Holstein.

We are pleased to report this week that John Brown is recovering from his recent illness.

Bert Edwards spent a couple of days this week on business in Toronto.

Mr. and Mrs. Arthur Hunt and family returned Monday from Grand Valley.

Miss Ethel Sharp returned Monday from the Queen City, after having spent a couple of weeks with friends there.

Rev. Mr. Evans, of Drew, occupied the pulpit of the Methodist church, Holstein circuit, on Sabbath, the Rev. G. A. King conducting the sacramental services in the Drew circuit.

W. J., J. H. Sharp, and Mrs. D. P. Coleridge received the sad intelligence of the death of their uncle, Mr. Geo. Ingles, of Monkton, at the advanced age of 86 years.

One by one, the pioneers of this vicinity are being called to join the great majority. This week, we chronicle the death of Mr. Thomas Orchard, who departed this life on Wednesday last week at the age of 65 years and 6 months. About a week before his demise he contracted a cold, but did not regard it as serious. However, pneumonia set in, and nothing could be done to relieve the distress. About fifty-five years ago, he came with his parents from the county of Wentworth, and settled on a farm where the village of Orchardville now stands, and after whom it was named. There he, with the other members of the family, shared the hardships of the early settlers. About forty-five years ago, he chose as his life's partner, Miss Christie Main, who predeceased him five years ago. Ten years ago, he retired from active farm life and took up his residence in this village. He was quiet and unassuming, a devoted member of the Methodist church, and Conservative in politics. He was a kind parent, and was ever interested in the welfare of his family. He leaves two sons, John and William, and one daughter, Tena. (Mrs. J. Durant), one brother, John, of London, Ont., and three sisters, Mrs. Taylor, of Barrie, Mrs. Greenwood, of Glenelg, and Mrs. Little, of Allandale. The memorial services were conducted by his pastor, Rev. G. A. King, B.A., assisted by Rev. J. Little, of the Presbyterian church here. The remains were interred Friday in the Mt. Forest cemetery, the pallbearers being his old friends, Messrs. A. Aitken, R. Mickleboro, J. B. Hunt, Thos. Brown, W. Taylor and J. D. Roberts, gone, but not forgotten.

Thousands of young men in our small towns and rural communities leave the old home yearly. In a great many cases it is necessary, and in others they are simply attracted by the allurements of the city or the great North-west. Some go with a definite object in view, while others go because they think "far-off fields look green."

In any case, the young man leaving home for the first time enters a crucial period in his life and has need of help or someone that can give him an opportunity to help himself.

The Provincial committee of the Young Men's Christian Associations, through the corresponding member, does this very thing.

We are trying to secure a young man in each community to act as corresponding member. He will give letters of introduction, and forward to Provincial committee all particulars regarding young men leaving home. In this way the young men are introduced to pastors, where no Young Men's Christian Association is organized, Association secretaries, and companions that will elevate rather than pull down.

The Young Men's Christian Association, (in Canada there are 31 Associations) has become a world wide organization. It has adapted itself to the needs of men in every continent and country.

The aim of the Association is to surround young men with wholesome influences, and lead them into the Christian life and to church membership, developing all their powers for Christian living and service.

It employs practical means and appeals to the spiritual, social, mental and physical desires and tastes. In modern Association buildings, which most of our cities have, evening educational classes in the common and technical branches, lectures and travel talks, debates and parliaments, and the discussion of timely themes, supplemented by reading rooms, reference and circulating libraries, give abundant opportunity for self culture and advancement to all young men, and especially those who have been deprived of an early education.

Home-like social rooms and club designed buildings encourage the natural expression of the social nature, and many lasting and helpful friendships are formed. Well equipped gymnasiums, baths and swimming pools, with outdoor athletics and aquatics, and summer camps, furnish recreation; make for health and efficiency, and help young men and boys to rightly understand their physical functions.

Young men are assisted in finding suitable boarding houses and useful employment.

Mr. W. A. Glass is the corresponding member for Durham and vicinity. If you know of any man leaving for University, City, North-west, or any other place, it would be for his interest if you would inform Mr. Glass at once.

On Wednesday evening last a most enjoyable party was given at the home of Mr. and Mrs. W. R. Edge. Dancing constituted the principal amusement, but those who did not care to dance were agreeably entertained by other games, and by music and song. The music for the dance was supplied by Messrs. Jos. Firth, J. L. McDonald and the host himself.

The regular meeting of our Literary society on Friday evening last proved very interesting. The subject under discussion was a bill to tax bachelors over thirty, the money so obtained being applied towards the maintenance of

a home for elderly spinsters. Mr. C.H. Moffat was Prime Minister, and was assisted by Messrs. John L. McDonald and Herb. Ritchie. They brought forth many reasons to show how the bill would be a benefit. The bill was opposed by W.J. Ritchie, who was ably supported by John Moffat. Mr. John G. Firth was Speaker of the House and gave the best of satisfaction, as his rulings were very impartial and always accepted and complied with by both parties. After the bill had been discussed, many questions and cross-questions were fired across the floor of the House. We must give the Prime Minister great credit for his ready wit in answering questions. The bill was then put to the House, that is the audience, and was defeated by the narrow margin of ten votes.

The rest of the program consisted in instrumental music, some recitations and duets. The next meeting on Feb. 25th is to be the girls' literary.

We are glad to be able to chronicle that Mrs. W. Alexander who has been suffering from a severe attack of la-grippa has recovered.

Miss L. P. Hopkins, teacher from near Holstein, spent the 13th at her home.

For the last month the 18th and 16th of Normanby, two of this little hamlet's thoroughfares have been made busy by the passing of teams to and from the Hampden saw mill, and Messrs. Seim and Miller's yard now has the appearance of a cemetery for monarchs of the forest. O. M. has killed a few big ones,—monarchs of the forest we mean, of course.

It is a remarkable coincidence that the House of Lords, and House of Commons in Great Britain are having a tussle over the budget, while two similar parties at Hampden are trying to decide whether it is right or wrong to have a choir and organ in the church at Sunday worship. As right is might and has been for past ages, the House of Commons is bound to win in both cases.

Mr. Austin Derby of Mount Forest, arrived home on Friday night and shook hands with Hampden friends on Saturday and Sunday leaving again on Monday to resume his studies at the business college.

An attack of the grip is often followed by a persistent cough, which to many proves a great annoyance. Property is still changing hands around Varney. Con Kreller has sold his 50 acre farm to Mr. Colin Blyth. Con and family are off for the West in a few weeks.

James Burt's sale was attended by a very large crowd and things went off lively and for a good price. Auctioneer Frigman was in his usual good tune and caught the winks and nods at a lively rate. Bob is hard to beat for the job.

HOCKEY

The Northern League hockey match between Walkerton and Durham, played here on Friday last, resulted in a decisive victory for the locals, who won by the score of 8 goals to 2.

Though the score was lopsided, the game wasn't by any means, and although Durham had most of the puck in both sessions, it took them fifteen minutes to score the first one.

The better condition of the locals, however, won out for them in the last half, when they scored 6 goals in easy fashion. So far as their opponents' teamwork was concerned, the Durhams would have scored a dozen more had it not been for the brilliant game played by Clark in goal, who seemed to have his eye glued on the puck at all stages of the game, and swatted the rubber out of his territory in all directions.

Referee Scott, of Palmerston, gave good satisfaction to both teams, who played good, clean hockey, there being only four penalties handed out.

The match to-night, Wednesday, between Chesley and Durham, will undoubtedly be the best, fastest, and hardest-fought game ever played here, and one that will be interesting from start to finish.

This week we anxiously await the "sporting" edition of the Markdale Standard, and will, as the first preliminary, turn to the sporting page for a perusal of the account of the boxing contest held there last Thursday evening.

No doubt: the Standard man will exhaust his supply of adjectives telling how Billy Swatwick landed repeatedly on Kid Hithard's bread basket, thereby disturbing the equilibrium of the Kid's supper, and how the "Kid," in return, connected frequently with Bill's trombone, and knocked the cork out of his claret bottle. The battle between Jem Flatear and Tommy O'Shoost should also receive considerable attention. Anyway, it was a good exhibition, and there was something doing every minute, according to some of the local sports, who took in the fiasco, and were highly pleased with the program.

This Friday night the locals go to Paisley in the last championship match of the season. So far, the Paisleyites have won one game and lost six, and will stand no
