PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the sewers of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this. At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy." Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c a box.

Here's the Truth, Madam, About Brown Breads

A prejudice, is an imaginary truth surrounded by falsehood. Which reminds you of the Brown Bread prejudice, the Whole Wheat idea and the Food Fads.

If, Madam, you will kindly introduce us to the brilliant individual who started the fallacy that Brown Breads is sounder, more substantial, more sustaining than White Bread made, say from FIVE ROSES flour, we will gladly undertake to put him right.

For, you see, we deny the allegation and, if necessary, would face the—er—"alligator".

This is the how of it, Madam. Brown or "Graham" Bread is made from Graham Flour.

Which, of course, is just common flour with the Bran added—lots of it, from 25 to 100 per cent. maybe.

Now, Bran is nothing but the woody fibrous husks of the wheat berry which are utterly indigestible in the human food tube, and therefore absolutely useless as nutrients.

Might as well eat an orange plus the skin, a banana plus the peel, a cocoonut plus the shell.

So that, Madam, if YOUR brown bread contains 25 to 80 per cent. bran, worse than useless as food, it's a very costly fad. Aren't you paying too much for your whistling?

Then think that while bread made from FIVE ROSES flour contains no waste at all, being 100 per cent. pure nutrition, Moreover, the sharp, horny particles in bran-charged flour (Graham) tend

to irritate the alimentary tract. "Any attempt to eat brown bread three times daily with-out intermission very quickly results in setting up a diarrhoea with well-marked disturbance of the stomach. This was one of the many valuable contributions to science of Sir Lauder Brunton who established the fact of this cumulative irritating effect and even gave to the resultant irritation the title of "BROWN BREAD GASTRITIS".

This, Madam, lest you lend too ready an ear to calumnies against White Flour.

For we make FIVE ROSES, and from it YOU can make bread infinitely more substantial, sounder, tastier, more sustaining, more digestible and healthy than the very best of brown or whole wheat breads. Ay, Madam, and infinitely cleaner—for it's impossible to purify the low-grade flour and bran in brown bread like we clean FIVE ROSES. Our word on it.
