To Rent.

A GOOD HOUSES FOR RENT.—Apply to J.M. Latimer. 4137

Moosemin.

There are three things that Moosemin is distinguished for above any town of the same population in Saskatchewan, viz education, local option, summer and winter sport. I should also include the Band, which is the delight of the young people several times a week at the rink.

In the matter of education, there was opened to-day, the Collegiate Institute, a fine brick building of ten rooms, costing about \$30,000, which will be devoted to first year University work, high school branches and Normal training. Our public school is about the same size, with a full staff of teachers.

Local option goes in force on the first day of July, when the "water wagon" will replace the bar in our anniversary celebration of the birthday of our fair Dominion.

The council being in sympathy with the "drys," and our mayor, Mr. E.L. Elwood, whose vote on the by-law is known only to himself is a gentleman whom the citizens respect and have confidence in. It will see to it that the letter, and we are looking forward law is enforced and not a dead to a model town where people would want to live, educate and bring up their children to become good men and women and take their place with credit to themselves and the town, in helping to develop and uplift their country, in whatever part of this great land their lot may be cast. Had Ontario the opportunity we have in the West on this temperance question, when a majority vote, for or against, settles the matter, the liquor men would have to sit up and think, but with the three-fifths clause they have the advantage of "loaded dice" and the law should be amended at the first opportunity.

Clean sport, last but not least by no means, goes with these others in the making of healthy, vigorous and manly boys, when they go out in the world, can take the rough with the smooth, and face life's battle with a greater determination than the molly-coddies who have no grit in their make-up.

And for winter sport come to Moosemin, the leading place in Saskatchewan for curling, skating, and hockey, where the Normalites, using the stick in one hand, play the High School girls' team on Saturday afternoon. I fancy the "budding dominies" will be white-washed.

Moosemin puck chasers are now in senior company with Regina and Moosejaw, the two largest cities in the province, and before a packed rink here on the 7th they defeated the latter 7-6, which is a crack team, with several professional players, including Hugh Ross, (a star) who is now on the way to Ottawa with the Edmonton players to measure sticks with the champions for the Stanley Cup.

But oh! what a difference when the westerners will meet our boys on their big ice in the return games. The scene may change. As everyone knows, this has been a prosperous year in the West, and the farmers are enjoying their well-earned reward, having plenty of cash, they are gathering around them comforts and conveniences they never dreamed of a few years ago, but we are not getting any too much of the good things considering the weather that has fallen to the dwellers of the prairie; for the past five or six weeks, except a few days at Christmas, it has been simply horrid, but when things are at their worst, they must mend, and to-day is mild, bright and clear, a very acceptable change and big saving on the coal bill.

I have heard of no suffering in these parts, but in the newer districts, several lives were lost. I notice that you are having a plentiful supply of the "beautiful," and enough frost to give your hockey players an opportunity to win their first game against the "Wavers" of Paisley. J. C. JOPP.

NEBVOUS PROSTRATION.
Indigestion Causes It—Mi-o-na Will Cure It.
If you have indigestion you don't get all the nutriment out of your food that you should. Your worn-out stomach passes the food on without extracting enough nutritious substance to supply the blood and nerve. And if the nerves are not supplied with nutriment they begin to rebel. They kick up a great disturbance. They make you irritable and cranky, you worry about trifles, and you cannot sleep soundly at night, you have bad dreams, and you get up tired in the morning.

Try Mi-o-na tablets, the money back cure. Mi-o-na will cure your nervousness by driving out the cause. Mi-o-na will give you relief the first hour. It will cure acute cases in a few days, and chronic cases in a few weeks. Belching of gas, heartburn, sour taste of food, waterbrash, foul breath and other dyspeptic symptoms vanish before the mighty power of Mi-o-na.

Try Mi-o-na, Macfarlane & Co. sell it and will refund your money if it doesn't cure, and only 50 cents a large box.

HYOMEL
(PRONOUNCED HIGH-O-ME)
CURES CATARRH, ASTHMA, Bronchitis, Croup, Coughs and Colds, or monev back. Sold and guaranteed by MACFARLANE & CO.

SOUTH GREY FARMERS' INSTITUTE

A Fair Attendance of Interested Farmers' Listen to Profitable Address.

Woman's Institute Growing Rapidly in Numbers and Influence.

EXCELLENT ADDRESS AT NIGHT SESSION

The Farmers' Institute held their regular annual meeting in the town hall here on Thursday afternoon and evening of last week.

The president, Mr. D. Edge, and the secretary, Mr. Geo. Binnie, occupied their positions at the table and discharged their duties ably and efficiently. We always feel a regret that a larger number of the farmers are not present at these annual gatherings. Many interesting and profitable remarks were made that must be heard to be appreciated. The delegation this time consisted of Mr. Murphy, of Rosemont, county of Simcoe, Mr. Nash, of Toronto, and Mrs. Woelard, of Forest, who lectured at the Women's Institute in the afternoon and at the general meeting at night.

Mr. Nash was the first speaker at the afternoon meeting and the topic on which he spoke was "The Value of Our Birds." He regretted very much the destruction of the birds, nearly all of which were the friends of the agriculturalists in the destruction of the insect pest with which we have now to contend, and whose ravages we have difficulty to overcome, and in some cases find ourselves powerless to eradicate.

Mr. Nash was advertised as one of the foremost naturalists in Canada, and his clear familiarity with the subject led to many astonishing revelations that were seldom or never thought of by the members of his audience. The hawks and owls, so common in this country thirty or forty years ago, and regarded as enemies of the farmer because they killed an occasional chicken, were the benefactors of the agriculturalist in destroying the mice which caused so much destruction when blotted to multiply. They were few now nearly all shot off.

The white grub, cut worms and wire worms were very destructive to the growing crops. Their enemies were the robins, thrushes, meadow larks, and even the crows. The extermination of these natural enemies of grub life permitted much loss to the growing crops that would otherwise be averted. The borers in trees had their enemies in the woodpecker and the sapsucker, but these great human benefactors were being rapidly destroyed, and there was nothing to destroy the ravages of the borers in our fruit and other trees. Even in the city of Woodstock four thousand maple trees had been ruined by the work of the borers.

"Every plant," Mr. Nash went on to say, "is infested with a variety of insects, but nature has provided a large number of birds to keep them in check. All birds feed their young on insects, and an instance was given of a young robin weighing only three ounces devouring over five ounces of grubs in a single afternoon. Such insects as the mosquito and the Hessian fly are destroyed by swallows.

There are too many weeds on the farm. Some birds feed on weed seeds only, and the destruction of such birds give the weeds a chance to multiply. The whole address was full of interest, and was delivered in such a manner as to be not only profitable but entertaining as well. Mr. Murphy of Rosemont, gave an address on "Seed Selection" which contained a number of valuable hints.

To prevent smut, the formalin treatment was successful in every case, and might be used with profit in all kinds of seed. He recommended the sowing of large seed in every case, even to the planting of large potatoes where a good crop was to be expected. It was a mistake to use small seed, even if plump and heavy. He showed that experiments were used. Sprouted seed should not be sown. Even the slightest indication of sprouting resulted detrimentally, and greater danger of sprouting much more in proportion. Broken grain was no good for seed, and should be removed. He thought it was a good plan to select next year's seed from the best developed crops of this year's harvest. It might be that patches of high land would have to be selected, and the grain kept and threshed separately. If not so selected, the good and inferior grain of the same field would become mixed in the threshing and as successful a selection for seed would be afterwards impossible.

He recommended the sowing of mixed grains, but the seed should be grown separately, and the best of each kind selected and mixed before sowing. It was not well to use the yield of a mixed crop as seed for the next sowing. If barley and oats were mixed for one year, the crop produced should not be taken for the next seeding. The night meeting was opened at eight o'clock with Mayor Laidlaw in the chair. He congratulated the farmers on the many successful conventions held in Durham, and extended them a hearty welcome to the town. He could look back to twenty years ago, when he was first elected Mayor, and according to the still continued custom, he was chairman at a Farmers' Institute meeting. He hoped all present would enjoy themselves in a becoming manner and wisely intimated that he would (Continued on page 6)

Blyth's Corners.

Mr. Percy Cornish has purchased the 200 acre farm from Mr. John Calvert, (better known as the McGrath farm) for the sum of \$7500. Pete is an old Normanby boy, and after having a few years' experience at farming in Egremont, has wisely decided to return to old Normanby again, where the people make "progress and contentment" a specialty.

Mr. Donald McIlvride butchered a sow on Tuesday last which, after being bled and scraped, tipped the scales at 708 pounds.

At the annual school meeting held in S.S. No. 14, D. McIlvride, retiring trustee, was re-elected again, and also as secretary-treasurer. Mr. Philip Weltz was elected trustee in Mr. Adam Keller's stead, who retired. Mr. John Sharp and Jas. Peter were elected auditors.

Mr. Chas. Blyth, of Morden, is up at and around the Corners looking after the business of the Colin Blyth estate, which he some time ago offered for sale.

Another of the few remaining pioneers passed away to her reward, on Monday, December 20th, in the person of Mrs. Mary Stewart, widow of the late Geo. Stewart, of Normanby, aged 80 years. Deceased, with her husband, were among the earliest pioneers of this neighborhood, where together they labored and toiled with that untiring energy and pluck so characteristic of "the faithful pioneers" with the result that sufficient of this world's goods were provided to enable her to live in her declining years with comparative ease and comfort. The deceased had retired from activity on the farm a number of years ago, and has resided with her daughter, Jeannie, in Holstein. An unusually large family were born unto them, quite a number of whom are dead and the rest, with the exception of Andrew, who is living on one of the homestead farms, are scattered all over the Dominion.

The remains were interred in Maplewood cemetery, services being conducted by her pastor, Rev. Mr. Little, in the Holstein Presbyterian church and at the graveside. To the sorrowing relatives, we extend our sympathy.

Thoughts of Christmas turkey and cranberry sauce, Dad, and Mam, brother and sister, and a frolicsome good time in the "good old house at home," induced Misses Clara and Mammie Hoelien, Olive and Mary Thompson and a gentleman friend, all of Toronto, and Mr. Wellington Thompson, of Mt. Forest, to spend Christmas at and around the Corners.

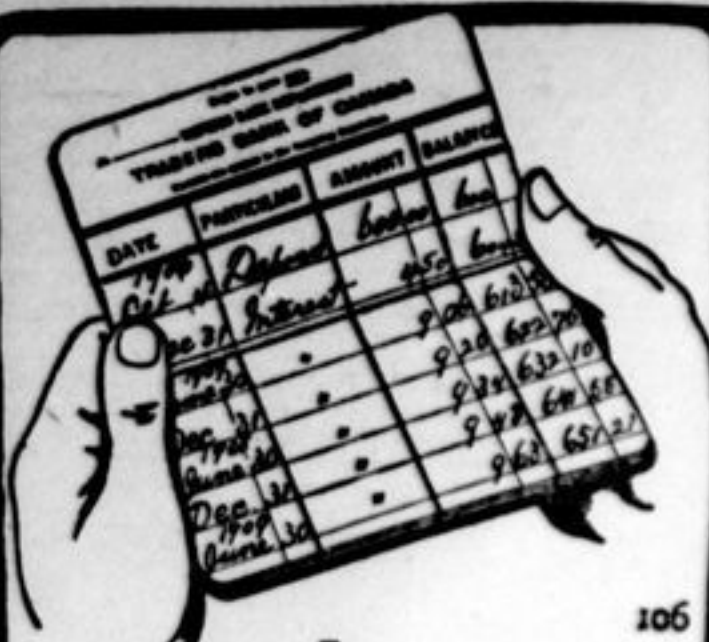

Mr. Wm. Shaw, of Michigan, spent Christmas with his uncle, Mr. Samuel McGowan, and left again for his home on Tuesday.

As Unexpected as Burglars.

That's the way cramps come—strike without warning. Nothing so sure to instantly relieve as Neville's—just a few drops in sweetened water is all that's required to stop the pain. Neville's is a true comfort to every family, for a stomach and bowel derangement it is an absolute specific. Guaranteed to have at least five times the strength of any other pain relieving medicine—perfectly safe, pleasant, and useful for all terminal pains too. For a reliable household medicine—case, Neville's supplies all that's necessary. Large 25c. bottles sold everywhere.

COUNTY COUNCIL FOR 1910
