Corner Concerns.

Although there will be no service in St. Paul's Church on Sunday the Sunday School will be conducted as usual.

Mr. Clark opened the season's threshing on this line last Tuesday with Messrs. D. Allan and A. Webb as assistants. The grain yield is very good in quantity but the oats are light of weight.

The person must be stoical indeed who does not feel a deep sense of sympathy for Messrs. Staples and Aljoe in their loss by fire. We hope the wheel of fortune may turn something good their way to help them over their hard luck.

We are pleased to see Mr. Duncan McNab out again and his leg which was broken on the Walkerton bridge about well. It is also a pleasure to hear him speak so highly of the treatment accorded him by the Canadian Pacific Railway Company.

Messrs. John Vessie and Dave Eccles have formed a partnership in the threshing business. They are both old favorites on this line and it saves the embarrassment of choosing between them.

Mr. David Allan, Jr. of Holstein, is a progressive young farmer. He was up this way last week and purchased a fine bunch of steers for winter feeding. They are a fine bunch too even though we do say it ourselves.

Mr. Albert Wells is a tasty young man and matched a fine pair of horses that are valued at about \$400.00. But a week ago Sunday he went to see his mother in Ayton and turned his horse to pasture on the lot and it got into the well and was killed.

To make room for the new addition they are putting to their barn the Barbour Brothers last week moved a log building into different quarters. People will now tackle anything in the way of moving buildings.

The young people of this place will picnic at Cement Lake on Wednesday evening. A picnic in fall on the Lake, the thought of it would give me the shivers. We'll try to step off to the exhibition and avoid such misery entirely.

Mr. James Calder purchased a fine entire horse last spring from Sorby of Guelph. As it was a very fine specimen, the price was no doubt a good one, but a feed of fresh oats last week left it a dead horse, and as there was no insurance it is also a dead loss and he has to be content with the sympathy of his fellow farmers.

Mr. William Moore, of Normanby, has threshed around here for a number of seasons and fell into the good graces of our people, consequently, there's much more than passing sympathy felt for his bereavement in the death of his young son by some mishap with the engine while threshing near Holstein.

We had a look through Mr. James Hopkin's new house a few days ago, and find it a model of cosyness and convenience that should give great comfort. As the mason work is done by Ritchie Bros, and the carpenter work by Mr. James McNally, it requires no further mention, but the material throughout is of the very best. The woodwork is much better than is ordinarily used and comes from Hanover.

The Chronicle last week gave a good account of Mr. Miller's address in Durham as it would appear to an editor, and as some of our people were out to hear him, we will give their opinion as to how his actions in parliament look from a farmer's point of view. He looks just like wild mustard in the crop, presents a horrible appearance to a good farmer but detracts but little from the yield and doesn't do so much harm as one would imagine. His action in taking the thousand dollar extra sessional indemnity, to people of uprightness and integrity, looks bad, but when he explains how few cents per head on the population it is, it appears but a mere item on our crop of debt; also his actions on the Autonomy Bill as he holds up the Christian Guardian to dishonor in Parliament presents to all good people a horrid spectacle and is a picture indelibly stamped in the minds of the people and won't come off yet when he explains that there has been only one Separate School established to four hundred and seven Public Schools it would seem to be a matter of no great im-

port, an Act that nobody wanted and should not have been granted at so great a cost. While his account of himself when Parliament is forming its most important committees would remind one of mustard in fall bloom, looks as if it were the whole crop, but when harvest comes seems to have withered away until almost imperceptible, and when threshed out is found to be the small seed and amounts to practically nothing.

Darkie's Corners.

Once again, Mr. Editor, we take the pencil in hand to jot down a few items for the Chronicle, hoping to find them prove acceptable.

Mr. Stanley McNally is engaged as welder of the birch in Varney School for this term. We wish him success in his new calling as a teacher.

Robert G. Hewitt arrived home Saturday night from Weston, and spent Labor Day with his parents, returning again Tuesday morning.

We regret very much to chronicle the double misfortune which occurred on Friday last in this locality. While threshing operations were in progress at the barn of the late Henry Farr, a spark from the engine ignited the building, and in less time than it takes to tell it the blaze extended all over the building despite the strenuous efforts of the men, and burned it to the ground. The wind which was blowing pretty fresh from the south-west, carried the coals across the road, setting fire to the fine barn owned by Mr. John Staples who had just finished threshing the day previous. Help arrived as quickly as possible but everything being dry, efforts to check the fire fiend proved fruitless and it, with everything in it including hay, straw, and over 2000 bushels of grain were consumed. It was the most dreadful sight ever witnessed in this section and the loss to both of the parties will be heavy. In Mr. Farr's barn basement was a team belonging to Mr. George Aljoe, which could not be got out, and were burned to a crisp. This is certainly a hard thing for Mr. Aljoe. We extend our sympathy to all those who lost in the conflagration.

KEEP THE KIDNEYS WELL

Health Saving Explained by a Durham Citizen Who Knows From Experience.

Many Durham people take their lives in their hands by neglecting the kidneys when they know these organs need help.

Sick kidneys are responsible for a great amount of suffering and ill health.

The reason so many use Booth's Kidney Pills is their quick relief for all Kidney weakness. Here is what a Durham citizen says:—

Mrs. Thos. Wilson, Queen St., Durham, Ont., says: "Occasionally I would suffer with backache. A dull bearing down pain would settle in the kidney region and extend into my shoulders and neck. Headaches and spells of dizziness were frequent and would leave me unable to walk across the floor. Spots would appear before my eyes and leave me in a miserable condition. I had tried different plasters and remedies but could find no relief. I learned of Booth's Kidney Pills through an advertisement and procuring a box at Mr. McFarlane's Drug Store, I commenced treatment. The one box took the pain from my back and strengthened me wonderfully. The dizzy spells and headaches soon had gone and I feel like a new person."

Sold by dealers. Price 50 cents. The R. T. Booth Co., Ltd. Fort Erie, Ont., Sole Canadian Agents.

OXOMULSION GOOD FOR BABY! A thin, puny baby will contract every disease known to infants, for it lacks vitality to stem the tide of sickness. It needs something more than the mother's milk. Doctors know this and recommend OXOMULSION, for it contains the flesh, bone and muscle forming elements so necessary to the growing child. The formula is given with every bottle. Oxomulsion is pleasant to the taste and baby will take it as readily as it will milk. Insist upon having Oxomulsion, for no other emulsion is as good. For sale by all druggists in two sizes, 35c and \$1.00. Prepared only by The Oxomulsion Co., corner Spadina and Phoebe Streets, Toronto. If baby ails, write us for advice.
