Bad Accident

Last Friday while engaged in veneering Mr. Ignatz Schaefter's house the scaffolding collapsed and Mr. Joseph Obrecht and Mr. Schaefter were precipitated to the ground a distance of eighteen feet, with the result that Mr. Schaefter is nursing a hand and Mr. Obrecht a broken rib. They were both fortunate in escaping as well as they did .- Bruce Herald.

A Curious Freak.

Last Monday Graham Patterson of Shelbourns, brought three small carrots into this office. There is nothing remarkable in the carrots thefmselves, the peculiar feature in connection with them being their fold decorated 7-piece glass water | perferation by the rots of a species of vegetation called quack grass. The roots are about a sixteenth of an inch in diameter and they seem to have had no difficulty in making.

At this point her hu-band suggested to try to have had no difficulty in making their way through the carrots. It

Mt Forest Man Injured

On Thursday of last week as Mr. Alex, Wilson, day engineer at the Debility.' power house, was standing on a 7 foot step ladder tightening a nut on a shaft, the ladder collapsed, throwing Mr. Wilson heavily on the cament floor. Troubled With Gas.

The town clerk's office in the mar ket building is liable to discharges of sewer gas, and yesterday was one of the occasions on which it was particularly bad. The presence of the gas is explained by the circumstance that when the heating furnace was put in the building some of the chimneys were put out of commission and ex-Fire Chief 'W. A. Howard roofed one over into which a ventiof stock in Durham Cement Co., placed in lation pipe was conveyed. As the egress of gas was thus shut off, it naturally finds its exit through the easiest channel, which appears to be through the traps of the plumbing into the building. Whenever the time to grab the tail board of the two previous ones proved fatal and C. L.
