The Borden campaign was for honest administration of the public domain and an honest expenditure of the public money. He referred to Mr. Whitney's compaign along the same lines, gave several illustrations, of the mis-government or incapacity of the Liberals, showed how the public were cheated out of their honest rights for the support of the party favorites and party heelers. Very forcible reference was made to the Immigration policy of the Government, and denounced their action in regard to Chinamen and Japs to compete against our own workmen. He spoke of the general depression, mills operating on short time, factories idle
