

Sharp, Stiff Discs and Sure-Cleaning Scrapers

When you require a Disc Harrow, be sure and examine the "Lion." It is one of those famous Frost & Wood machines that work so satisfactory. The sharp, stiff discs will pulverize and loosen the surface of the land just exactly right. Even if the soil is sticky the "Lion" works O.K., because it has sure-cleaning scrapers that absolutely prohibit the discs from getting clogged. Two horses handle the "Lion" comfortably and there is no side draft. It is built of the very best materials throughout, as is all Frost & Wood farm machinery.

ENGLISH LIQUID PAINT

Said the House-owner:

"Give me ten gallons of "English" Liquid White Paint.
"No, Sir! I won't take any other kind.
"Yes, that other paint may possibly be good paint, but if it is all right in every way, why don't the makers tell you, and tell me, frankly, what they are trying to sell us—namely, what is in the paint.
"I always use "English" Liquid Paint because the guarantee formula is on the can telling me that it is made of 70% white lead, 30% zinc white, pure linseed oil, pure turpentine and dryer. I know this formula is the standard in paint making and I know that I am taking no chance when I use that kind of paint."
"English" Liquid Paint made by Braman-Henderson Limited, is very economical to use. Come in for a color card,

This Hint May Save You Money.

Very often the cheapest and poorest production yields most profit. Some dealers with their own profit in view try to "push" inferior preparations when Zam-Buk is asked for. They talk about "just as good" or "practically the same," etc.

Not one dealer knows what is in Zam-Buk! If any dealer tells you that something else is "just as good," ask him how he knows!

Besides, the imitation is never as good as the genuine article. When buying Zam-Buk, therefore, be sure and see the name on the packet. The name is protected by law, and therein lies your safety.

Scott's Emulsion

is the original—has been the standard for thirty-five years.

There are thousands of so-called "just as good" Emulsions, but they are not—they are simply imitations which are never as good as the original. They are like thin milk—SCOTT'S is thick like a heavy cream.

If you want it thin, do it yourself—with water—but don't buy it thin.

Have You Stomach Trouble?

When you wake up with headache and bad taste in the mouth, something to settle the stomach is needed. That dull, heavy feeling, must be lifted, and appetite must be created. Get a tumbler of water, some sugar, and then pour in a stiff dose of Nerviline. You will feel tip top in a few minutes. Nerviline invigorates, braces, tones puts vim and snap into your movements. You'll be fitted for a hard day's work by taking Nerviline—nothing better. Large bottle 25c. everywhere.

Origin of The \$ Sign.

Perhaps the sight of the dollar sign will make more eyes brighter than any other symbol. Probably most people do not know the origin of this symbol, writes Dr. J.T. McFarland, editor of the A. B. C. Monthly, New York. It originated shortly after the discovery of America, and was put upon a Spanish coin. The two parallel upright lines represented the Pillars of Hercules, and the S-shaped line the scroll of History. Dollars rightly used are indeed the pillars of the gateways opening to new worlds of opportunity and progress, and the scroll of history bears no nobler records than those of philanthropic benevolence. But through the Pillars of Hercules have sailed out pirate ships, as well as ships of discovery and peace. And so the dollar sign will mean to a man the things, good or bad, to which he devotes his dollars.
