THE DURHAM CHRONICLE

W. IRWIN, Editor and Proprietor.
DURHAM, AUG. 6, 1908.

EDITORIAL.

The session just closed at Ottawa is the longest in the history of the Dominion. It was a record session in all other respects. It was authorized the largest supply known in Canadian history. It voted more subsidies than any previous session. It saw the longest and most damaging list of exposures ever recorded in the year of Government maladministration, of public graft and departmental incompetence; some made in the House of Commons, some in the newspapers, and some by commissions. It saw more effort by Government porters to suppress inquiry and to falsify the facts than had ever been in Parliament before. It saw the greatest number of votes cast in wrong-doing and to reject proposals of reform than had ever been recorded in one Session. It saw more Government surrenders and back-sliding than any Ministry made in the same length of time. It saw more energetic and effective legislation than has been known in any year for many years.

The following record of motions and votes gives some indication of the nature of the Session.

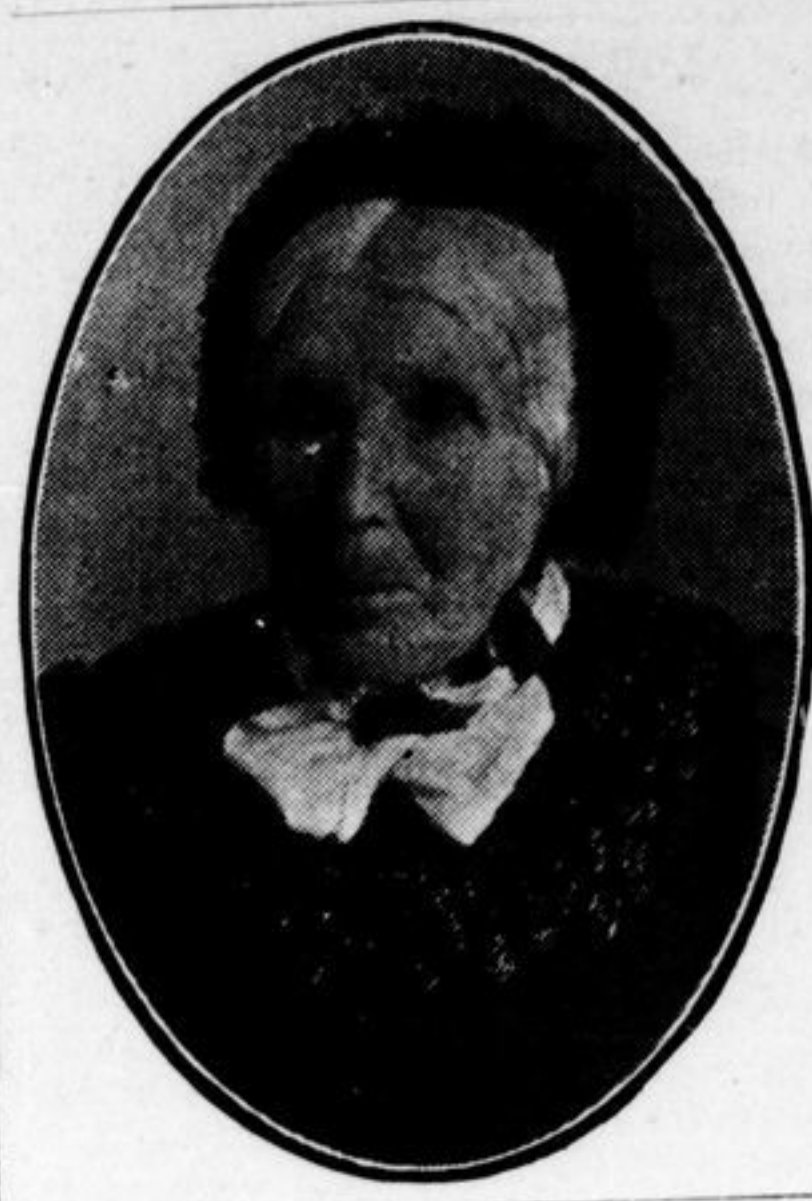

January 5th.—Motion of Mr. Cockshutt, that the conduct of public affairs has not been characterized by reasonable foresight, care and prudence. Rejected, by a vote of 95 to 50. How did Mr. Miller vote?
January 10th.—Motion of Mr. Armstrong for free rural mail delivery. Rejected, 103 to 54. How did Mr. Miller vote?
January 11th.—Motion of Mr. Perley condemning the unbusinesslike arrangements and lack of public spirit in respect to the Quebec election. Rejected, 96 to 50. How did Mr. Miller vote?
January 13th.—Motion of Mr. Perley for the production of original statements of four timber limits. Rejected, 86 to 51. How did Mr. Miller vote?
January 21st.—Motion of Mr. Perley that the representatives of the people have the right to examine the documents connected with the election of the country, and that the Government is justified in the refusal of such documents. Accepted by Government and rejected by Opposition unanimously.

January 24th.—Motion by Mr. Northrup, that subject to certain considerations, members of Parliament have a right to examine records of Government and the archives. (Language of the resolution quoted from statement of Laurier himself). Rejected, 95 to 50. How did Mr. Miller vote?
Motion of Mr. Cockshutt, against assisted immigration except of agricultural and domestic class; headed off by Government amendment.
January 28th.—Motion by Mr. Borden, that Canada should not enter into any treaty depriving herself of the control of her own immigration. Rejected, 100 to 45. How did Mr. Miller vote?
February 6th.—Motion of Mr. Lake for a committee to inquire into the disposal of timber leases. Rejected, 115 to 55. How did Mr. Miller vote?
February 13th.—Motion of Mr. Blain, that the greatest possible freedom of investigation should be enjoyed by the Public Accounts Committee, and any action of the committee excluding evidence should be subject to the immediate appeal to the House. Rejected, 103 to 49. How did Mr. Miller vote?
March 10th.—Motion by Dr. Reid, that tenders for timber limits should be kept secret till the time of opening, and then opened in public. Rejected, 95 to 50. How did Mr. Miller vote?
March 13th.—Motion by Mr. Perley, condemning public expenditure on works for private advantage and not for public benefit. Rejected, 99 to 43. How did Mr. Miller vote?
March 30th.—Motion by Mr. Foster, that supplies purchased by the Government be bought by public tender through a purchasing commission; amendment by Mr. F. D. G. that purchases be by tender as far as practicable and under the direction of ministers. Amendment carried and motion lost by votes of 93 to 43, 99 to 44. Amendment of Mr. Blain, that the present system of purchasing from middlemen at excessive prices be discontinued. Rejected, 90 to 46. How did Mr. Miller vote?
April 24th.—Motion of Mr. Monk, that the time has come to cease paying a bonus of so much per head for immigrants. Rejected, 95 to 42. How did Mr. Miller vote?
April 30th.—Motion of Mr. Borden, that the departmental inquiry by Judge Cassells is too narrow, and that in view of the Royal Commission report of extravagance, waste, inefficiency, and mal-administration, public interest demands the appointment of a commission with full powers to investigate all departments. Rejected, 99 to 48. How did Mr. Miller vote?
May 19th.—Motion by Mr. Lake, regretting the imprudent alienation of public domain, and asking for investigation with the view of restoring to the people the lands and timber obtained by fraud and imposition. Rejected, 91 to 46. How did Mr. Miller vote?
May 22nd.—Motion of Dr. Worthington, that the Ross rifle transactions were extravagant and imprudent. Rejected, 55 to 18. How did Mr. Miller vote?
May 26th.—Motion by Mr. Foster, that Civil Service appointments should be made on merit, after an examination by non-partisan commission. Rejected, 72 to 30. How did Mr. Miller vote?
May 29th.—Motion by Mr. Lennox, in connection with Sir Fred. Borden and the St. John cold storage deal, that ministers should not be connected with companies receiving contracts and subsidies from the Government. Accepted by Sir Wilfrid.
July 8th.—Motion by Mr. Lennox, that the committee appointed to inquire into charges of over-classification and over-payment on the Transcontinental Railway be instructed to resume and complete the investigation. Rejected, 98 to 53. How did Mr. Miller vote?
By Mr. Lake, Amendment to the Lands Act that action be taken with the view of setting aside a quantity of Western land to support higher education. Rejected, 65 to 39. How did Mr. Miller vote?
July 19th.—By Mr. Foster, setting forth and condemning the reckless and imprudent financial policy of the Government. Rejected.
In addition there were over a dozen motions amending the elections act, by inserting more stringent provisions against fraud and corruption, against interference by Government officials, and giving greater publicity to election expenditure. These with the amendment against Federal interference with Ontario lists, were all rejected by the Government majority.
Mr. Miller is a public man, elected by the public to do business for the public. As such, he must expect his public actions to be criticised. As to his private character, we have nothing to say. He may be basking in the sunshine of immaculate purity, as the private and personal H. H. Miller. Personally, we have much respect for Mr. Miller privately, but in his public capacity we feel that his vote on many occasions has not been for the country's good. He has been tied to party, and he has voted with the party, following on every, or nearly every occasion, the leader-

ship of Mr. Laurier, in direct opposition to the pre-election pledges and promises of the present Federal leader. Sir Wilfrid Laurier said himself in 1895, "We are the party of low taxation." Has he proved himself to be the leader of the party of low taxation? Will any reasonable minded person, Liberal or Conservative, have the bold effrontery to say that the Liberal party, since coming into power in 1896, have been, or even attempted to be the political economists foreshadowed in their speeches and their platform prior to their election?
The Liberal platform of 1893 says: "We view with alarm the large increase of the annual expenditure of the Dominion, and the consequent undue taxation of the people." The Government then took 36 to 38 millions of dollars a year. Now they take more than double that amount, take more than double that amount, to bear an increasing burden of taxation. Did Mr. Laurier try to reduce the burden according to the Liberal platform? Did Mr. Miller ever object to any of the Premier's increased expenditure? Not at all. On the other hand, he has, during his term in office, been one of the strongest supporters of Sir Wilfrid in all his legislative conduct. We have nothing to say about Sir Wilfrid as a private individual, but we do contend that he has shamelessly disregarded his pre-election pledges, and Mr. Miller has helped him in the work.
Toronto has evidently a feeling that tomes during the coming winter will be none too bright, and the council is anxious to make it known all over the province that the city is going to be very strict about how it hands out relief, and that the recipients will have to work hard at a low rate of wages. A limited amount of work will be held in abeyance to meet the emergency when it comes. The construction of a trunk sewer and the breaking of stones by hand at machinery prices will be part of the bill of fare. During last winter, a great deal of the relief given went into undeserving channels, while others who couldn't get work and were ashamed to beg, suffered much hardship in consequence. If times are hard generally, the city is not the best place for the laboring poor. Toronto, however, is going to give relief next winter on a work basis, but they do not propose to furnish employment to all who may feel disposed to rush into the city when the cold weather comes.
Chronic Diarrhoea Relieved.
Mr. Edward E. Henry, with the United States Express Co., Chicago, writes, "Our General Superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy some time ago to check an attack of the old chronic diarrhoea. I have used it since that time and cured many on our trains who have been sick. I am an old soldier who served with 4th and 10th Regiments, and have no ailment except chronic diarrhoea, which this remedy stops at once." For sale by all drug stores.
Top Cliff.
The first threshing of the season was by Colin McLean threshing Archie McCuaig's fall wheat on Saturday last. Archie took Manitoba style by threshing as he drew it from the field. The grain turned out well. Harvest is coming in fast; too much so, on account of rust being on the oats.
Mr. and Mrs. Charles McKinnon of Port Arthur are visiting at the old home at this place at present.
Mrs. David McIntyre accompanied Mr. and Mrs. McKinnon from Port Arthur and is now visiting her mother, Mrs. McIsaac at Mt. Forest.
Miss McCosh, late teacher of our school here visited at Norman McIntyre's and other places for a few days last week.
The Traverser Correspondent is too hard on applicants for the position of teacher. Take care "Bob" that you were not amongst the first to make some of those errors.
A number of the friends of the late Neil Clark, of Egremont attended his funeral last week from this place. Funeral is needed again for those that don't come out harvesting, but to those who have grain cut dry weather is the best. So it would well if rain fell on the potato and turnip patches and on the green growing grain. Wouldn't we do things well if we had the doing of them?
Quite a number took advantage of the Grey Old Boys Excursion from Toronto last Saturday. Amongst the number we noticed Mr. and Mrs. Walker of Toronto, visiting at Mr. Alexander Muir's and A. McKinnon's of Pricerville.
An unusual number attended the Gaelic service in the Presbyterian Church at Pricerville on Sunday last.
We notice that at the late General Assembly of the Presbyterian Church held at Wainwright the 100 of the five hundred delegates in attendance only some forty were opposed to the proposed union between the Methodists, Congregationalists and Presbyterians. The most difficult problem to solve is when it comes to the different congregations to be voted upon.
We hope that since the Conservatives are so good since they got into that they will pass a law prohibiting the running of such nuisances as automobiles on the public highways as horses are more assured of them than the cars. The Chinaman's description of them was very suitable. "Nothing pullee, nothing pushee and goes like the —"
Our roads are getting in bad shape again with stones. They would require something better than a garden rake to pick off all the stones that are rolling about on account of the freshets of some weeks ago. However, we have a fine piece of road at Top Cliff, graded lately by

OBITUARY.

MRS. ROBT. MORRISON.
Mrs. Morrison died July 24th at the residence of her son-in-law, Mr. James Matthews, of Egremont.
Her maiden name was Rossanna Lucas, and she was the widow of the late Robert Morrison, who died about thirty years ago.
Born in the county of Monaghan, Ireland, in 1816, she married when 19 years of age and came to Canada with her husband in 1832 and settled

on the lot in Egremont opposite the Maplewood cemetery, where her remains now lie at rest.

The marriage resulted in a family of twelve children of whom are still living, as follows: John, of Michigan; William, Robert, and Richard, of Egremont; James and George, in Saskatchewan; Mrs. George Hepburn, in Durham; Mrs. James Matthews, in Egremont, and Mrs. Geo. Neil, in Mt. Forest.

She was a life-long adherent of the Church of England, a good neighbor, an affectionate wife and mother, and an industrious, hardworking pioneer of the neighborhood in which she lived.

The road grader and if a coat of gravel were applied now it would make a permanent job of it.

Barber Gamey moved his shop to McArthur's new store-house, Pricerville, where a room will be fitted up for him for future use.

Hay was a good crop in this locality, and will be cheaper than last year, but we notice that the hotel keepers in Durham, and we suppose elsewhere, charge 15 cents for a single horse just as well as when hay was \$20 a ton. Whether it is the want of opposition or Local Optimo is the cause we do not know.
Dr. Dixon, brother of Dr. Dixon of Pricerville, is visiting the latter for the last couple of weeks.
John McArthur, of Dundalk is taking a few holidays at his home in Pricerville, and while there will attend to all who require his services in the dental line, for they say John is good at pulling out old teeth and at putting in new ones.

Diarrhoea Cured.
"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Zirkle, of Philippi, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea Remedy advertised in the Philippi Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by all drug stores.

FARM LABORERS' EXCURSIONS

25,000 Men Wanted for Western Harvesting

To meet as far as possible the unusual demand for farm laborers in Manitoba, Saskatchewan and Alberta, the Canadian Pacific Railway will run special second class excursions from all Ontario stations. Cost of a one-way ticket to Winnipeg is \$10.00, and from Winnipeg to points where laborers contract to work they will be carried without charge. After at least one month's work in the harvest field, a ticket back to Ontario starting point will be issued for \$18. Tickets are on good on Farm Laborers' special trains, and will be issued to women, but no half-rate for children. Leaving days of excursion are as follows:
August 14th and Sept. 8th, from all stations in the territory between Toronto-North Bay line and Toronto-Sarnia line.
August 19th and Sept. 9th, from all stations on Toronto-Sarnia line and south thereof (in Canada).
August 22nd and Sept. 11th, from all stations east of Toronto-North Bay line, and including Kingston.
For the three excursions in August special trains will be run from all points on the C. P. R. If you are in any doubt as to date of excursion from your district apply to local agent who will also furnish times of special trains, or write to C. B. Foster, District Passenger Agent, C. P. R., Toronto.

HAVE YOU A HORSE?

If you want to keep him in shape never let him suffer pain. Rub on "Nerviline"—it is noted for curing strains, swellings and stiffness and sore muscles. For internal use in curing cramps and colic, Nerviline is a perfect marvel. In every good train you'll find Nerviline because it keeps horses in trim and reduces the veterinary bill. Farmers, stockmen and all horse owners should buy Nerviline and prove how invaluable it is. Good for man or beast. 25c. per bottle at all dealers.

Some Summer Requisites

During the warm weather there are some things in our line that you are, perhaps, specially requiring. We might mention:

- Talcum Powder
- Toilet Waters
- Disinfectants
- Paregoric
- Sponges
- Toilet Soaps
- Fly Paper
- Insect Powder

These and many other articles you will find here at prices that always lean your way.
