Let us show you how easy it is to shake the "Hecla" Furnace

The "Hecla" has four grate bars. Each one can be shaken separately. This means that you can shake down just the part of the fire where the ashes are, without disturbing the rest of the coals.

With "Hecla" Triangular Grate Bars, you can get rid of all the ashes—save coal—keep the fire bright and clean—and do away with sifting ashes, because no fresh coal or half-burnt clinkers come down in the ashpan.

We would be pleased to talk over the furnace question with you and show you, part by part, just why the "Hecla" Furnace is the best for you to buy.

Made by the makers of "Peerless Petroleum" Ranges.

Breath Help For Catarrh.

Druggists in Durham Are Having Splendid Reports From Hyomei Users

It's the poison germs in the air you breathe that creates and feeds catarrh. Hyomei simply catches these germs on their way to work and destroys them.

This makes the air you are breathing inward helpful, it goes on its way through the air passages, bronchial tubes and lungs charged with germ destroying power that cannot be resisted, it soothes and heals the wounded and inflamed membrane.

That is why Hyomei is so instantly helpful for any distress of the breathing organs, colds, croup, bronchitis, asthma or dreaded pneumonia, they are the germ like that Hyomei kills.
