ROBT. BURNETT

Make Each Animal Worth 25% Over Its Cost

On 3 of a Cent a Day

Your animals do need not more feed, but something to help their bodies get all the good out of the feed you give them so they can get fat nd stay fat all year round: also to prevent disease, cure disease and keep them up to the best possible condition. No "stock food" can do all these things. ROYAL PURPLE STOCK SPECIFIC can and does. It is Nota "Stock Food" But a "Conditioner"

ROYAL PURPLE STOCK SPECIFIC contains no grain, nor farm products. It increases yield of milk from three to five pounds per cow per day before the Specific has been used two weeks. It makes the milk richer and adds flesh faster than any other preparation known. Young calves fed with ROYAL PURPLE are as large at six weeks old as they would be when fed with ordinary materials at ten weeks.
ROYAL PURPLE STOCK SPECIFIC builds up run-down animals and restores them to

plumpness almost magically. Cures bots, colic, worms, skin diseases and debility permanently.

Dan McEwan, the horseman, says: "I have used ROYAL PURPLE STOCK SPECIFIC persistently in the feeding of The Eel,' 2.02\frac{1}{2}, largest winner of any pacer on Grand Circuit in 1908, and Henry Winters,' 2.09\frac{1}{2}, brother of 'Allen Winters,' winner of \$36,000 in trotting stakes in 1908. These horses have never been off their feed since I commenced using Royal Purple Specific almost a year ago, and I will always have it in my stables."

oyal Purple STOCK AND POULTRY SPECIFICS

One 50c, package of ROYAL PURPLE STOCK SPECIFIC will last one animal seventy days, which is a little over two-thirds of a cent a day. Most stock foods in fifty cent packages last but fifty days and are given three times a day. ROYAL PURPLE STOCK SPECIFIC is given but once a day, and lasts half again as long. A \$1.50 pail containing four times the amount of the fifty cent package will last 280 days. ROYAL PURPLE will increase the value of your stock 25%. It is an astonishingly quick fattener, stimulating the appetite and the relish for food, assisting nature to digest and turn feed into flesh. As a hog fattener it is a leader. It will save many times its cost in veterinary hills. ROYAL PURPLE POULTRY SPECIs our other Specific for poultry, not for stock. One 50 cent package will last twenty-five hens 70 days, or a pail costing \$1.50 will last twenty-five hens 280 days, which is four times more material for only three times the cost. It makes a "laying machine" out of your hens summer and winter, prevents fowls losing flesh at moulting time, and cures poultry diseases. Every package of ROYAL PURPLE STOCK SPECIFIC or POULTRY SPECIFIC is
