MISS DICK Lambton Street

any pacer on Grand Circuit, '08

Make Each Animal Worth

On 35 of a Cent a Day hens lay in winter, increasing the yield of milk five pounds per cow a day,

or restoring run-down animals to plumpness and vigor. When you feed "stock food" to your cow, horse, swine or poultry, you are merely feeding them what you are growing on your own farm.
Your animals do need not more feed, but something to help their bodies get all the good out of the feed you give them so they can get fat and stay fat all year round; also to prevent disease, cure disease and keep them up to the best possible condition. No "stock food" can do all these things. ROYAL PURPLE STOCK SPECIFIC can and does. It is Nota "Stock Food" But a "Conditioner"

ROYAL PURPLE STOCK SPECIFIC contains no grain, nor farm products. It increases yield of milk from three to five pounds per cow per day before the Specific has been used two weeks. It makes the milk richer and adds flesh faster toan any other preparation known. Young calves fed with ROYAL PURPLE are as large at six weeks old as they would be when fed with ordinary materials at ten weeks.
ROYAL PURPLE STOCK SPECIFIC builds up run-down animals and restores them to

Dan McEwan, the horseman, says: "I have used ROYAL PURPLE STOCK SPECIFIC persistently in the fee ling of 'The Eel,' 2.021, largest winner of any pacer on Grand Circuit in 1908, and 'Heary Winters,' 2.091, brother of 'Allen Winters,' winner of \$36,000 in trotting stakes in 1908. These horses have never been off their feed since I commenced using Royal Purple Specific almost a year ago, and I will always have it in my stables."

One 50c. package of ROYAL PURPLE STOCK SPECIFIC will last one animal seventy days, which is a little over two-thirds of a cent a day. Most stock foods in fifty cent packages last but fifty days and are given three times a day. ROYAL PURPLE STOCK SPECIFIC is given but once a day, and lasts half again as long. A \$1.50 pail containing four times the amount of the fifty cent package will last 280 days. ROYAL PURPLE will increase the value of your stock 25%. It is an astonishingly quick fattener, stimulating the appetite and the relish for food, assisting nature to digest and turn feed into flesh. As a hop fattener it is a leader. relish for food, assisting nature to digest and turn feed into flesh. As a hog fattener it is a leader.

It will save many times its cost in veterinary bills. ROYAL PURPLE POULTRY SPECI-FIC is our other Specific for poultry, not for stock. One 50 cent package will last twenty-five hens 70 days, or a pail costing \$1.50 will last twenty-five hens 280 days, which is four times more material for only three times the cost. It makes a "laying machine" out of your hens summer and winter, prevents fowls losing flesh at moulting time, and cures poultry diseases. Every package of ROYAL PURPLE STOCK SPECIFIC or POULTRY SPECIFIC is

Just use ROYAL PURPLE on one of your animals and any other preparation on another animal in the same condition: after comparing results you will sayROYAL PURPLE has them all heat to death, or else back comes your money. FREE-Ask your merchant or write us for our valuable 32-page booklet on cattle

and poultry diseases, containing also cooking receipes and full particulars about ROYAL PURPLE STOCK and POULTRY SPECIFICS. If you cannot get Royal Purple Specifics from merchants or agents, we will supply you direct, express prepaid, on receipt of \$1.50 a pail for either Poultry

or Stock Specifics. Make money acting as our agent in your district. Write for terms.

For sale by all up-to-date merchants. W. A. Jenkins Mfg. Co., London, Can.

How the Frost Fence "Gives" and "Takes" Like a Spring

NY "coilless" Fence is liable to snap in But the Frost is a coil Fence. In Winter, when steel Wire contracts, Frost coils "give" their surplus. instead of snapping like "coilless" Fence.

And in Summer, when the Wire expands, that surplus returns to the Frost coils, in-stead of sagging and causing the Fence to

And no matter how often contraction or expansion is caused, the Frost Fence always acts the same, like a Spring.

Merely Excuses

Lots of other Wire Fences have a Tension, Curve or Kink, as an excuse for "Give" and "Take." But the number of these "Gives" and "Takes" is limited. They cannot keep it up. It isn't in the Wire or the method. Both the Frost Field-Erected and the Frost Woven Fence have extra provisions for "Give" and "Take." But no others have it. You simply cannot find another Fence which will retain its shape like the Frost.

Make Our Own Wire We are the only Fence Makers in Canada who Make and Galvanize Wire exclusively or Fence purposes.

Wire, to give satisfactory service in Canada, should be made especially to fight off the peculiar Canadian climate, which

simply knocks the very life out of most Fences. But all Wire is not made with Canadian conditions in The Wire formerly used for the Frost Fence was made in the States. But we had it made especially for us. It gave better satisfaction than most Wire, but we

For that reason we decided to Make and Galvanize our own Wire. So we built a Mill for Wire-making, and another for Galvaniz-ing, and installed the most modern Machin-

Then we obtained the services of one of the most Expert Wire-Makers in America. A man with as years of Wire-Making ex-

The new Frost Wire is Annealed so scientifically that it possesses the proper temper for Canadian conditions.

Every inch is of uniform temper, and stronger than any other No. 9 wire. It will not snap, regardless of peculiar Canadian weather variations. Send for free Booklet and samples.
