and cast-iron come together, the metals are fused or welded, so that they practically become ONE. This fusing (a Clare patented process) makes the "Hecla" absolutely dust, smoke and gas, tight.

There are a dozen and more other special features about the. "Hecla" that you will appreciate almost as much as the FUSED JOINTS.

So let me send you the new Hecla catalogue, which gives all the details of construction. If you send me a rough plan of your house, I will tell you just what it will cost to install the "Hecla" Furnace. Write NOW to the "Hecla Furnace Builder" care of
