Mills, son-in-law of Mrs. James Sullivan, here, is the treasurer elect of the new lodge. The booklet is finely illustrated with photogravures of the newly elected officers.

Thirty tickets, we learn, were sold at Flesherton Station on Friday last for the harvest excursion to the North west. Among those who left were Norman McLeod, Spurgeon and Ed. Whittaker, Fred Chislett, Alex. Collinson, Will Sargent, Caylon, John Hales, Elmo Blakely, Leslie Norris, Oswald Whitten, Edgar Vaughan, Harry Carrington, Flesherton, and Thos. Fisher, Finlay Hoy, Fred Martin, Dave Gence, George Paul, Everett McLean and Robt. Swanton from this vicinity.

The residence of Mr. and Mrs. J. W. Bates, 931 Queen Street West, Toronto, formerly of this place, was the scene of an interesting event on Wednesday, August 12th, when their only daughter, May, was joined in marriage with Mr. Richard Maddocks of Toronto. The ceremony was performed by Rev. J. D. Morrow, pastor of St. Mark's Presbyterian church, Toronto. There were no attendants and owing to recent bereavement the wedding was very quiet. Mr. and Mrs. Maddocks left by boat for Montreal and other points on their honeymoon.

By a lengthy and very interesting private letter from Mr. W. F. Doll, who has been the past six months at Bogota, the capital of Colombia, South America, looking after big business interests there, we learn he has a deal on with the government involving over thirty million dollars. If successfully carried through, Mr. Doll will probably reap five millions out of the transaction. Mr. Doll reports having the time of his life, and that the people, the country and the climate are interesting beyond belief. Labor is all done by the native Indians and mules. Servants get from 50 cents to a \$1.00 per month. All most every species of fruit and vegetables are grown. Coffee and sugar are the chief exports. Ripe oranges and bananas, green peas, corn, etc., etc., can be picked every day in the year, and for weather, every day is an ideal June day with nights comfortably cool for sleeping. The natives are uncleanly in habit, seldom ever wash but their hands and face. That the death rate from filth and disease is much greater than it is, our correspondent believes, due to the wonderful climate and healthful mountainous air. The governments pass through perilous times, a revolution occurring about every five years. The Roman Catholic church is supreme; the Presbyterian is the only other church represented.

Women's Period of Pain.

Regularity of the system can only be secured by maintaining strong healthy circulation. If feeble, run-down, nervous, be sure that circulation is poor. The natural result is congestion that exacts so severe a penalty. Besides being a blood former and nerve tonic, Ferrozone adds additional vigor to the heart and ensures strong blood circulation. This is the only means of preventing congestions that cause pain, headache and nerve weakness. The whole system is renewed and fortified with strength, vigor and endurance. For girls and women nothing equals Ferrozone, 50 cents at all dealers.

Standing upright in water just covering his head, with his feet tangled in weeds 10-year-old Alexander Baillie was drowned in the free bathing limits at the western sand bar yesterday afternoon. In company with Willie Miles, son of Undertaker A. W. Miles and Louie Mason, the Baillie had left the Bathurst-street wharf at 2 o'clock, and the three had gone swimming together. The last the latter two saw of Alexander he was walking out in the water up to his chin. They were playing on the beach at the time. After a while Willie Miles awoke to the realization that young Baillie had disappeared, and drew the attention of Frank Ward, who is in charge of the bathing place. Mr. Ward began search and at 4 o'clock found the body swaying to and fro just beneath the surface.—Toronto World.

YOU would soon get rid of a servant who did only half the work in double the time of a capable one. Then why continue using a flour that gives half the nourishment and double the work to digest?

Royal Household Flour

is made from selected spring wheat—a wheat that is rich in nutriment. It is the whitest and finest flour made; it makes fully one-third more bread to the pound than any soft wheat flour and is more dependable in every respect.

PRETTY HOME WEDDING.

Miss Gertrude Lamb and W. J. Graham Married Tuesday.

A pretty home wedding took place Tuesday morning, August 10th, when Miss Nancy Elenor Gertrude Lamb was united in marriage to William J. Graham at the residence of the parents of the bride, Mr. and Mrs. George Lamb, 114 Eleventh avenue, South Ashmun, the home being beautifully decorated with evergreens and flowers. Rev. J. A. Kennedy, pastor of the First Presbyterian church, was the officiating clergyman, and the beautiful full wedding service of the church was used. The bride was given away by her father, Miss Belle Goetz played the wedding march, and the young couple being supported by George Bayliss and Miss Ethel M. Lamb. The ceremony was witnessed by a large number of the friends and relatives of the couple, and after congratulations had been extended a sumptuous wedding breakfast was enjoyed, presided over by the Misses E. Crawford, B. Goetz, B. Welsh, V. Short and A. Welsh.

The wedding party and guests then took carriages to the Union dock where Mr. and Mrs. Graham took the steamer Juniata for a four weeks' wedding trip to Chicago, Detroit, Buffalo, Niagara Falls and other cities, after which they will return and continue to make the Soo their home.

The bride is an accomplished and popular young lady who has a host of friends who extend to her their heartiest felicitations. She has resided in the Soo for six years, and it is the pleasure of her friends that she is to continue to make this city her home. The groom is a young man of sterling character and is in the government employ, having the confidence and esteem of those who know him. The large number of beautiful and costly presence received by the young couple attest in a measure the general good will in which they are held in this community.—Soo Times.

Western Call for Men. 25000 HARVESTERS ARE NEEDED AND GOOD WAGES OFFERED.

Preparations have commenced earnest for the handling of the Northwest's big wheat crop, the only difficulty experienced by farmers being the scarcity of labor in the harvest fields. To induce men to go to the West the C. P. R. has made the remarkably low rate of ten dollars from Ontario. This fare carries the ticket holder to any point on the company lines east of Moose Jaw; trains are direct to Winnipeg, and the men re-ticketed there for the points where they wish to work. After at least a month's work in the field, laborers are issued tickets back to Ontario starting point at \$18.00. Leaving dates of Canadian Pacific excursions are Aug. 1, 8, from stations north-west Toronto, Aug. 18, 19, Sept. 1, 9, from stations south-west of Toronto, Aug. 20, 22, 27, Sept. 2, 11, 14 from stations east of Toronto. The most important excursions are Aug. 18 and 20, and on these dates special trains will be run from all C. P. R. stations times of which agents will furnish. The C. P. R. is the only Canadian route to the West, and the only line carrying Farm Laborers through without change. Apply to ticket agents, or B. Foster, District Passenger Agent Toronto, for full information. Mend your porch chairs with picture wire. It is easy to work with and strong. Lace across the seat and back to make a straight surface.

The Firepot of a furnace being in direct contact with the fire, contains its most effective heating surface. Any increase in this surface therefore, greatly increases the efficiency of the furnace. That is why STEEL RIBBED FIREPOTS, which have three times as much radiating surface as any other style of firepot, enable the "HECLA" Furnace to save from 10% to 15% of your fuel bill. This is only one of the many exclusive features of the "Hecla" Furnace.
