Another case of scarlet fever has developed on the farm in the family of Mr. Samuel P. Dar, who are now under quarantine and the Port law school has been closed.

Herb Smith enjoys baseball but not a ball from the bat and such as he received while back-slapping on Friday evening. A shot on the juglar so completely winded him that it took some seconds to reanimate him, but he is again as game as ever.

Rev. H. E. and Mrs. Wellwood and Mrs. VanDusen went to Chatsworth on Tuesday to attend a marriage at which Mr. Wellwood assisted.

While returning home from the funeral of his mother on Saturday Mrs. John Chislett, of Ceylon, had a narrow escape from death by the horse taking fright at a passing automobile. The buggy was upset and badly damaged and in the mix-up Mrs. Chislett was severely shaken up, but fortunately sustained no fractures and we learn she is recovering nicely. Her little daughter escaped without much injury.

Mr. R. Maddock, of Toronto, holidayed with friends last week.

Mr. and Mrs. Will Moore visited the former's old home in Normandy last week.

Mrs. T. E. Aikenhead, and daughter Ruby, of Toronto, visited the former's mother, last week, and were accompanied home by Miss Dorothy Clark.

Dr. Ern. Armstrong, of Cobalt, came home to spend a few days with his mother, but his visit has been marred with an attack of tonsillitis.

Mr. and Mrs. J. W. Bates, of Toronto, are spending a fortnight with relatives in Artemesia and Osprey. Mr. Bates owns a very handsome driving outfit with which they pleased from the city. They were the guests of Mr. and Mrs. J. A. Cornfield on Saturday. Mrs. Bates, sr., and granddaughter, Mrs. R. Maddock, of the city, are also visiting relatives.

Mrs. W. Ayers, of Toronto, is visiting her daughter, Mrs. Joseph Blackburn.

Mr. and Mrs. W. J. Bellamy visited the latter's mother at Nottawasaga over Sunday.

Miss Jennie Flynn, and sister, of Berkeley visited over Sunday with Mrs. Flynn, here.

A LITTLE WISDOM

You can turn a crank down, but he always turns up.

A woman is extolled for her virtues, and adored for her weaknesses.

The world expects a man to make a fool of himself over a woman but it never forgives a woman who makes a fool of herself over a man.

To know thyself is wisdom; to know how to impart that knowledge to others—that's cleverness.—Smart Set.

Beware of Ointments for Catarrh That Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by all druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

One Dose for Coughs

Children cough at night? Give them Ayer's Cherry Pectoral. Often a single dose at bedtime will completely control the cough. Good for any one with a cold or cough. Good for easy cases, hard cases; good for acute cases, chronic cases. Ask your doctor to tell you, honestly and frankly, just what he thinks of this old standard remedy. No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass.

A lazy liver makes a lazy boy. An active brain demands an active liver. No better laxative for boys and girls than Ayer's Pills. Ask your doctor about them. He knows.

TO KEEP EGGS FRESH.

How to Preserve Them For at Least Eight Months.

Fresh eggs in cold storage at 34 degrees F. undergo little if any change, for this temperature is sufficient to limit the activities and prevent the growth of the more common bacteria.

The problem of preserving eggs by excluding air has brought forth numerous methods. According to American Medicine, German investigators several years ago conducted a series of tests, keeping the eggs for about eight months in some twenty different ways, and found that immersed in brine all were unfit for use:

Per cent. bad.
Wrapped in paper..... 80
Packed in bran or coated with paraffin..... 70
Immersed in salicylic acid..... 50
Coated with shellac or collodion..... 40
Packed in wood ashes..... 20
Coated with vaseline or immersed in a solution of water glass or lime-water, none bad.

From these experiments as well as many others it has been found that a solution of water glass offers about the best method of preserving eggs aside from cold storage. Water glass is the common name for potassium silicate and is obtained in the shops in the form of a thick liquid something like glycerine. One part of this to nine of sterile water makes a preserving fluid of the proper strength.

The eggs should be packed in a clean, sweet vessel and the solution poured over them until they are well covered. Preserved in this way in a cool place, they will keep for months and often cannot be distinguished in appearance from the fresh article. It is generally conceded that they lack the flavor of new laid eggs, but are in no way inferior in nutritive value.
