The challenge debate between the Edge Hill and Green Grove Literary Society in the Edge Hill school, took place as announced, on Wednesday night of last week. The weather was all that could be desired, but owing to the miserable condition of the roads, which were unfit to drive on, a monster crowd was out of the question. The school was pretty well filled, however, and a fairly good program was put up. About thirteen enthusiastic supporters of the Green Grove Trio made the trip on foot, not including two of the speakers and Mr. Peter Ramage, who also walked over the rough roads, to see their boys carry the laurels of victory from the field, and in this they were not disappointed. Both sides battled bravely for supremacy, the question being deeply probed and well discussed. Our boys had no mean foes to contend with as the trio from Edge Hill fought hard and were well posted. The judges were Messrs. John Greenwood, Fred Irish and Peter Ramage, and they certainly had a difficult task to perform as the points were so close. Forty five minutes elapsed after the closing of the debate before an honest and

impartial decision could be arrived at. Mr. Peter Ramage announced the decision, which was given in favor of the negative by the small margin of half a point. As far as points are concerned it looks to have been a very close shave indeed, but taking everything into consideration our boys have no small victory to their credit. The speakers on the affirmative were Messrs. J. L. McDonald, W.J. Ritchie and J.W. Firth, while those who nobly upheld the negative were Messrs. R.J. McFadden, A. A. Aljoe and T.A. Allan. This is how it looks.— Edge Hill issued the challenge, had the debate under their own rules, stood on the affirmative side and on their own platform, and with all this in their favor were fairly beaten by the three from No. 9. Hats off to the boys as they gave Edge Hill an "Eye-Opener" alright.

EDITORIALS TO THE GREEN GROVE EYE-OPENER DUTY

This is a thing which we are all called upon to perform, no matter what our work may be or in what position we may be placed. It is to perform some duty and to do so as honorably and as creditably as we can. Take a telegraph operator for instance at a railway station. His duty is to flash over the wire to the next station the arrival and departure of every passenger and freight train. He must keep trains a certain distance apart and if he fail in performing his duty a wreck and loss of life would be the result. We have often picked up a newspaper and on glancing over its pages we have read news from almost every quarter of the globe when all at once our attention is attracted by the headline "Railway Wreck," and what was the reason? Somebody failed to do their duty, the engineer had fallen asleep in his cab, passed a signal board that was set against him, resulting in another of those awful railway accidents. Now in this case we cannot truthfully say that the engineer did not do his duty, but we can say that the railway company failed in their duty in holding their employee at his post until he was so overcome with fatigue that he fell asleep on duty. The telegraph operator and railway engineer are not the only ones who are confronted by duty, but suffice to say that each and every one no matter who they may be or what position in life they hold, have some duty to perform and may we all do our duty faithfully and fearlessly.
