What might have resulted in a serifire was happily averted at the for him ever success. McKenzie property, on Lambton St., Thursday last. It is supposed some dry leaves, which took fire spread with great rapidity. hough discovered almost immediateit took several buckets of 'water to quench the flames. This should

Monday night was a bad one for me of our local dreamsters; at least we are forced to this conclusion from e yarn that was circulated on Tuesday morning that the large barns beiging to Chas. Lawrence and George off, two miles west of here, had been destroyed by fire the night before. Of curse the Chronicle's representative immediately got ready for action, but had not proceeded far on his way when he met an earlier bird, who was returning from the scene, and who imparted to him the information that he s "stung." It was a pleasant disappointment, too, and though we always like to see everything that is going on and get full particulars, we let much happier on the return jourwilling to be "stung" again in the same place, though we hope the fiery illucinator will next time choose a fferent section of the country, that nowledge of the country.

out the window, a member of the fires at the present time. amily observed smoke issuing from the building. The boy ran to the barn Bench them. The horse, instead of imping back from the flames leaped that seems to work out in the case. Mr. Collier had not been near the and his son does not smoke. It a close call, anyway, and from
