NEWS AROUND TOWN

The comet recently discovered in
South Africa was plainly visible
here on Friday evening last.

A confirmed cigarette smoker in
the West recently attempted to
blow out his brains. Of course he
failed.—Toronto News.

Not content with gobbling up the
big end of the hockey score on
Friday last, the Chesley curlers de-
feated two local rinks by 21 shots.

Lost.—A sum of money. In the
Hahn House, in W. Black's hard-
ware store, or between the two
places. Finder will be rewarded.—

Manager Brown is this week in-
stalling two fifteen hundred can-
dle power gasoline lamps in the
rink building, so that in future he
will not be handicapped should the
electric current go wrong.

We are going to give away 25
large 12x14 beautiful photographs
framed, to the first twenty-five
customers ordering one dozen of
our best cabinets. This is the
best offer ever made in Durham.

A couple of rinks of curlers came
over from Walkerton the week be-
fore last and defeated two rinks
here. We couldn't get the score
from our fellows, and had to wait
for the score from Walkerton,
which shows that Walkerton was
8 stones up on the two rinks.

A Durham boy was leaving home
a few days ago, and his father ac-
companied him to the station. Just
as the train was pulling in, the
father called him to one side, and
a bystander heard the following
remark: "John, I am getting to
be an old man, and I know some-
thing about the ways of the world.
My parting advice to you is,—
Never run after a woman or a
street car. There will be another
one along in a minute."

The scrutiny into the legality of
the McGowan By-law takes place
to-day, Thursday. Should it be
defeated, the by-law will be sub-
mitted again just as soon as it
can be properly advertised, and there
seems but little doubt that it will
then carry by a majority that will
not be disputed. The farmers in
the vicinity are taking consider-
able interest in the question and
many indignant remarks have been
made lately at the attempt to de-
feat it. Some of them would not
look well in print, but they were
strongly impressive, and had a
strong odor of brimstone. The
writer voted for the by-law, and
claims he had a right to do so.
The same voting privileges he is
willing to give to others. After
the lapse of a month, and the
amount of discussion it has caused,
we are yet of the opinion that the
town assumes but very little risk
in guaranteeing the bonds.

The first number of the Hep-
worth Progress has reached our
sanctum. This is the second pa-
per started by Mr. O. M. Seim.
His first venture was the Holstein
Leader, which changed hands
twice during the past couple of
years. A paper in Hepworth is
not a new thing, the Journal now
defunct, having been published
there for a number of years, but
changing hands about every quar-
terly meeting. We hope Mr. Seim
may have success. He says he's
going to stay with the job. That's
what most of us local newspaper
men have to do. We've got to
stay with the job because we can't
get money enough to take us away.
The first number looks promising.
The advertising patronage is good,
but what about the price? No lo-
cal paper can succeed without ad-
vertising, and subscription pa-
tronage. We hope the Progress
may progress.

Mr. Wm. Backus has purchased
a beautiful farm in Normanby from
Mr. Alex. Smith, jr.

Next Sunday the regular Quar-
terly Meeting services will be held
in the Methodist churches here and
at Zion.

A Chinese laundryman in Walk-
erton was shot in the arm by
some unknown person firing on
him through a back window.

Thornbury is having difficulty in
getting a town council together,
and after two nominations there
is still one vacant seat. A third
nomination will be required.

Mr. W. F. Dunn, who recently
purchased the J. W. Smith farm at
Aberdeen, resold the property to
Mr. James Heslett. Mr. Dunn also
announces the sale of Mr. George
Hendry's 100-acre farm to Mr. Wm.
Bailey

A sock social will be held in the
Methodist church on Monday eve-
ning next, February 7th. A pro-
gram contest will be given, and
refreshments served. Admission
to all not having socks, 10c.

On Friday evening, the "step" of
the Electric Light Company's wa-
ter wheel at Aberdeen, burnt out
about nine o'clock, leaving the
town in darkness. On account of
the accident, the lights are still
out of commission to-day, Wednes-
day, but will, in all probability, be
on for to-night.

Markdale must be going to the
bad altogether. They defeated
local option in January, and now
they have posters out announcing
a boxing contest. Now, don't be
too rash. There's nothing particu-
larly wrong in knowing some-
thing of the noble art of self-
defence, but a man who can box
well ought to have a level enough
head not to make too free a use
of his knowledge unless he has to.

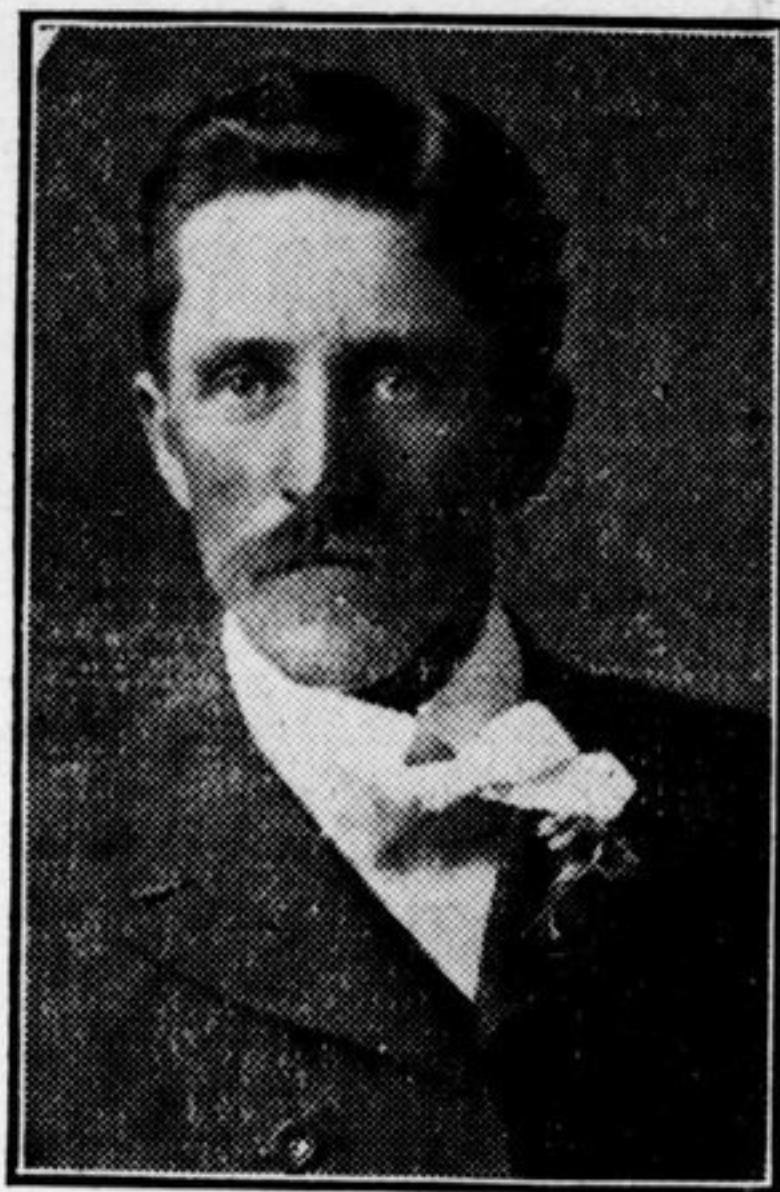

The C. P. R. snowplow jumped
the track here on Thursday morn-
ing at Hutton Hill while clearing
the line to Walkerton. Traffic was
blocked the greater part of the
day, and the auxiliary had to be
sent for to straighten things out.
Outgoing and incoming mails were
delayed, and the passengers were
brought into Durham to await the
clearing of the line. The track
was tied up about twelve hours on
account of the accident.

ORGAN RECITAL

The organ recital given Tuesday
night in the Presbyterian church
by Mrs. Newton was well attended
and must have been a financial
success as well as a musical treat.
The choir was in good form, and
rendered two excellent anthems.
Mrs. A. W. H. Lauder sang "The
Gift," and Miss Ida Wilson "When
the Lights are Low." Each per-
formed her part well, and their ef-
forts were much appreciated by a
very attentive audience. Under
the very skillful manipulation of
the organ by Mrs. Newton, it was
evident to all present that the
instrument is capable of a very
wide range, as shown by the dif-
ferent selections given. The first
was entitled "Meditation," an or-
iginal selection, which shows
much ability in Mrs. Newton as a
musical composer, as well as a
skilful performer. The "Overture
to Stradella," "Overture to Wm.
Tell," "Les Huguenots," "The Storm
—Grand Phantasia," and "Annie
Laurie" in variations, were all
rendered with much ability, and
were listened to intently. There's
something about "Annie Laurie"
that always appeals to the human
soul, and even Irishmen can listen
with pleasure to such renderings
as the audience heard on Tuesday
night. To the writer, it was the
best selection given, but this is
only because we knew it better
than the others, and not because
of its superiority as a musical
production. When we know
enough about music we'll give
opinions, and perhaps laudation
and criticism on the high class
musical productions.

OUR CORRESPONDENTS.

This week, we take much pleas-
ure in introducing to our many
readers a photo engraving of
Mr. H. W. Hunt, who writes from
Vickers. His budgets, like those
of the others, are always reliable,
so far as we know, and we con-
sider him a valuable contributor
of the local happenings about his
own neighborhood. He is a young
and prosperous farmer. We wish
him further success, and hope he

may continue to contribute liber-
ally. He's a married man, so we
needn't say anything about his
looks.

ANNUAL MEETING.

The annual meeting of the South
Grey Agricultural Society was held
in the town hall on Wednesday,
January 19th. The financial stand-
ing of the society was a subject
of regret, owing to the unfavor-
able weather of the last two seas-
ons, but it was hoped the tide of
fortune would soon turn and give
brighter and better prospects.

The officers were elected as fol-
lows:

- Geo. Binnie, President.
- W. Calder, Vice President.
- H. McDonald, 2nd Vice President.
- Directors:—
W. Livingston and W. Scarf, for
Bentick.
- J. W. Blyth and R. Barbour, for
Normanby.
- W. Ramage and D. Hamilton, for

A committee was formed to ar-
range for a Spring Stallion Show,
and the date of the Fall Fair was
fixed for Monday and Tuesday,
September 26th and 27th.

But all Wire is not made
with Canadian conditions
in view.

The Wire formerly used
for the Frost Fence was
made in the States. But
we had it made especially for
us. It gave better satisfac-
tion than most Wire, but we
wanted far better.

For that reason we decided to Make and
Galvanize our own Wire. So we built a Mill
for Wire-making, and another for Galvaniz-
ing, and installed the most modern Machin-
ery in use.

Then we obtained the services of one of
the most expert Wire-makers in America.
A man with 25 years of Wire-making ex-
perience back of him.

The new Frost Wire is Annealed so scienti-
fically that it possesses the proper temper
for Canadian conditions.

Every inch is of uniform temper, and
stronger than any other No. 9 wire.

It will not snap, regardless of peculiar
Canadian weather variations.
