

Galvanized Rust-Proof- But Won't Scale

Extreme weather changes in Canada is the reason why so much Wire Fence rusts about 12 or 15 years sooner than it should.

Nearly every Wire Fence is Galvanized too thinly to fight off the result of these weather extremes.

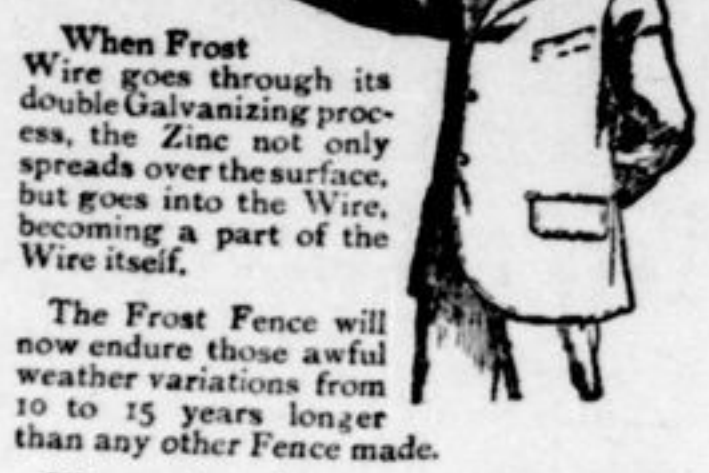

Two-thirds of the life of a Wire Fence depends upon its Galvanizing. Yet, because Zinc costs four times more than steel Wire, much wire is wiped almost clean of its Galvanizing.

And, besides this, nearly all Wire is merely "coated" with Zinc. This "Coating" will peel off years before the Frost Fence begins to even show signs of wear.

You see, all Wire, because of its process of manufacture, has a greasy surface. This dirt and scale must be thoroughly removed before Galvanizing will stick.

But Frost Wire goes through three different "Pickling" and "Cleaning" processes before it ever sees a Galvanizing Furnace.

These three critical Cleanings clean the surface of Frost Wire as clean as a pin. This enables Frost Wire to be Double-Galvanized, without fear of peeling off.

When Frost Wire goes through its double Galvanizing process, the Zinc not only spreads over the surface, but goes into the Wire, becoming a part of the Wire itself.

The Frost Fence will now endure those awful weather variations from 10 to 15 years longer than any other Fence made.

We are the only exclusive Fence makers in Canada who Make and Galvanize Wire. The Wire formerly used for the Frost Fence was made under our own specifications. It was the best we could buy.

But we know that we could make better, so we built and equipped our own Mills. We are now making the best wire ever used for a Fence in Canada.

A Frost Fence will last from 10 to 15 years longer than any other Fence we know of.

Write today for free booklet and samples. The Frost Wire Fence Co., Ltd. Hamilton, Ontario Agents Wanted in Open Districts.

HOCKEY

It was a jolly and boisterous crowd of good-natured rooters that shelled out their shillings and climbed aboard the hockey club's special train for Hanover on Friday evening, and cheered their favorites through to victory by four goals to three. For many moons, there has existed between this oasis in the desert, and the German haven of rest across the way, a keen rivalry in all sports, which was in no wise appeased last winter when the Durham puck artists trimmed them on their own ice. The outcome was that Hanoverians were anxious to redeem themselves on their own fishpond, and Charley Coppinger's braves put on their boldest front and strongest line-up to do the trick. And in the first half, they certainly did, for when the bell tingled for half time, the "Flying Dutchmen" were three goals to the good with Durham still to get some.

But with the opening of the second half came a different tale. Though the Durhams had not been giving away any goals to their Hanover brethren, they did not play their best game in the first session, and Hanoverians were soon made aware of that fact when the second half opened, and the Durhams came onto the ice to win or know the reason why.

It was 9:28 when referee Beatty, of Chesley, called the teams to position for the second thirty minutes of play, and just four minutes later when Falkingham tallied for the locals on a short shot in front of the goal. Three minutes more saw Cowan drop in another one, and while it took Saunders eleven minutes more to score again, the puck was almost continuously in the neighborhood of the Hanover nets. The last goal, the fourth, was scored by Lavelle in twenty minutes of play. During the whole of the second half, there were only four shots on the Durham nets, and the Hanoverians were, so to speak, played off their feet and were unable to tally, the full time score standing Durham 4, Hanover 3.

This Friday evening, however, promises to furnish possibly the best game of hockey ever played on Durham ice, when the Chesley team meet the locals for the first

time. The Chesley team is a strong one, and defeated Hanover in Hanover on New Year's by five goals to three. They are bringing down a train load of rooters and a brass band, and have reserved half the rink to see their favorites win. But the Durhams say no, and they mean it, too, and are prepared to back up their negative with the best game of hockey they ever played. If you like the sport, this game of hockey will appeal to you, and will be well worth seeing. The game is called for 8:30, sharp.

The Flesherton juniors were defeated on the rink here on Tuesday evening by 5 goals to 0. We tender sympathy to the Advance man, who has not even the other fellows' referee to fall back on. Don't worry, old boy, we'll send a wreath to your funeral if the shock cracks you out.

Hampden. Mrs. A. Clemmens, who has been visiting for the past three months with her brother, Mr. Jas. Byers, and sister, left for her home in Stoughton, Sask., on Saturday last.

Miss S. Anderson is spending a few months with her niece, Mrs. Rev. John Munro, of Grand Valley.

Miss May Kaisley, who has made her home with Mr. and Mrs. Andrew Fulton for the last two years, returned to her home in Toronto. Miss May made many friends while here, and will be much missed in the choir, for she possessed splendid vocal talent. We hope that she will again visit Hampden in the not too distant future.

Mr. Austin Derby, who is attending the Mt. Forest Business College, spent Saturday and Sunday at his home here.

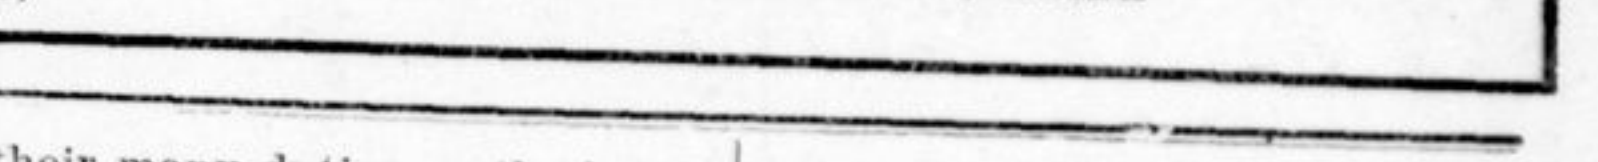

Messrs. Archie Park and James Mather each disposed of one of their horses to Mr. W.J. McNally, of Walkerton, who is buying a car load in this end of the county to ship to a Swede settlement in Saskatchewan.

Your Fingers, Madam, are First to Touch Five Roses

Last week at a five o'clock tea a young hostess exclaimed: "I do love to make cake; it makes my hands so clean!" And she ate her cakes alone. Did you ever consider, Madam, why the best surgeons wear rubber gloves when performing a critical operation? They say it's impossible to so wash the hands that they will be absolutely free from danger of germ infection. How many hands, think you, have handled the flour you are NOW using.

Out in the sun-flooded Kewatin mills, Mistress Housewife, we make a flour which never comes in contact with hand or finger. "FIVE ROSES" is its name. It is made in an automatic water-power plant, under the eye—but not under the hand—of experts with 21 years of "know-how" behind them. From field to sack and barrel every bit of machinery that FIVE ROSES touches is bright and polished like those piano keys of yours.

Then the fleckless purity in preparation, Madam. Special devices exclusive to FIVE ROSES are employed so that no hand need touch your flour. It is hand proof—germ free—pregnant with health and wholesomeness. Different from any other flour made, you see. For nearly one mile FIVE ROSES travels through hygienic automatic processes, getting cleaner and finer, until in the cheery packing room it flows into sacks and barrels of our own make. Here likewise purity is paramount, and the high-grade packages are filled full-weight and sealed by automatic machinery.

LAKE OF THE WOODS MILLING CO., LTD., MONTREAL

ed their many duties as the building committee, in the repairing of the church last year. After the general business was transacted, supper was served in the basement. Mr. John and Miss Jennie Cooper, and Mr. Jas. Byers and sisters, spent an evening last week at "The Maples."

Mr. and Mrs. Jas. Mather entertained a few of the young people one evening last week. We are glad to report the improvement in health of Mrs. Wm. Sharp, who has sufficiently improved to not need further medical attendance, and Miss Lloyd, the nurse, has returned to the Fergus hospital.

Miss Halpenay, our teacher, spent Saturday the guest of her uncle and aunt, Mr. and Mrs. Wm. Robinson, of the 16th. Capt. O. M. Snider has taken to the tall timbers metaphorically speaking, as a young duck takes

to water, and he has a gang of men cutting and hauling logs to the Hampden sawmill. O. M. is a jolly good fellow, whether a person meets him "at home or abroad" We were almost tempted last autumn to predict an exceptionally mild winter, taking for our indication the number of Hampden young men who ruthlessly sacrificed the weather protection on their upper lips, and we would have made the prediction all right if it was a matrimonial move they were contemplating, and we did not wish to discourage anyone. Wonder how many Hampdenites would like to see a likeness of their scribe's phiz in "the paper"? The picture will appear all right if the editor's constitution is strong enough to withstand the shock, for it is he who will receive the first one.

\$3,000.00 CHOICE UP-TO-DATE Merchandise, consisting of cases of Dry Goods, Clothing, Boots and Shoes, Fancy Goods, etc., sold at sacrifice prices FOR TWENTY-ONE DAYS

COMPULSORY CUSTOM HOUSE SALE!

Custom Offices Forced to Sell Many Cases of Unclaimed Goods to Realize the Duty
