BOYS! LOOK HERE

You want to see our new ties—such pretty wash ties! for 15c, you get two for 25c, and some at 25c each. New silk hook on and bow ties, beauties, 25c each.

20 per cent off any piece of Whitewear

That means, \$3.50 waists for \$2.80,—\$2.00 waists for \$1.60. \$1.25 nightgowns for \$1.00,—\$1.00 nightgowns for 80c. \$1.25 undershirts for \$1.00,—50c corset covers 40c,—25c corset covers 20c,—50c drawers 40c,....

25 per cent off any piece of Colored Muslin

You spend 75c, save 25c, get \$1's worth. It's good for your bank account.

Dress the Boy for Comfort

One of these wash suits will do it. We haven't very many only one or two of a kind, so cannot give prices, but out goes every one if cut price will do it.

Butter and eggs wanted. Highest price in cash or trade.

JAMES IRELAND

Sole agent in Durham for "Mechanic King" and "Railroad King" overalls.

Wooden-ware

Every person that would like to make life easy and still do good work, should have one of our "Dan Patch" Washing Machines. We also have numerous other kinds of Washing Machines.

We can supply you with Tubs, Tub Racks, Wash Boards, Clothes Pins, Clothes Pegs, Scrub Brushes, Mops and Mop Cloths.

You are invited to inspect our Churns—we have the Barrel Churn with top handle—the Barrel Churn with side handle—the Rocker Churn (which is so widely known,) and the Dash Churn.

No farm house is complete without one of our Butter Workers—any person can make good butter by using one.

Our assortment of Butter Bowls, Butter Moulds, Butter Prints and Butter Spoons will satisfy you.

We still have a supply of "Plymouth" Binder Twine.

W. BLACK

County and District. ITEMS OF INTEREST.

Geo. W. Baines is Owen Sound's new chief of the Fire Department.

Listowel's tax rate this year will be 24 mills.

Holstein is to have a skating rink which will be built by Mr. George Freeman.

The Dundalk Board of Health will enforce the "dry earth" closet system by-law.

For sixteen years the name "Sala-da" has stood for the maximum of quality, purity and flavor in blended Ceylon Teas, so that the only thing you need to look out for is the "Sala-da" label on every package of tea you buy.

Tommy Pye has a half dollar he would like to get rid of. In fact he is so anxious to get away from it that he got up at halfpast five on Monday and took it over to Hanover and spent it. Yesterday a stranger walked in to his store and bought a collar and threw down the same old half. All the doubtful money in town used to be given to the Express Agent, but Tommy is the victim these days.—Bruce Herald.

A despatch from South River, Ont., on Friday last gives the particulars of the death of a former resident of Meaford as follows:—"South River, Ont., Aug. 14.—A shooting accident occurred near here Wednesday evening, by which Mr. Sam Richmond, a farmer, aged 38, lost his life. It appears that Mr. Richmond and George Dunker, a neighbor, were out hunting, each taking a different route. Dunker shot at what he took for a cub bear on the trunk of a tree. The animal, which was really a porcupine, fell to the ground. Richmond, hearing the shot, started towards the sound. The rushing sound he made caused Dunker to think the mother bear was charging him, and he fired, the shot taking effect in Mr. Richmond's groin. Mr. Richmond came here from Meaford about a year ago. He leaves a widow and three small children. The body was sent to Meaford, local Orangemen looking after the arrangements.

Virulent Hay Fever.

Hay fever promises this year to be very severe and many are already suffering. The most positive cure is "Catarrhoxone", which destroys the germ and gives immediate relief. Cures quickly. Sold by all dealers. \$1.00 for two months' treatment.

Joseph Lewis, a negro from Toronto, was up before Magistrate Creaser, charged with shooting at Harry Greigg, a white man, who, he alleges, has been paying attentions to his wife. Olive Bowie, an Owen Sound colored girl who has been in Toronto for some time and whom he married five months ago. He was remanded this morning, and will appear on the 21st inst., to answer three charges: 1st of carrying a fire arm, 2nd of shooting with intent to do bodily harm to Hector Bell and Victor Scott. Victoria Park was the scene of the shooting, which took place on Tuesday afternoon about two o'clock. Lewis came to Owen Sound on the 1.10 train on Tuesday afternoon—evidently looking for trouble. His grievance was that the man Greigg, whom he fired at, has been hanging around his wife and paying her marked attentions. Greigg left Toronto for Owen Sound about a fortnight ago, and a few days later his wife left for the same place to visit her father, as she said, who lives here. On Tuesday morning Lewis decided to come up to Owen Sound and see what was going on. On arriving in Owen Sound, Lewis proceeded to look up the Bowie residence, and just before reaching there, he met Greigg coming across pleasure grounds, with Bowie woman following close. In a jealous rage Lewis pulled out a revolver and stories differ as to what he did. According to Greigg he fairly rained bullets and he was obliged to flee for his life, but Lewis claims that he fired only one shot, and that went into the ground. Lewis claims he merely wanted to give the white man a good scare—and in this he succeeded well, for Greigg rushed immediately to the police station, where he told his story. A warrant was issued for the assailant's arrest, and P. C. Foster got on his trail, with the result that Lewis was placed under arrest as he was about to board the C. P. R. afternoon train for Toronto at 3.30. When arrested, the negro had on him a 32-calibre revolver with four chambers loaded. Hector Bell and Victor Scott, two young lads living on William street, say they were picking apples in an orchard near the old Hall settlement on the pleasure grounds, and that a "big nigger" went after them with a revolver and fired. They claim they were compelled to hide behind trees in order to keep out of his range. Lewis will stand for hearing on this charge also on the 21st inst. Lewis is 40 years of age and has every appearance of being an industrious and well-behaved man. He is a Toronto man, and is employed as a foreman at the tunnel now under construction between Toronto and the island. His wife, Olive Bowie, is well known in Owen Sound, and is about 24 years of age.—O. S. Sun.

Thin Glass and Thick.

Glass is a substance that we cannot figure the strength of as we can a great many other things with which we are familiar. It varies greatly in itself. The strongest glass, as a rule, breaks into the greatest number of fragments. Comparing the strength of thin glass with thick the former is relatively the stronger. This is a thing very often lost sight of. Then again, as to the difference between rough plate and polished plate, we find the polished plate the stronger. This is perhaps to be attributed to the fact that all very fine surface hair cracks are polished out. These only go into the glass to a certain depth, and when they are all or nearly all polished and ground off there is less chance for some of them to form the basis of a crack, and thereby the glass is increased in strength. Tests have been made, and some formulae have been arrived at. As was to be expected, they show very irregular results as to the strength of glass.

SOMETHING CAN BE DONE

To Stop the Increase of Catarrh in Durham

Catarrhal troubles are increasing, not only in Durham but all over the country.

Catarrh is a germ disease and to cure it, germ life in the nose, throat and lungs must be destroyed, and this can be done only by breathing Hyomei.

There is no dangerous stomach drugging when Hyomei is used; no tablet or liquid mixtures whereby the digestion is often destroyed.

Breathed through the neat pocket inhaler that comes with every outfit, its healing balsams penetrate the most remote air-cells, destroying the catarrhal germs so that quick recovery follows. The complete outfit costs but \$1.00, and Macfarlane & Co. agree to refund the money should Hyomei fail to do all that is claimed for it.

An Editor's Difficulties

It costs a country newspaper money every time it takes a stand on any question, says a level-headed exchange. Almost any citizen can do it without injury to his business, because he is not put on record. Whenever a newspaper publishes anything, its black and white, no way to get round it. If the editor advocates improvements the mossbacks get after him and stop their paper. If he opposes improvements the progressive sort jump onto his frame and call him a back number. If he boosts the churches the liberal element call him crazy, if he doesn't the church people say he is going to the devil. If he publishes politics the opposition gets into his hair, and if he doesn't he's charged with being afraid to stand for his own opinions. If he condemns mail order houses, there are some people to ask him to attend to his own business as they have a right to trade where they please. If he publishes mail order ads. the home merchants go after his gore. No country newspaper can come out square on any subject without making enemies and losing money and in a year or so will incur some criticism from nearly everybody, but this should not be discouraging.

The newspaper that undertakes to please everybody will please nobody and if it is honest and sincere and thoughtful, the public will respect it.—Ex.

Which Lintiment is Best?

For muscular pains and aches a thick oily preparation can't penetrate—that's why Nerviline beats them all—it sinks right in. "I wouldn't live without Nerviline in my house," writes J. B. Cattan, of Mastown, N. S. "If you have rheumatism or soreness in the muscles or in fact any need of an honest lintiment, Nerviline fills the bill. I can recommend it highly because I have proved that in one application of Polson's Nerviline there is more virtue than in a whole bottle of ordinary lintiment." Try one of the large 25c. bottles.

The Home of Edam Cheese.

The northern part of Holland is the seat of the Edam cheese industry. In making the Edam cheese fresh cow's milk is carefully strained and the rennet added. As soon as the milk curdles the whey is drawn off, and the curd thoroughly kneaded, is pressed into molds. This process is repeated until the whey has all been extracted and the curd is comparatively dry. It is then wrapped in a linen cloth and kept for ten or twelve days until quite solid. Then the cloth is removed and the cheese put into salt lye. Afterward a little more dry salt is sprinkled on the cheese until the maker thinks it is salt enough to insure its keeping. It is next put into a vessel and washed with whey and scraped to remove the white crust. It is next carried into a cool room and laid on shelves, where it is frequently turned. The ripening process lasts from two to three months, the round balls growing the fine yellow and reddish color peculiar to Edam cheese.

Contains no Caustic Acids.

It's healing and drawing—that's why Putnam's Corn Extractor is better than cheap acid substitutes. Insist on Putnam's only.
