SEGREGATION

Two illegitimate children were born in Walkerton during the last few weeks. The mothers of these children are about eighteen years of age. Now, isn't this a deplorable state of affairs? The unfortunate mothers in these cases were street walkers, and there are about ten other girls of about the same age following the same occupation in this town. If you don't know them, your sons and daughters do. The railway depots are favorite meeting spots for these people and all the streets of the town are used as a promenade. If we have got to have people of this sort in town we better have segregation. Preachers can preach until they are blue in the face but they don't get at this evil. It is a matter for the Town Council to deal with.—Bruce Herald.

PERIL FROM GASOLINE.

A lady who is very practical in other directions, when using gasoline to exterminate carpetbugs, made the awful mistake of lighting a match to examine a dark corner, says a Good House-keeping writer. Instantly the whole room was ablaze. She caught up her baby in terror and retreated to a nearby closet, closing the door behind her. Had that closet been windowless, she and her babe would have lost their lives and the house been burned. She broke the closet window pane with her hands, and both were rescued from the roof by the fire department. The room was closed so tightly the fire could not make much headway before the firemen arrived. Vigorous rubbing will ignite the gasoline, even when there is no fire in the room, but the danger does not even end there. Gasoline is a powerful anaesthetic agent and should never be used in a close room. A friend but recently related her experience with it. She used it freely about the walls and carpets, with the doors and windows closed. Suddenly she grew faint and dizzy. She staggered out of the room and crawled upon the porch, but did not quite lose consciousness. A physician told her had she done so there would have been no help for her, for, as yet, there is no restorative known to medical science. This is the reason its gas will kill insects and vermin.

The Impossible Has Become Possible

English Chemists are the Discoverers

To grow hair on bald heads was once considered impossible. They have recently discovered the long looked for remedy.

Ladies need never wear rats. The ladies of Paris have abandoned all false hair fillers, and are using the new hair grower, SALVIA. Hair can be grown in a few weeks.

Mrs. Jackson, of New York writes stating that since using SALVIA her hair has grown six inches in two months. Marvellous are the results obtained from this new preparation. Not only does it produce a beautiful, fluffy, head of hair, but at once destroys the dandruff germ. Macfarlane & Co. guarantee SALVIA to grow hair, kill dandruff, and to make the hair soft and fluffy. SALVIA is not a dye; does not contain anything injurious. All of its ingredients are simple and harmless. A daintily perfumed hair dressing, used and endorsed by men and women of society. A large, generous bottle only costs 50c., and remember, a money back proposition.

WHAT DO YOU KNOW?

How about the school houses in your town? What sort of a classroom is provided for your son or daughter to work in five or six hours per day? Do you know whether fresh air is admitted or prohibited in that room? Do you know whether the room is properly cleaned, or is it germ laden with sweepings? And if you don't know, why don't you know? Why do you watch your child's scholastic progress, as shown in weekly or monthly reports from the teacher, and neglect to ask what care is given to his body from 9 to 12 and from 1.30 to 3.30 five days in the week? If you heard that little Jimmie Brown, who sits at the desk

Tonic or Stimulant?

There is an immense difference between a tonic and a stimulant. Up one day, way back the next; that's a stimulant. Steady progress day by day toward perfect health; that's a tonic. Ayer's Sarsaparilla is a tonic, a strong tonic. The only Sarsaparilla entirely free from alcohol. Do not stimulate unless your doctor says so. He knows. Ask him. Do as he says. J.C. Ayer Co., Lowell, Mass.

Constipation is the one great cause of sick-headache, biliousness, indigestion, bad breath, debility, nervousness. Has your doctor ever recommended Ayer's Pills to you?

next to your son was carrying diphtheria germs from the bedside of his sick father into that class-room you would be the first to appear before the city physician or board of health to file a complaint. Well Jimmie's father had a disease just as infectious—tuberculosis—and Jimmy Brown is carrying into that close, unventilated class-room tuberculosis germs in his clothing. Why don't you do something to prevent such dangerous contact for your boy? Why don't you demand in your town notification and registration for the father, and fumigation and segregation for your son? What right have you as an intelligent father and mother to let your child take such a chance? These are straight-from-the-shoulder questions which you, as a parent, should consider and answer. They contain the reason for physical examination of school children. This does not work a hardship on a few and it does save the many. Better that the school board of your town should be forced to spend a few dollars each month for a class of segregated tubercular children than that your children and a score of other healthy children should be infected with the white plague.—Woman's Home Companion.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the formation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
