

Saved My Life!
COULD SHE SAY MORE?

I gave my life to PSYCHINE, what testimony could I possibly give? Mrs. Wm. Wilson, of Essex, August 21, 1908, was in response to an inquiry from the Dr. T. A. Slocum, as to whether the remarkable testimonial given by Mrs. Wilson, 27, 1904, still held good. As she said, "Some twelve years ago I was taken ill with a severe cold. Night after night I was unable to sit up all night to relieve the pain in my lungs. For weeks I doctored continually with different doctors, but received no benefit. A friend advised me to try your medicine, and I did so. Two months from taking PSYCHINE I gained 30 pounds, and my health grew better and in a short time was quite well. To-day I am a woman and owe my life to Dr. Slocum's medicine."
PSYCHINE is indeed a Health giver, the Greatest of Tonics, containing the most valuable Life-Giving properties. A Free Trial and mention this advertisement. PSYCHINE is sold by druggists and stores in bottles, 50c

A CORRECTION.
A few weeks ago we gave a report of the Council. In one item it was stated that Mr. Grierson was paid for setting and inspecting work. It should have been \$1.00 instead of \$10.00. We intended to make the correction in the last issue, but in looking over the minutes we found that we had followed copy correctly. We are sorry to tell Mr. Grierson that we were not ours but forgot to mention it in the Chronicle about it. We received notice from the clerk, and in Justice to Mr. Grierson we cheerfully rectify the error. It was evidently an oversight on the part of the one who sent the minutes to us.

Deafness Cannot be Cured
Applications, as they can reach the brain of the ear. There is only one cause of deafness, and that is by constipation. Deafness is caused by an inflamed membrane lining the Eustachian tube in the ear. When you have a cold or imperfect hearing, and when the deafness is the result, and inflammation can be taken out and restored to its normal condition, hearing is regained. One case out of ten cured by Catarrh, which is nothing but an inflammation of the mucous surfaces of the ear. One Hundred Dollars for any case (caused by catarrh) that cannot be cured by Catarrh Cure. Send for circulars.

DURHAM'S NEW RINK

Hats off to Joe Brown! For a decade past, Durhamites, old and young, have been clamoring for a new rink, and although on several occasions a move was made to have a modern skating edifice erected, the "move" fell through, and it remained for Mr. Brown to become the town's benefactor. Not only has he erected a rink, in the ordinary meaning of the term, but a building, that, inside and out, is one any town might well be proud of. Over two hundred feet in length, and seventy-five in width, the building contains a skating surface of regulation size, 160x90, and has two rows of seats the entire length on both sides, and seven rows across the farther end. The seating capacity is over 600. Cosily fitted up ladies and gentlemen's dressing rooms, club rooms, etc., make it one of the best skating rinks in the province.

The Town Council met on Tuesday night and wound up the business of the year. At the close, Mayor Calder addressed the Council and thanked them for the very cordial support given him during 1908. He referred also to the large amount of work done and the large amount of expenditure incurred during the year just closing. At the close of his remarks he invited the members of the Council and the town officials to spend the remainder of the evening at his home, where a very sumptuous dinner was served, and where all enjoyed themselves until shortly after midnight. At the session in the hall, a proposition from a manufacturing concern was read by the Mayor. The concern referred to made what appeared to be a very good proposition to locate here and establish their industry, which would employ constantly from 20 to 40 hands. They proposed to buy out the old Cream Separator building at a nominal price and invest about \$20,000 in the industry on certain conditions that will be referred to later on. The Council looked favorably on the offer and appointed a deputation to go and investigate their present business with a view to bringing in a report and placing the matter before the town if its apparent advantages would justify them in doing so.

The Morley Twine Co., of Sioux City, in which Messrs. James and Alex. Allan, W. G. Pettigrew and Archie Baird have been engaged for some time, has enlarged the capitalization from \$200,000 to \$500,000. These gentlemen intend to return again shortly and continue their work.

We referred briefly last week to the illness of Mr. Edward Lynn, of Allan Park, but a resident of Oliver township, about eight or nine miles from Murillo, during a portion of each year from the past three or four years. He was down here in the fall, and five or six weeks ago left for the winter, intending then that it should be his last season there. A telegram to his wife at Allan Park a week ago Thursday announced his serious and sudden illness, and she immediately set out to see him, reaching there on Sunday night. The following Thursday morning he died. The remains reached Allan Park on Saturday night, and were interred in Hanover cemetery on Monday forenoon. He was 60 years of age, and leaves a widow, four sons and two daughters. We have been expecting an obituary notice from his brother, Mr. Geo. Lynn, of Leamington, which will likely appear next week, and for this reason we say no more at present.

Mr. J. C. Nichol had quite an exciting experience on Tuesday morning, when his handsome sorrel driver, in crossing the sidewalk west of the Middaugh House stables, gave a sudden lurch, and snapping the whiffletree and freeing himself from the cutter, started on a merry-making trip of his own. As a truant, however, the horse was not a success, and, after a short run south on Albert street, he gave himself up to the authorities near the cement works. Happily, not much damage was done, though had the animal not parted with the cutter at the very start of the accident, we might have a different story to tell.

Shortly after six o'clock on Monday evening, fire was discovered in the Hahn House furnace room, which, thanks to the prompt action of several of the guests, was soon extinguished before much damage was done. The origin of the blaze is a mystery to Mr. Hahn, who had been down to the furnace a short time previously, when everything appeared safe as usual. The only explanation he can make is the presence in the room of a box of lime, which, he thinks, ignited the cedar by having become saturated with condensed steam when the boiler was blown out that afternoon. Mr. Hahn naturally feels grateful to those who helped in quenching the flames, which, with a few minutes more of a start, would, in all probability, have laid his hostelry in ashes.

There are people in town who are charged with selling cigarettes to the minors, and there are boys under age in town that smoke cigarettes. Both are liable to a fine, and the law has been handed in to us for publication as a warning. It will appear next week.

Elsewhere in this issue will be seen a notice of a Dividend of 7 per cent. to be paid to holders of common stock in the Durham Furniture Co. Congratulations to the Board of Directors, and also to Mr. Catton, whose efficient management has brought about such good results.

The Horse Fair on Tuesday was a great success if we are to judge by the number of people in town. A number of animals were purchased, we understand, and other similar fairs are likely to follow. We believe Mr. Wm. Black was the prime mover, and he deserves credit for taking the initial step in what may grow into greater importance. Some of the farmers, we are told, have expressed a wish to re-establish the old system of holding monthly cattle fairs.

Mount Forest Business College has the proud distinction of placing all its graduates in good positions. Consider this when selecting your College. We know of several who have passed through this College to good positions and are informed that as Mr. Clancy, the Principal and proprietor, is a teacher of experience and superior education and gives all his time to teaching his students, the demand for his graduates is much greater than the supply. College opens January 4th.

We congratulate Mr. Wm. Ramage, who is the only exhibitor we have heard of from this locality who took prizes at the Winter Fair at Guelph last week. His prizes in this neighborhood must have been well deserved as he got first in Guelph for peas and second for hand selected oats. Should the competition from here become more general, Mr. Ramage will have the proud distinction of being the pioneer exhibitor. The prizes amounted to about \$16.00. There will likely be others next year.
