Rev. Mr. Boone, of Ridgetown, preached anniversary services in the Baptist church on Sunday last, morning and night, and delivered a lecture on Monday night.

An organ recital, under the auspices of the Guild, will be given by Mrs. Newton in the Presbyterian church on Tuesday evening, February 1st, commencing at 8 p.m. In addition, a musical program will be rendered. Admission 25c.

We sympathize with Mr. and Mrs. Wm. Pettigrew, of Holstein, whose severe affliction by the death of their son is now weighing heavily upon their distressed minds. Our Holstein correspondents give particulars.

Since the first of December, W. J. McFadden has sold the car load of Doherty pianos and organs he received at that time and has another shipment on the way. This speaks well for his business ability as well as for the goods he is selling.

A branch of the Traders Bank of Canada has just been established at the Union Stock Yards, Toronto, and will be open for business on market days. Drivers may exchange their cheques at this branch for safety cheques, payable at their home towns.

We have just learned of a sad accident that happened recently to the eight-year son of Adjutant Wiggins, of Traverse City, Mich. When coming home from school, and crossing a railroad track, a standing car was suddenly shunted backwards and knocked down the little fellow. His hand lay across the rail, and the wheels passed over it, crushing it to a pulp. Amputation above the wrist was necessary. The lad is a grandson of Mr. and Mrs. Oliver Wiggins of this town.

On Friday evening last, Mr. and Mrs. R. J. Douglas entertained a number of friends at their home on Garafra Street, the occasion being a reception party given to their daughter, Miss Mamie, who was recently married in Toronto to Mr. J. E. White, of that place. Guests to the number of about thirty were invited, and the evening was very pleasantly spent in games and other recreations. About the midnight hour, the party sat down to an elaborately prepared table of good things, to which all did ample justice. The supper and recreations over, the guests departed, but not before extending to Mr. and Mrs. White their hearty congratulations, and expressions of gratitude and appreciation to the host and hostess for the pleasant and sociable evening they had prepared for them.

A few remarks in reference to the protection of the public from contagious diseases, may not be out of place at this particular time. The following infectious diseases must be reported within 24 hours to the Medical Health Officer by the attending physician, viz: Small-pox, diphtheria, scarlet fever, whooping cough and cholera, and must be placarded. The following must be reported, but are not placarded, viz: measles, typhoid fever, subject, in default, to a fine of \$20 and costs, in the discretion of the convicting justice or magistrate. Household holders knowing or being suspicious of any of these diseases and not complying with the law, are equally liable. A report to the Medical Health Officer by telephone or post card is not sufficient. It must be on regular form for reporting such diseases, giving full particulars.

The Jackson farm was sold last week to the Durham Furniture Co. through the agency of W. F. Dunn, and since then, the land, minus the timber, has been sold to A. S. Hunter.

The Chronicle has installed a new Eclipse folding machine. It was used last week for the first time, and did its work well. It will be a time saver in the rush of work on press days.

Special C. P. R. excursion train leaves Durham for Hanover at 7 o'clock. Return fares: From Durham, adults 55c; children 30c. From Allan Park, adults 25c; children 15c. Train leaves Hanover on return trip at 11 o'clock.

Mr. C. M. Blyth, of Orchard Road his six hundred acres in the township of Normanby for the sum of \$20,000. The purchaser is Mr. Geo. Seim, of Ayton, who is said to have made a good bargain. Mr. Blyth owns nothing now in the shape of real estate.

Rev. W. L. Newton met with an accident on Thursday last which will interfere with his usual activities for a couple of weeks or more. He was driving out to Glenelg Centre, when he met a team with a load of logs. He turned out in the usual way, and as he was passing, the load slewed and broke three or four of his ribs. Though suffering considerable pain, Mr. Newton isn't the kind of man to give up, and he'll soon be round again.

A Sunday school Institute was held in the Methodist church here on Tuesday. It has been arranged to hold four such Institutes at prominent centres in the District. This was the first of the series. At the afternoon session the pastor of the church occupied the chair, and Rev. Geo. A. King, B.A., of Holstein, discussed the Superintendent problem under various aspects. This was followed by an able address by Rev. A. J. Irwin, B.A., B.D., of Mt. Forest, and a good practical talk on the Teacher problem by Rev. A. E. Eddy, B.A., B.D., of Clifford. At the evening session, Rev. Mr. King presided, and Rev. Mr. Irwin spoke on "The Gospel our present studies" and Rev. Mr. Eddy on "Children, Parents and the Church." The unfavorable weather prevented many from a distance participating in a helpful gathering.

A scrutiny of the ballots in the McGowan By-law has been demanded. The name of James Falckingham has, we understand, been used as the complainant, while Reeve Calder and A. S. Hunter are sureties for the costs. The by-law was declared carried by a very narrow majority, and the scrutiny may result in its annulment, which to our mind would be detrimental to the interests of both town and surrounding country. Every going concern is a benefit to a town, and though very little employment would be required to operate the mill, it would create a market for oats that would bring farmers to the town, and draw business that will otherwise go elsewhere. As the matter now stands, either the town or the sureties will lose money over it, and it's quite safe to say that Mr. Calder and Mr. Hunter will fight to the last ditch to save their deposits. They have a good chance to win out, but the town as a whole is likely to suffer the loss.

PHILEMOTOLOGY.

That's the big word that Rev. Mr. Boone used as the title of a lecture he delivered at the anniversary services in the Baptist church on Monday night. It was a new word, and the society editor of this paper as well as a number of other highly educated denizens of the town sought in vain to find it in the big dictionaries. In his introductory remarks, the reverend gentleman explained where he got hold of the unfamiliar title, and undertook to show by several well put illustrations, that after all there is something in a name. In due course of time it was evolved that Philemology had a meaning that was akin to the familiar and highly developed art of osculation, which explanation didn't even yet give much light to some of the audience. When the word "kissing" was substituted for osculation, the young folks began to prick up their ears and open their eyes to hear and see if they could learn anything new from the merry looking divine. Some of us worldly chaps thought we knew all about the business, but, to be honest, the preacher had us outclassed so far that a crimson tinge of shame was visible in many when they discovered their ignorance of real osculatory accomplishments. The address showed humor, pathos, comedy, tragedy and treachery as Mr. Boone proceeded to describe and explain the various kinds of kisses mentioned in the Bible, in literature, and in poetry. Though humorous at many points, there was more real sense in it than many would give it credit for. Mr. Boone is quite an entertaining speaker, and at some parts of his address became quite eloquent. Only those poor unfortunates who were never kissed should feel uneasy in listening to the address.

When you go to the country take a tin of Davis' Menthol Salve along. It is unequalled to relieve earache, sprains, burns, cuts and bruises. 25 cents.
