70 Years with Coughs

We have had nearly seventy years of experience with Ayer's Cherry Pectoral. That makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. Ask your own doctor what experience he has had with it. He knows. He can advise you wisely. Keep in close touch with your family physician. No alcohol in this cough medicine. J.C. hens lay in winter, increasing the yield of milk five pounds per cow a day, or restoring run-down animals to plumpness and vigor. When you feed "stock food" to your cow, horse, swine or poultry, you are merely feeding them what you are growing on your own farm.

Your animals do need not more feed but something to help their podies get all the good out of the feed you give them so they can get fat and stay fat all year round; also to prevent disease, cure disease and keep them up to the best possible condition. No "tock food" can do all these things. ROYAL PURPLE STOCK SPECIFIC can and does. It is Nota "Stock Food" But a "Conditioner"

ROYAL PURPLE STOCK SPECIFIC contains no grain, nor farm products. It increases yield of milk from three to five pounds per cow per day before the Specific has been used two weeks. It makes the milk richer and adds flesh faster than any other preparation known, Young calves fed with ROYAL PURPLE are as large at six weeks old as they would be when

plumpness almost magically. Cures bots, colic, worms, skin diseases and Dan McEwan, the horseman, says: "I have used ROYAL PURPLE STOCK SPECIFIC persistently in the feeding of 'The Eel,' 2.021, largest winner of any pacer on Grand Circuit in 1908, and 'Henry Winters,' 2.091, brother of 'Allen Winters,' winner of \$36,000 in trotting stakes in 1903. These horses have never been off their feed since I commenced using Royal Purple Specific almost a year ago, and I will always have it in my stables."

One 50c. package of ROYAL PURPLE STOCK SPECIFIC will last one animal seventy

days, which is a little over two-thirds of a cent a day. Most stock foods in fifty cer is given but once a day, and lasts half again as long. A \$1.50 pail containing four times the amount of the fifty cent package will last 280 days. ROYAL PURPLE will increase the value of your stock 25%. It is an astonishingly quick fattener, stimulating the appetite and the relish for food, assisting nature to digest and turn feed into fiesh. As a hog fattener it is a leader. It will save many times its cost in veterinary bills. ROYAL PURPLE POULTRY SPECIFIC is our other Specific for poultry, not for stock. One 50 cent package will last twenty-five hens 70 days, or a pail costing \$1.50 will last twenty-five hens 280 days, which is four times more material for only three times the cost. It makes a "laying machine" out of your hens summer and winter, prevents fowls losing flesh at moulting time, and cures poultry diseases. Every package of ROYAL PURPLE STOCK SPECIFIC or POULTRY SPECIFIC is

dust use ROYAL PURPLE on one of your animals and any other preparation on another animal in the same condition: after comparing results you will sayROYAL PURPLE has

and poultry diseases, containing also cooking receipes and full particulars about ROYAL PURPLE STOCK and POULTRY SPECIFICS.

If you cannot get Royal Purple Specifics from merchants or agents, we will supply you direct, express prepaid, on receipt of \$1.50 a pail for either Poultry or Stock Specifics. Make money acting as our agent in your district. Write for terms.
